Mobilizing The Masses Building Revolution In Henan:

Mobilizing the Masses Odoric Y. K. Wou, 1994 A study of the roots of revolution in the Chinese province of Henan this book describes in detail more than two decades 1925 to 1949 of the efforts of the Communist Party to build mass support for revolution These were decades of social and political crisis beginning with the May 30th Movement exacerbated by the Japanese invasion in 1937 and culminating in the Communist victory of 1949 Looking for historical continuities and changes the book traces the Communist movement's trajectory from the cities to the countryside and back to the urban centers in the process testing the major social science paradigms of peasant based revolution The author studies the interaction in Henan between the Communist revolutionaries and various groups that constituted the social base of the revolution workers religious sectarians rural elites student intellectuals the military and above all the peasantry He closely studies the behavior of these groups and explains the social and structural forces that facilitated or constrained the Communist movement He also shows how Communist mobilization tactics changed to accommodate such varied settings as the war zone the mountains and the floodplain The author concludes that the key to the Communists victory lay in their ability to maneuver their way to political power their skillful use of nationalist sentiment and their community and reform programs that ultimately won over the peasant masses Thus he sees the Chinese Communist movement as a dual revolutionary process of power politics and social revolution

Village China at War Dagfinn Gatu, 2008 This groundbreaking study on the forging of Chinese communism in the furnace of the anti Japanese war focuses on North China where the Chinese Communist Party first took root and later expanded to conquer China Whilst the explosive growth of the Chinese communist movement during the war years is a fact

the nature of this expansion remains disputed Here the author examines a set of interrelated issues that have so far not received comprehensive treatment with regard to the main communist base areas in North China regions where the CCP secured most of its recruits and where its policy programmes were most severely tested by Japanese military campaigns The analysis centres on how the CCP strove to combine two objectives that it perceived as crucial to building up a sustained mass resistance movement to the Japanese socio economic and political restructuring in favour of the poor and the forging of a grassroots rural united front including all social strata The author also stresses the host of severe constraints that the party's policy ambitions ran up against such as massive destruction of the local economy by the Japanese army the economic burden of running the resistance peasant ambivalence to revolutionary changes and the shortage of trained cadres Ultimately the movement spread too rapidly and too widely for the party centre to exert more than a very weak or mediated vanguard function outside scattered enclaves This in turn allowed localities an autonomous dynamic that often conflicted with higher party echelons Nevertheless the movement had a broad if highly uneven redistributive impact on power resources in the region leading to a structural fluidity that lowered the barriers to a future revolution History accelerated

The Victorious Counterrevolution Michael Seidman, 2011-02-24 This groundbreaking history of the Spanish Civil War 1936 39 examines for the first time in any language how General Francisco Franco and his Nationalist forces managed state finance and economic production and mobilized support from elites and middle class Spaniards to achieve their eventual victory over Spanish Republicans and the revolutionary left The Spanish Nationalists are exceptional among counter revolutionary

movements of the twentieth century Michael Seidman demonstrates because they avoided the inflation and shortages of food and military supplies that stymied not only their Republican adversaries but also their counter revolutionary counterparts the Russian Whites and Chinese Nationalists He documents how Franco s highly repressive and tightly controlled regime produced food for troops and civilians regular pay for soldiers farmers and factory workers and protection of property rights for both large and small landowners These factors combined with the Nationalists pro Catholic and anti Jewish propaganda reinforced solidarity in the Nationalist zone Seidman concludes that unlike the victorious Spanish Nationalists the Russian and Chinese bourgeoisie were weakened by the economic and social upheaval of the two world wars and succumbed in each case to the surging revolutionary left *China Reconstructs* Cindy Yik-yi Chu,Ricardo K.S. Mak,2003-06-05 China Reconstructs includes ten articles that investigate the reconstruction of modern China and provide different dimensions to the vibrant and multifaceted history of the country The book discusses how prominent individuals political parties and ordinary people alike looked for ways to reconstruct China in a period of great political upheavals **The Genesis of Chinese Communist Foreign Policy** Michael H. Rowe,2007 This book explores the cultural and social roots of violence in China by studying the history of recurrent massive carnage in one county Macheng between the expulsion of the Mongols in the 14th century and the Japanese invasion of 1938 *Revolutionizing the Family* Neil J. Diamant,2023-04-28 In 1950 China s new Communist government enacted a Marriage Law to allow free choice in marriage and easier access to divorce Prohibiting arranged marriages concubinage and bigamy it was one of the most dramatic efforts ever by a state to change marital and family relationships In this comprehensive study of the effects of that law Neil J Diamant draws on newly opened urban and rural archival sources to offer a detailed analysis of how the law was interpreted and implemented throughout the country In sharp contrast to previous studies of the Marriage Law which have argued that it had little effect in rural areas Diamant argues that the law reshaped marriage and family relationships in significant but often unintended ways throughout the Maoist period His evidence reveals a confused and often conflicted state apparatus as well as cases of Chinese men and women taking advantage of the law to justify multiple sexual encounters to marry for beauty to demand expensive gifts for engagement and to divorce on multiple occasions Moreover he finds those who were best placed to use the law s more liberal provisions were not well educated urbanites but rather illiterate peasant women who had never heard of sexual equality and it was poor men not women who were those most betrayed by the peasant based revolution This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a
