Time, Life & Memory Laurens Landeweerd,2020-12-03 This book revitalizes the relevance of the ideas of Henri Bergson 1859 1941 for current developments in exact sciences It explores the relevance of Bergson s thought for contemporary philosophical reflections on three of the most important scientific research areas of today namely physics the life sciences and the neurosciences It does so on the basis of the three interrelated topics of time life and memory Henri

Bergson 1859 1941 was one of the most widely read philosophers of his era The European public was seeking for answers to questions of the soul and the nature of life and fitting within a historical niche between intellectual rationalism and intuitive spiritualism his writings drew much attention This work focuses on the relevance of his philosophy for developments in exact sciences today The discussion of physics in relation to the abstract and the concrete the life sciences in relation to concepts of life in relation to new and emerging biotechnology and the neurosciences in relation to the dual nature of human identity focuses on one main topic time Time isolated from experience as the measure of the events in the universe in modern physics time as the measure of emergent systems in evolution as the backdrop of the theory of evolution in biology time in relation to memory and imagination in neuropsychological accounts of memory The author thus discusses the ideas of Henri Bergson as a basis to unveil time as a living process rather than as an instrument for the measure of events This view forms the basis of a novel approach to the philosophy of technology An exciting book for academics interested in the interplay between hard sciences and philosophy

Möbian Nights Sandor Goodhart, 2017-08-24 I died at Auschwitz French writer Charlotte Delbo asserts and nobody knows it Möbian Nights Reading Literature and Darkness develops a new understanding of literary reading that in the wake of disasters like the Holocaust death remains a premise of our experience rather than a future Challenging customary aesthetic assumptions that we write in order not to die Sandor Goodhart suggests with Kafka we write to die Drawing upon analyses developed by Girard Foucault Blanchot and Levinas along with examples from Homer to Beckett Möbian Nights proposes that all literature works autobiographically which is to say in the wake of disaster with the credo I died therefore I am and for which the language of topology for example the Möbius strip offers a vocabulary for naming the deep structure of such literary critical and scriptural sacrificial and anti sacrificial dynamics

On Company Time Donal Harris, 2016-10-04 American novelists and poets who came of age in the early twentieth century were taught to avoid journalism like wet sox and gin before breakfast It dulled creativity rewarded sensationalist content and stole time from serious writing Yet Willa Cather W E B Du Bois Jessie Fauset James Agee T S Eliot and Ernest Hemingway all worked in the editorial offices of groundbreaking popular magazines and helped to invent the house styles that defined McClure's The Crisis Time Life Esquire and others On Company Time tells the story of American modernism from inside the offices and on the pages of the most successful and stylish magazines of the twentieth century Working across the borders of media history the sociology of literature print culture and literary studies Donal Harris draws out the profound institutional economic and aesthetic affiliations between modernism and American magazine culture Starting in the 1890s a growing number of writers found steady paychecks and regular publishing opportunities as editors and reporters at big magazines Often privileging innovative style over late breaking content these magazines prized novelists and poets for their innovation and attention to literary craft In recounting this history On Company Time challenges the narrative of decline that often accompanies modernism's incorporation into midcentury middlebrow culture Its integrated account of literary and journalistic form shows American modernism evolving within as opposed to against mass print culture Harris's work also provides an understanding of modernism that extends beyond narratives centered on little magazines and other institutions of modernism that served narrow audiences And for the writers the double life of working for these magazines shaped modernism's literary form and created new models of authorship

Möbian Nights Sandor Goodhart, 2017-08-24 Utilizing insights drawn from mathematical topology from French critical theory and literature and from Holocaust studies Sandor Goodhart articulates a new understanding of the relation of literary reading to disaster
