Mitigating Conflict The Role Of Ngos:

Mitigating Conflict Henry F. Carey, Oliver P. Richmond, 2004-08-02 Drawing upon the writings of academics and activists this collection explores the roles that have emerged for NGOs as they have engaged more with peacekeeping and peacebuilding initiatives in various locations around the world

Mitigating Conflict, 2003 Special Issue Mitigating Conflict Henry F. Carey, 2003

Status of NGOs in International Humanitarian Law Claudie Barrat, 2014-07-24 In *Status of NGOs in International Humanitarian Law* Claudie Barrat examines the legal framework applicable to NGOs in situations of armed conflict The author convincingly demonstrates contrary to convention that in addition to the ICRC the National Societies and the IFRC numerous other NGOs referenced in humanitarian law treaties have a legal status in IHL and therefore legitimate claim to employ IHL provisions to respond to current challenges On the basis of clear and thorough definitions of these entities Barrat argues that existing NGOs meeting stringent definition can benefit from customary rights and obligations in both international and non international armed conflict

Organisation and Management of NGOs Dr S Joseph Xavier, NGOs have undergone a metamorphosis in the past few decades This book implies the pre dominant position played by NGOs have an enormous potential to make a difference in each aspect of every business organization and society Keeping these ever changing developments in mind this book has been designed to address the conventional and contemporary aspects of the subjects This book provides a comprehensive coverage of the organization and management of NGOs

Non-Governmental Organisations in International Law Anna-Karin Lindblom, 2005 Even when governments have no democratic basis they are regarded as the sole representatives of their populations on the international plane and take important decisions on their behalf It is therefore important that other voices can be heard in international fora alongside governments NGOs have an increasingly important legal and political role and use several different avenues for their work such as lodging cases before international courts and other bodies and participating in international meetings and conferences This book explores these possibilities for the participation of NGOs in international law

Reducing Armed Violence with NGO Governance Rodney Bruce Hall, 2013-10-01 NGOs have proliferated in number and become increasingly influential players in world politics in the past three decades From the 1970s with the access of social movements and private NGOs to local and international institutions NGOs have enjoyed an opening to bring impact global policy debates Yet NGOs find themselves highly constrained in bringing their material and epistemic resources to bear in the security arena where their activities normally must be authorized by states or international organizations acting with authority delegated from states They also find their activities particularly in the security arena come frequently under attack as lacking accountability or lacking legitimacy as NGOs are self appointed private actors often representing only themselves they are seen by many as self appointed meddlers in transnational affairs This book provides a comprehensive and accessible analysis whether or the extent to which NGOs can contribute as private actors to authoritative governance outcomes in the

security realm and thereby help mitigate armed violence by plugging governance gaps in this arena that state actors or international governmental organizations IGOs either neglect or can better address with NGO assistance This book examines the current and future issues surrounding this objective in four sections i a practitioner s perspective of the potentials of conflict governance NGOs ii global civil society and legitimation of conflict governance NGO activities iii conflict governance NGOs as norm entrepreneurs and norm diffusion in global governance iv conflict governance NGOs in action

NGOs in Foreign Policy Andreas Werner, 2016 NGOs are seen as important actors of international relations and foreign policy by many scholars However such a perspective has rarely been empirically examined This book therefore takes a look at the access granted to NGOs by the state to the planning and decision making processes in foreign and security policy By applying the theoretical concept of security governance the author takes a look at frameworks such as the German Action Plan Civil Crisis Prevention the Coordination Committee Humanitarian Aid the Dutch PSD Network and the National Action Plan 1325 In conclusion a comparison between Germany and the Netherlands reveals where NGOs can gain more access to foreign security policy It eventually enables the author to argue how big or small the role of these non state actors really is and what consequences this implies for both the empirical and theoretical side of foreign policy Andreas Werner M A studied Political Science International Relations Philosophy as well as Peace and Conflict Studies at the University of Marburg and at the Mount Allison University Canada He successfully defended his PhD thesis at the University of Münster in 2015 He currently works as a research associate at the German Police University

