Mississippian Communities And Households:

Mississippian Communities and Households J. Daniel Rogers, Bruce D. Smith, Bruce David Smith, 1995-11-30 During the Mississippian period approximately A D 1000 1600 in the midwestern and southeastern United States a variety of greater and lesser chiefdoms took shape Archaeologists have for many years explored the nature of these chiefdoms from the perspective common in archaeological investigations from the top down investigating ceremonial elite mound structures and predicting the basic domestic unit from that data Because of the increased number of field investigations at the community level in recent years this volume is able to move the scale of investigation down to the level of community and household and it contributes to major revisions of settlement hierarchy concepts **Reconsidering Mississippian Communities and Households** Elizabeth Watts Malouchos, Alleen Betzenhauser, 2021-04-20 Explores the archaeology of Mississippian communities and households using new data and advances in method and theory Published in 1995 Mississippian Communities and Households edited by J Daniel Rogers and Bruce D Smith was a foundational text that advanced southeastern archaeology in significant ways and brought household level archaeology to the forefront of the field Reconsidering Mississippian Communities and Households revisits and builds on what has been learned in the years since the Rogers and Smith volume advancing the field further with the diverse perspectives of current social theory and methods and big data as applied to communities in Native America from the AD 900s to 1700s and from northeast Florida to southwest Arkansas Watts Malouchos and Betzenhauser bring together scholars researching diverse Mississippian Southeast and Midwest sites to investigate aspects of community and household construction maintenance and dissolution Thirteen original case studies prove that community can be enacted and expressed in various ways including in feasting pottery styles war and conflict and mortuary treatments The Archaeology of Everyday Life at Early Moundville Gregory D. Wilson, 2008-01-28 Defines household composition and social relationships at Moundville **Archaeology of Communities** Marcello-Andrea Canuto, Jason Yaeger both at, 2012-11-12 Wide range of approaches and settings unlike other books on similar topics International appeal on America centered courses Appeal for courses such as landscape studies and settlement Some contributors with enormous reputations in this collection Joyce Isbell Marcus Preucel **Households and Hegemony** Cameron B. Wesson, 2008-01-01 Drawing together information from ethnohistoric records and data from one of the largest excavations in Alabama s history the Fusihatchee Project Cameron B Wesson reexamines changes in early Creek culture from before and after contact with Europeans beginning in the sixteenth century Casting the household as a multifaceted cultural institution he contends that important social economic and political transformations occurred during this time changes that redefined the relationship between Creek households and authority As avenues for exchange with outsiders broadened and diversified prestige trade goods usually associated with Creek elites became increasingly available to individual households so that contact with Europeans contributed to empowerment for Creek households and a weakening of traditional chiefly

authority **The Archaeology of Houses and Households in the Native Southeast** Benjamin A. Steere, 2017-04-11 This book explores changes in houses and households in the southeastern United States from the Woodland to the Historic Indian Period ca 200 B C to A D 1800 Most studies of domestic architecture in the Southeast have been conducted at the single site scale As a result broader spatial and temporal patterns of variation in houses and households are not well understood To address this problem Steere constructed a database that catalogues the architectural features of 1 258 structures from 65 sites in the Southern Appalachian region and surrounding areas Significant trends identified by this comparative study include changes in the size and spacing of houses changes in architectural investment and a secular trend toward the increasing segmentation of houses Using a theoretical framework developed from household archaeology and anthropology Steere argues that certain aspects of this architectural variation can be explained by changes in household economics and household composition symbolic behavior status differentiation and settlement patterning More generally he proposes that large scale patterns of diachronic and synchronic variation in domestic architecture are best explained by changes in social organization Provided by publisher **Archaeology of Households, Kinship, and Social Change** Lacey B. Carpenter, Anna Marie Prentiss, 2021-11-24 Archaeology of Households Kinship and Social Change offers new perspectives on the processes of social change from the standpoint of household archaeology This volume develops new theoretical and methodological approaches to the archaeology of households pursuing three critical themes household diversity in human residential communities with and without archaeologically identifiable houses interactions within and between households that explicitly considers impacts of kin and non kin relationships and lastly change as a process that involves the choices made by members of households in the context of larger societal constraints Encompassing these themes authors explore the role of social ties and their material manifestations within the house dwelling or other constructed space how the household relates to other social units how households consolidate power and control over resources and how these changes manifest at multiple scales The case studies presented in this volume have broader implications for understanding the drivers of change the ways households create the contexts for change and how households serve as spaces for invention reaction and or resistance Understanding the nature of relationships within households is necessary for a more complete understanding of communities and regions as these ties are vital to explaining how and why societies change Taking a comparative outlook with case studies from around the world this volume will inform students and professionals researching household archaeology and be of interest to other disciplines concerned with the relationship between social networks and societal change *Ancient Cahokia and the Mississippians* Timothy R. Pauketat, 2004-06-17 Using a wealth of archaeological evidence this book outlines the development of Mississippian civilization **Mississippian Political Economy** Jon Muller, 2013-11-21 This ambitious work offers a coherent and comprehensive look at the material conditions underlying and stimulating political development in southeastern North America during the Mississippian period After introducing

