Clampitt, 1888 **Shaping the Lotus Sutra** Eugene Yuejin Wang, 2005 The Lotus Sutra has been the most widely read and most revered Buddhist scripture in East Asia since its translation in the third century The miracles and parables in the king of sutras inspired a variety of images in China in particular the sweeping compositions known as transformation tableaux that developed between the seventh and ninth centuries Surviving examples in murals painted on cave walls or carved in relief on Buddhist monuments depict celestial journeys bodily metamorphoses cycles of rebirth and the achievement of nirvana Yet the cosmos revealed in these tableaux is strikingly different from that found in the text of the sutra *Shaping the Lotus Sutra* explores this visual world Challenging long held assumptions about Buddhist art Eugene Wang treats it as a window to an animated and spirited world Rather than focus on individual murals as isolated compositions Wang views the entire body of pictures adorning a cave shrine or a pagoda as a visual mapping of an imaginary topography that encompasses different temporal and spatial domains He demonstrates that the text of the Lotus Sutra does not fully explain the pictures and that a picture or a series of them constitutes its own text In exploring how religious pictures sublimates cultural aspirations he shows that they can serve both political and religious agendas and that different social forces can co exist within the same visual program These pictures inspired meditative journeys through sophisticated formal devices such as mirroring mapping and spatial programming analytical categories newly identified by Wang The book examines murals in cave shrines at Binglingsi and Dunhuang in northwestern China and relief sculptures in the grottoes of Yungang in Shanxi on stelae from Sichuan and on the Dragon and Tiger pagoda in Shandong among other sites By tracing formal impulses in medieval Chinese picture making such as topographic mapping and pictorial illusionism the author pieces together a wide range of visual evidence and textual sources to reconstruct the medieval Chinese cognitive style and mental world The book is ultimately a history of the Chinese imagination Read an interview with the author <http://dgeneratefilms.com/cinemataalk> cinemataalk.com interview with professor eugene wang on chinese art and film *The Ezra-Apocalypse* George Herbert Box, 1912 **Time-Anomalies: of legends & incidents** Wilfried Stevens, 2025-09-01 Anyone who deals with time anomalies and time travel almost automatically encounters ancient chronicles and legends about people who have consciously or unconsciously made a time leap People who abruptly disappeared without leaving the slightest trace and only later returned According to ancient Indian epics there once even existed a special spiritual meditation technique that

amplified the numerous magnetite crystals in the brain and the body's energy to such an extent that a magnetic biofield was created around the body making it possible to teleport someone across space and time This is ancient knowledge that is not taken seriously The phenomenon of time anomalies such as time displacements remains mysterious Time anomalies are believed to arise from electromagnetic disturbances when space and time are distorted or bent as a result also known as frequency anomalies This is being further researched Legends and occurrences of time anomalies were so puzzling to people in the past that they quickly associated them with a curse a whim of the gods magic or magical beings The Greek philosophers of ancient Greece even suspected that not all gods disappeared but rather wandered through time and continued to guide the destinies of humanity And today In the German Middle Ages and especially during the fanatical era of the Index librorum prohibitorum demons witches and sorcerers if not the devil himself were suspected of being behind the events when people appeared and reported confused that for several days weeks months or even years they could no longer remember where they were or what had happened One can assume that their fate usually ended gruesomely How much truth is there behind the legends Tibet, the Mysterious Sir Thomas Hungerford Holdich,1906