Privatizing the Democratic Peace H. Carey, 2011-12-14 With inevitable major economic and political transformations ahead NGOs need to acknowledge and manage their policy dilemmas so that they can anticipate the many inevitable problems that consistently arise in attempting to avoid the return of war by building peace over the medium to long term

The Oxford Handbook of Religion, Conflict, and Peacebuilding Atalia Omer, R. Scott Appleby, David Little, 2015 The book provides a comprehensive overview of the literature on religion conflict and peacebuilding With a focus on structural and cultural violence the volume also offers a cutting edge interdisciplinary reframing of the scope of scholarship in the field

Baehr, 2009-04-28 Human rights play a crucial role in today's international relations They provide standards to which states must conform when dealing with their own citizens Non governmental human rights organizations remind states of their obligations in that field Without this human rights would

have drifted to the bottom of the international agenda Neo-medievalism and Civil Wars Neil Winn,2004 In this book leading European scholars analyse the proposition that the world has returned to a system of neo medievalism over a decade after the end of the Cold War *The Economics of UN Peacekeeping* Nadège Sheehan,2011-07-25 Peacekeeping is a security concept that is very representative of the current interventionism multilateralism human rights and humanitarian ideas UN peacekeeping plays an important role in international security and includes various activities that go beyond the original roles assigned to UN armed forces e g humanitarian aid election supervision disarmament mine clearance civilian protection and peacebuilding The problem is to define the economic efficiency of these operations and to develop some recommendations in the context of an economic globalization process Although UN peacekeeping has shortcomings it must be considered essential for organizing and defending the world politico economic order UN peacekeeping is a political activity but its production strongly depends on nations economic considerations Governments make political decisions that also take into account the economic gains they expect to obtain from their contribution to any specific mission With low means and inadequate strategies to meet the challenges UN peacekeeping must pay particular attention to resolving the problems of free riding and of prisoner s dilemma in contributions that delay deployments and create significant financial problems Understanding how peacekeeping can be most cost effectively carried out while considering the importance of legitimacy in interventions is essential This book believes that regional organizations can ease the UN s financial responsibility by managing conflicts in their regions But to be most effective they must involve the UN in their interventions This book also emphasizes UN peacekeeping trust funds as the key to better financial effectiveness It strongly recommends that NATO be empowered by the UN with the role of global peace police and proposes the establishment of a UN high ranking team of international specialists in peacekeeping issues This research should be of interest to students and researchers looking at international and political economics as well as international relations defence security and peace studies **NGOs and Conflict Management** Pamela R. Aall,1996 Subcontracting Peace Henry F. Carey,2017-11-28 Non governmental organizations NGOs have emerged as crucial actors in peacebuilding processes in post conflict zones contributing to the liberal state building project NGOs like any other organizations have certain strengths and weaknesses and face tradeoffs and contradictions in peacebuilding Given increasing NGO experience in peacemaking and peacebuilding this volume examines their relatively positive record as well as the constraints limitations and sometimes contradictory impact of their activities and interventions **Human Rights, Human Security, and State Security** Saul Takahashi,2014-07-15 This book provides innovative thinking from a variety of perspectives on the important human rights human security and national security policy issues of today and how these issues intersect The issue of human security comes into play in nearly every important policy debate in global politics and the protection of human rights is now recognized as one of the main functions of any legitimate modern state How can the international community best ensure that human rights

are protected while simultaneously protecting state security Who should intervene in cases of mass gross violations and when are military actions justified This book seeks to address and explore these difficult and pressing questions by presenting the differing views of commentators from various ends of the spectrum Human Rights Human Security and State Security The Intersection consists of three volumes with each focusing primarily on one of the three broad areas while also drawing connections between them A powerful resource for policy makers and practitioners in national governments members of international organizations and scholars the innovative thinking presented will give readers a deepened understanding of the various international issues and help them to formulate effective policies in today s complex international landscape **Yearbook of International Humanitarian Law - 2003** Avril McDonald, 2006-12-31 Provides an international forum for high quality articles on the laws of armed conflict in international law