theoretical issues Muller addresses reproduction production distribution and consumption within their social and material contexts Examined through the lens of the production distribution and consumption of prestige and staple goods a profoundly domestic though significantly differentiated Mississippian political economy emerges This study s broad synthetic view ensures that neither environment nor ideology are overemphasized A fine statement of an important theoretical position the volume features considerable graphic and tabular presentation of data *The Oxford Handbook of North American Archaeology* Timothy R. Pauketat,2012-02-23 The Oxford Handbook of North American Archaeology reviews the continent s first and last foragers farmers and great pre Columbian civic and ceremonial centers from Chaco Canyon to Moundville and beyond Bottle Creek Ian W. Brown,2003-03-19 Consisting of 18 earthen mounds and numerous additional habitation areas dating to A D 1250-1550 the Bottle Creek site was first professionally investigated in 1932 when David L DeJarnette of the Alabama Museum of Natural History began work there to determine if the site had a cultural reipconnected to the north by a river system This volume builds on earlier investigations to present extensive recent data from major excavations conducted from 1991 to 1994 and supported in part by an NEH grant Ten anthropologists examine various aspects of the site including mound architecture prehistoric diet pottery classification vessel forms textiles used to make pottery impressions a microlithic stone tool industry water travel the persistence of mound use into historic times and the position of Bottle Creek in the protohistoric world *Archaeological Adaptation* C. Clifford Boyd,2024-01-12 Archaeological Adaptation Case Studies of Cultural Transformation from the Southeast and Caribbean honors the work of longtime University of Tennessee anthropology professor Gerald Schroedl whose career encompassed fieldwork and research in both prehistoric and historic archaeology Schroedl s early career often focused its analysis on Mississippian and Cherokee sites while his later years found him delving into historic archaeology in the Caribbean Revisiting these touchstones of Schroedl s work editor C Clifford Boyd here gathers essays around the disciplinary theme of documentation and analysis of change Contributors study excavations in Tennessee Virginia South Carolina wider southern Appalachia and the Caribbean providing insight into Native American African American and English civilizations Artifacts architecture human and structural remains and climatic and environmental factors yield insight into changing settlement patterns tribal practices material culture economic and political power relations and health and nutrition A preface tracing Schroedl s career and an afterword addressing developments in archaeological theory round out the volume **Pox, Empire, Shackles, and Hides** Jon Bernard Marcoux,2010-10-31 Discusses the settlement and later abandonment of the Tuckaleechee towns of Cherokees in the later 17th and earlier 18th centuries by examining the archaeological record of their everyday lives **The View from Madisonville** Penelope Ballard Drooker,1997-01-01 Madisonville was one of the key settlements of the Ohio Valley Fort Ancient people and was the subject of James Griffin s 1943 classic *The Fort Ancient Aspect* It is a site rich in burials and artifacts documenting the earliest European influences Drooker re explores a century of excavation to explain how Contact Period events affected Madisonville

inhabitants and their links to eastern Fort Ancient northern Ohio Iroquoian Oneota and Mississippian groups

