*Merchant Vessels of the United States...* United States. Coast Guard, 1977      **American Tantalus** Andrew Warnes, 2014-10-23 American Tantalus argues that modern US fictions often grow preoccupied by tantalisation This keyword might seem commonplace thesauruses certainly often lump it in with tease and torment in their general inventories of desire Such lists however mislead Just as most US dictionaries have in fact long recognised tantalise s origins in The Odyssey so they have defined it as the unique desire we feel for objects that like the fruit and water once cruelly placed before Tantalus lie within our reach yet withdraw from our attempts to touch them On these terms American Tantalus shows tantalise not only describes a particular kind of thwarted desire but also one that dominates modern US fiction to a remarkable extent For this term specifically evokes the yearning to touch alienated or virginal objects that we find examined by F Scott Fitzgerald Toni Cade Bambara Richard Wright and Toni Morrison and it also indicates the insatiable pursuit of the horizon so important to Willa Cather and Edith Wharton among others This eclectic canon indeed prefers the dictionary to the thesaurus unreachable destinations and untouched commodities here indeed tantalise inviting gestures of inquiry from which they then recoil This focus while lodging cycles of tantalisation at the very heart of American myth holds profound implications for our understanding of modernity and in particular of the cultural genesis of the commodity as a form      Merchant Vessels of the United States ,1969      **The New Cambridge Companion to Herman Melville** Robert S. Levine, 2014 This new collection offers timely critical essays specially commissioned to provide a comprehensive overview of Melville s career      *The Billboard Encyclopedia of Music* ,1946      *Glimpses of God* Paul O. Ingram, 2022-05-05 Glimpses of God And Other Essays is a collection of theological reflections on seventeen interrelated subjects written by a historian of religion inspired by the work of Alfred North Whitehead and the process theological vision of John B Cobb Jr Each essay has its own distinctive topic while being interdependent with the other seventeen essays      *Faith as Remembering* Paul O. Ingram, 2017-11-06 Memories seldom happen in straight lines with chronological precision but occur most often in spirals Paul Ingram s essays collected in *Faith as Remembering* were created from memories These memories often in unpredictable ways pushed him to new insights about the nature of Christian faith insights often not desired always unexpected and always toward new directions of theological reflection Theologians all too often write with an unintentional and sometimes intentional universalism Ingram does not intend to write this way These essays reflect his memories and are the sources of the theological conclusions he draws as a historian of religions who now finds himself a practicing process theologian As a process theologian Ingram does not even argue that the conclusions drawn here will be ones he will affirm in the future All human knowledge is incomplete and there are always new surprises for anyone practicing the art of theological reflection But Ingram s hope is that the essays gathered together in *Faith as Remembering* will inspire readers to engage their memories as the foundation for drawing their own unique conclusions      American Literary Scholarship James Leslie Woodress, 1965      Active Speech Úna

Kealy, Kate McCarthy, 2025-04-07 *Active Speech* is a groundbreaking collection of scholarly essays and practitioner interviews focused on the work of Irish playwright Teresa Deevy. Acts of recovery in the 1980s and 1990s challenged Deevy's exclusion from the literary canon, reclaiming her contributions as significant to Irish drama and theatre. The recent resurgence of scholarship and productions evidences that as a deafened woman and Irish playwright, Deevy's creative power continues to disrupt and tilt the canon of Irish drama, theatre, and performance. Essays within the collection explore how Deevy's work interrogates early to mid-twentieth century Irish social norms and ideologies and provide a rich context for understanding her plays. The collection highlights the interdisciplinary nature of research on Deevy and offers insights on her work through archival research, literary analysis, and practitioner perspectives from Deaf and hearing theatremakers. One of the collection's strengths lies in its collaborative and inclusive approach, showcasing diverse methodologies and rigorous scholarship. The chapters on archival research and practitioner perspectives offer compelling models and avenues for future studies. This volume is an essential resource for scholars, educators, and theatremakers alike.

**Apocalyptic Rhetoric and the Black Protest Movement** Aaron Pride, 2023-12-06 *Apocalyptic Rhetoric and the Black Protest Movement* offers a challenging new formulation of African American religious culture by asserting that African American Christianity produced a militant millennialist movement that invoked the apocalypse, the kingdom of God, and the end of the world to compel Black people to oppose racial injustice in the early twentieth century. In this account of the Black civil rights movement in Boston in the early twentieth century, Aaron Pride argues that the apocalyptic rhetoric and millennial imagery disseminated from the Boston Guardian by William Monroe Trotter cast Booker T. Washington and other opponents of Black protest as false prophets, biblical villains, and harbingers of the end times. By placing Black Christianity at the center of Black civil rights activism in the early twentieth century, this book provides a seminal interpretation of the emancipatory capacity of religion as cultural and intellectual force in social and political movements. This book will be of interest to scholars of cultural history, Black studies, and the history of religion.

**Antebellum Writers in New York** Kent Ljungquist, 2002 Contains biographical sketches of authors who wrote or began writing their major works during the period 1820 to 1860. Represented are writers of short stories, juvenile literature, sermons, and popular literature, as well as novelists, poets, essayists, editors, humorists, translators, compilers, journalists, reformers, historians, abolitionists, and scientists. *Antiquarian Bookman*, 1965

**Melville and the Theme of Boredom** Daniel Paliwoda, 2010-01-13 Boredom is a prevalent theme in Herman Melville's works. Rather than a passing fancy or a device for drawing attention to the action, that also permeates his work, boredom is central to the writings, the author argues. He contends that in Melville's mature work, especially *Moby-Dick*, boredom presents itself as an insidious presence in the lives of Melville's characters until it matures from being a mere killer of time into a killer of souls. *Studies in English Literature*, 2005

