## **Mission Uncertain Reassessing Americas Global Role:**

Mission Uncertain Michael deCourcy Hinds,1995-09      *Who Speaks for America?* Eric Alterman,1998 Journalist and historian Eric Alterman argues that the vast majority of Americans have virtually no voice in the conduct of U S foreign policy With policymakers answerable only to a small coterie of self appointed experts corporate lobbyists self interested parties and the elite media the U S foreign policy operates not as the instrument of a democracy but of a pseudo democracy a political system with the trappings of democratic checks and balances but with little of their content This failure of American democracy is all the more troubling Alterman charges now that the Cold War is over and the era of global capital has replaced it Americans stake in so called foreign policy issues from trade to global warming is greater than ever Yet the current system serves to mute their voices and ignore their concerns Alterman concludes with a series of challenging proposals for reforms designed to create a truly democratic U S foreign policy      The Social Studies Professional ,2002

Rusk,2017-04-24 A diverse body of research exists to explain why eligible voters don t go to the polls on election day Theories span from the psychological nonvoters have limited emotional engagement with politics and therefore lack motivation to the social politics is inherently social and nonvoters have limited networks and the personal nonvoters tend to be young less educated poor and highly mobile Other scholars suggest that people don t vote because campaigns are uninspiring This book poses a new theory uncertainty about the national context at the time of the election During times of national crisis when uncertainty is high citizens are motivated to sort through information about each candidate to figure out which would best mitigate their uncertainty When external uncertainty is low however citizens spend less time learning about candidates and are equally unmotivated to vote The American Nonvoter examines how uncertainty regarding changing economic conditions dramatic national events and U S international interventions influences people s decisions whether to vote or not Using rigorous statistical tools and rich historical stories Lyn Ragsdale and Jerrold G Rusk test this theory on aggregate nonvoting patterns in the United States across presidential and midterm elections from 1920 to 2012 The authors also challenge the stereotype of nonvoters as poor uneducated and apathetic Instead the book shows that nonvoters are by and large as politically knowledgeable as voters but see no difference between candidates or view them negatively      Monthly Public Opinion Surveys Indian Institute of Public Opinion,1998      **Proceedings** United States Naval Institute,1993      *An American Budget* United States.