Killing Civilization Justin Jennings, 2016-04-15 The concept of civilization has long been the basis for theories about how societies evolve This provocative book challenges that concept The author argues that a civilization bias shapes academic explanations of urbanization colonization state formation and cultural horizons Earlier theorists have criticized the concept but according to Jennings the critics remain beholden to it as a way of making sense of a dizzying landscape of cultural variation Relying on the idea of civilization he suggests holds back understanding of the development of complex societies Killing Civilization uses case studies from across the modern and ancient world to develop a new model of incipient urbanism and its consequences using excavation and survey data from atlatlh y k Cahokia Harappa Jenne jeno Tiahuanaco and Monte Alb n to create a more accurate picture of the turbulent social political and economic conditions in and around the earliest cities The book will influence not just anthropology but all of the social sciences

Archaeological Perspectives on the Southern Appalachians Ramie A. Gougeon, Maureen Meyers, 2015-03-10 This volume demonstrates how archaeologists working in the Southern Appalachian region over the past 40 years have developed rich interpretations of prehistoric and historic Southeastern Native societies by examining them from multiple scales of analysis The end results of these examinations demonstrate both the uses and the constraints of multiscalar approaches in reconstructing various lifeways across the Southeast

Southeastern Ceremonial Complex Adam King, 2007-08-26 How certain Southern indigenous viewed themselves from prehistory to decimation by Europeans was already a significant subject of study fifty years ago but more recent scholarship has proven that what was once considered a single cult was actually a complex of cults with myriad adaptations of myths and artifacts This collection of 12 articles details archeological findings and analysis of how this warrior based set of precepts and practices developed and grew into elaborate ceremonial places and burial grounds Topics include the implications of recent analysis of sites early evidence of the Southeastern Ceremonial Complex SECC and its contexts the role of time in development of the SECC material and iconographic evidence of the SECC in Erowah culture evidence from Moundville potsherds SECC ritual regalia in the southern Appalachians and other regions the role of sex in SECC and future directions of research

Beyond Collapse Ronald K. Faulseit, 2016 This book interprets how ancient civilizations responded to various stresses including environmental change warfare and the fragmentation of political institutions It focuses on what happened during and after the decline of once powerful regimes and posits that they experienced social resilience and transformation instead of collapse

Agent of Change Barbara Roth, E. Charles Adams, 2021-03-03 Ash is an important and yet understudied aspect of ritual deposition in the archaeological record of North America Ash has been found in a wide variety of contexts across many regions and often it is associated with rare or unusual objects or in contexts that suggest its use in the transition or transformation of houses and ritual features Drawn from across the U S and Mesoamerica the chapters in this volume explore the use meanings and cross cultural patterns present in the use of ash and highlight the

importance of ash in ritual closure social memory and cultural transformation **Yuchi Indian Histories Before the Removal Era** Jason Baird Jackson, 2012-11-01 In *Yuchi Indian Histories Before the Removal Era* folklorist and anthropologist Jason Baird Jackson and nine scholars of Yuchi Euchee Indian culture and history offer a revisionist and in depth portrait of Yuchi community and society This first interdisciplinary history of the Yuchi people corrects the historical record which often submerges the Yuchi within the Creek Confederacy instead of acknowledging the Yuchi as a separate tribe By looking at the oral historical ethnographic linguistic and archaeological record contributors illuminate Yuchi political circumstances and cultural identity Focusing on the pre Removal era the volume shows that from the entrada of Hernando de Soto into the American South in 1541 to the Yuchis internal migrations throughout the hinterlands of the South and their entanglement with the Creeks to the maintenance of community and identity today the Yuchis have persisted as a distinct people This volume provides a voice to an indigenous nation that previous generations of scholars have misidentified or erroneously assumed to be a simple constituent of the Creek Nation In doing so it offers a fuller picture of Yuchi social realities since the arrival of Europeans and other non natives in their Southern homelands