**Humor and Revelation in American Literature** Pascal Covici, 1997 Both the Genteel Tradition and Calvinistic Puritanism exhibited a sense of possessing inside information about

the workings of the universe and the intentions of the Almighty In *Humor and Revelation in American Literature* Pascal Covici Jr traces this perspective from its early presence to the humorous tradition in America that has been related to the Old Southwest showing how American Puritan thought was instrumental in the formative stages of American humor Covici argues that much of American literature works as humor does surprising readers into sudden enlightenment The humor from which Mark Twain derived his early models had the same sort of arrogance as American Puritan thought especially in regard to social and political truths Twain transcended the roots of that humor which run from works of nineteenth century Americans back to British forms of the eighteenth century In doing so he helped shape American literature In addition to reexamining Twain's art *Humor and Revelation in American Literature* considers some of the writers long regarded as among the usual suspects in any consideration of cultural hegemony including Emerson Thoreau Hawthorne and Melville Covici explores not so much the hypocrisy as the ambivalence repeatedly displayed in American literature He demonstrates that even though our writers have always had a strong desire to avoid the influences of the past their independence from its cultural theological and psychological effects has been much slower in coming than previously thought Original and well written *Humor and Revelation in American Literature* will be welcomed by all scholars and critics of American literature especially those interested in Puritanism major nineteenth century writers Southwestern humor and Mark Twain

**Crowd Control** John M. Garzone, 2001-11-13 Mike and Myra come to the Berkshires to identify the body of friend and employee Bernie Peters and drawn into a battle against the same web of conspiracy that killed him uncover bit by bit an insidious plot that threatens more than just the small city of Pittsfield Along the way their past history with each other helps shape a romantic plot line full of twists and turns The duo encounters villainy in a variety of adversaries and the most innocuous and familiar locales become eerily menacing in a life and death game of political and scientific intrigue

*The Transformation of Black Music* Sam Floyd, Melanie Zeck, Guthrie Ramsey, 2017-02-28 Powerful and embrative *The Transformation of Black Music* explores the full spectrum of black musics over the past thousand years as Africans and their descendants have traveled around the globe making celebrated music both in their homelands and throughout the Diaspora Authors Samuel A Floyd Melanie Zeck and Guthrie Ramsey brilliantly discuss how the music has blossomed permeated present traditions and created new practices As a companion to the ground breaking *The Power of Black Music* this text brilliantly situates emerging morphing and influential black musics in a broader framework of cultural political and social histories Grappling with subjects frequently omitted from traditional musical texts *The Transformation of Black Music* is guided by more than just the ideals of inclusivity and representation This work covers overlooked topics that include classical musicians of African descent and builds upon the contributions of esteemed predecessors in the field of black music study Providing a sweeping list of figures rarely included in conventional music history and theory textbooks the text elucidates the findings of ethnomusicologists cultural historians Americanists Africanists and anthropologists and weaves these accounts into a

powerful and informative narrative Taking its readers on a journey one that has never been attempted in a single volume alone this book reflects the musical phenomena generated by forced African migration and collective memory and considers the kinds of powerful stories that these musics were meant to tell Filling in critical musical and historical gaps previously ignored authors Floyd Zeck and Ramsey infuse an engaging musical dialogue with a deeper understanding of the interrelationships between black musical genres and mainstream music The Transformation of Black Music will solidify not only the inestimable value of black musics but also the importance and relevance of black music research to all musical endeavors

**Nineteenth-Century Communications: A Documentary History, 1780-1918** Nicola Kirkby, Karin Koehler, Eleanor Hopkins, Kathleen McIlvenna, Ellen Smith, Harriet M. Thompson, 2025-09-30 This volume foregrounds the close and mutually informing relationships between mediated communication and technological innovation during the nineteenth century It draws attention to the fact that communication was a driver of innovation but also considers how communication practices adapted to new media and technologies The following themes and subjects are covered The development of the telegraph from the semaphore in the late eighteenth century to the wireless in the late nineteenth The shift from privately owned to nationalised telegraph infrastructure and services Mail trains travelling post offices and accelerated public communication The development of and cultural responses to steam packet technologies and infrastructures and accelerated international communication The development of and cultural responses to submarine and transoceanic telegraphy The beginnings of telephony

Descending on Humanity and Intervening in History P. T. Forsyth, 2013-10-14 This collection of forty eight sermons most of which have not been previously published discloses the integration of vocation and imagination in the work of one of the greatest of Free Church theologians P T Forsyth At a time of fragmentation when theological study has become too much removed from the task of the preacher Forsyth's work can remind us of the invigorating power of Christian doctrine interpreted and expounded in situations of pastoral and political exigency Its capacity for the renewal of the church is evident again from this rich and timely anthology compiled and introduced by Jason Goroncy

*Literature, Neurology, and Neuroscience: Historical and Literary Connections*, 2013-11-25 This well established international series examines major areas of basic and clinical research within neuroscience as well as emerging and promising subfields This volume on the neurosciences neurology and literature vividly shows how science and the humanities can come together and have come together in the past Its sections provide a new broad look at these interactions which have received surprisingly little attention in the past Experts in the field cover literature as a window to neurological and scientific zeitgeists theories of brain and mind in literature famous authors and their suspected neurological disorders and how neurological disorders and treatments have been described in literature In addition a myriad of other topics are covered including some on famous authors whose important connections to the neurosciences have been overlooked e g Roget of Thesaurus fame famous neuroscientists who should also be associated with literature and some

overlooked scientific and medical men who helped others produce great literary works e g Bram Stoker s Dracula There has not been a volume with this coverage in the past and the connections it provides should prove fascinating to individuals in science medicine history literature and various other disciplines This book looks at literature medicine and the brain sciences both historically and in the light of the newest scholarly discoveries and insights
