**Government Services** Kevin Lavery,1999-03-30 Privatization of local government is making headlines throughout the world Scottsdale Arizona contracts for fire protection Baltimore to run nine city schools and Chicago and Philadelphia for a range of services from janitors to recreational facilities The United Kingdom New Zealand and Australia have arguably gone further than the United States But much of the debate on contracting has been high on politics philosophy and emotion with little attention to practical issues of how to do contracting well The book shifts the debate away from the politics and rhetoric to the practicalities and realities of contracting The book is concerned with four issues the role of contracting in government the appropriateness of different contracting strategies the process of contracting and who does the contracting Drawing on examples in the United States and the United Kingdom the author considers the historical and cultural context of contracting where contracting works and where it doesn't the features of smart contracting and the conditions that are conducive to smart contracting The book provides an invaluable guide to those concerned with the practicalities of contracting

Comprehensive Approach as "Sine Qua Non" for Critical Infrastructure Protection D. Čaleta,S. Radosevic,2014-12-16 The world in which we live is becoming ever more complex both from the viewpoint of ensuring security and also because of our level of dependence on technology as represented by so called critical infrastructure Despite the efforts of national security entities in the national and international context terrorist attacks will probably never be completely preventable This makes it necessary to prepare the functioning of our systems for the occurrence of a terrorist attack so that they will operate quickly and effectively even in this type of crisis This book presents the papers delivered at the NATO Advanced Research Workshop Managing Terrorism Threats to Critical Infrastructure Challenges for South Eastern Europe held in Belgrade Serbia in May 2014 The book is divided into five sections strategic environment and critical infrastructure protection information security and counterterrorism considerations terrorist threats to critical infrastructure operation environmental aspects energy security as a key factor of critical infrastructure protection and national approaches to critical infrastructure protection The book highlights the main dilemmas and challenges of managing terrorist threats in the region of South Eastern Europe and will be of interest to all those whose work involves protecting critical infrastructure from the threat of terrorist attack
