Pursuit Of History Aims Methods And New Directions In The Study Of Modern History:

The Pursuit of History John Tosh, Sean Lang, 2006 The essential introduction to the practice of history revised with new features to ensure it is even more popular with students Tosh is consistently the best selling Longman History textbook The last 3 editions have achieved total sales of over 83 000 copies The use of photos of significant people and events help make the text more lively New layout and design enables readers to understand themes more quickly

The Pursuit of History John Tosh, 2015-02-11 This classic introduction to the study of history invites the reader to stand back and consider some of its most fundamental questions what is the point of studying history How do we know about the past Does an objective historical truth exist and can we ever access it In answering these central questions John Tosh argues that despite the impression of fragmentation created by postmodernism in recent years history is a coherent discipline which still bears the imprint of its nineteenth century origins Consistently clear sighted he provides a lively and compelling guide to a complex and sometimes controversial subject while making his readers vividly aware of just how far our historical knowledge is conditioned by the character of the sources and the methods of the historians who work on them The sixth edition has been revised and updated with key new material including a brand new chapter on public history sections on digitised sources and historical controversy discussion of topics including transnational history and the nature of the archive an expanded range of examples and case studies a comprehensive companion website providing valuable supporting material study questions and a bank of primary sources Lucid and engaging this edition retains all the user friendly features that have helped to make this book a favourite with both students and lecturers including marginal glosses illustrations and suggestions for further reading Along with its companion website this is an essential guide to the theory and practice of history

History in the Digital Age Toni Weller, 2013 The digital age is affecting all aspects of historical study but much of the existing literature about history in the digital age can be alienating to the traditional historian who does not necessarily value or wish to embrace digital resources History in the Digital Age takes a more conceptual look at how the digital age is affecting the field of history for both scholars and students The printed copy the traditional archive and analogue research remain key constitute parts for most historians and for many will remain precious and esteemed over digital copies but there is a real need for historians and students of history to seriously consider some of the conceptual and methodological challenges facing the field of historical enquiry as we enter the twenty first century Including international contributors from a variety of disciplines History English Information Studies and Archivists this book does not seek either to applaud or condemn digital technologies but takes a more conceptual view of how the field of history is being changed by the digital age Essential reading for all historians

Field Research in Political Science Diana Kapiszewski, Lauren M. MacLean, Benjamin L. Read, 2015-03-19 Field research leaving one's home institution in order to acquire data information or insights that significantly inform one's research remains indispensable even in a digitally networked era This book the first of its kind in political science reconsiders the

design and execution of field research and explores its role in producing knowledge First it offers an empirical overview of fieldwork in the discipline based on a large scale survey and extensive interviews Good fieldwork takes diverse forms yet follows a set of common practices and principles Second the book demonstrates the analytic benefits of fieldwork showing how it contributes to our understanding of politics Finally it provides intellectual and practical guidance with chapters on preparing for field research operating in the field and making analytic progress while collecting data and on data collection techniques including archival research interviewing ethnography and participant observation surveys and field experiments

The Houses of History Anna Green, Kathleen Troup, 1999-03 Provides a comprehensive introduction to the twelve schools of thought which have had the greatest influence on the study of history in the twentieth century Ranging from Empiricism to Postcolonialism Marxism to the Ethnohistorians each chapter begins with an introduction to the particular school the main protagonists the critics and is followed by a useful section of further readings From the classic such as G R Elton's *England Under the Tudors* and E P Thompson's *The Making of the English Working Class* to the recent such as Henrietta Whiteman's *White Buffalo Woman* and Judith Walkowitz's *City of Dreadful Delight* the diverse selections collected here bring together the leading historians and theorists of the century

Methodology in Sports History Wray Vamplew, Dave Day, 2018-12-07 The process of converting the past into history involves engagement with a multitude of different sources and methods and sports historians inevitably participate in the same debates over approaches and methodologies as their counterparts in other historical disciplines At its heart history remains a genre of empirical knowledge that is based upon the remains of the past and without suitable evidence there can be no sports history A burgeoning range of sources has stimulated new ways of thinking and a significant expansion in the sports historian's evidentiary base as textual sources have been supplemented by photos films and cartoons uniforms architecture maps and landscapes and material culture more generally This book deals with some of these innovations It is divided into two sections the first offering chapter length studies of particular methodologies and the second brief responses from experts in their fields to the question what can sports historians learn from other disciplines

Remembering the Road to World War Two Patrick Finney, 2010-09-13 Remembering the Road to World War Two is a broad and comparative international survey of the historiography of the origins of the Second World War It explores how in the case of each of the major combatant countries historical writing on the origins of the Second World War has been inextricably linked with conceptions of national identity and collective memory

A Multi-Paradigmatic Approach to Understanding History Kavous Ardalan, 2022-12-08 This book explores the field of history through a multi paradigmatic approach For this purpose it begins with a discussion of four most diverse worldviews or paradigms namely functionalist interpretive radical humanist and radical structuralist before moving on to consider four aspects of the field of history historiography grand narrative progress and time from the viewpoints of the four most diverse worldviews or paradigms Next the book looks at three historical events

the French Revolution the American Civil War and the Iranian Revolution from the viewpoints of the four most diverse worldviews or paradigms It concludes by recommending paradigm diversity as an understanding of different paradigms leads to a more comprehensive and a more balanced understanding of the multi faceted nature of the subject matter *Research within the Disciplines* Peggy Keeran, Michael Levine-Clark, 2014-04-28 *Research within the Disciplines* is designed to help reference librarians and students studying to become librarians gain that deeper understanding of disciplinary differences that allows them to comfortably solve information needs rather than merely responding to questions and practical knowledge about how to work with researchers in a library setting The book has three chapters that cover the disciplines at the broadest level humanities social sciences and sciences plus supplemental chapters that focus on associated disciplines research in history business and engineering research using government sources and across disciplines interdisciplinary and critical information literacy For the second edition of *Research within the Disciplines* several chapters have been added that together give a broader and deeper overview of research across all subject areas research practices of creative and performing artists and of clinical scientists research in international documents research strategies for foreign language materials and visual literacy across the disciplines Major shifts in technology have been accounted for that have changed how we do research and have expanded the range of resources available to researchers in all disciplines All of the chapters have been rewritten or heavily revised this is much more a new book than a new edition **The Historian's Toolbox** Robert C.

Williams, 2019-11-27 *The Historian's Toolbox* introduces students to the theory craft and methods of history and equips them with a series of tools to research and understand the past Written in an engaging and entertaining style and filled with fascinating examples this best selling how to book opens up an exciting world behind historical research and writing This fourth edition expands the repertory of tools and techniques available to students entering the workshop of history These include materials on the Kennedy assassination the litigation of Van Gogh's Night Caf local town histories contemporary history Twitter and the contemplation of the end of history as well as the Sixth Extinction in a new epilogue The book demonstrates the relevance and expanding possibilities of the study of history in our cacophonous information age of tweetstorms and fake news it emphasises the increasing value of critical thinking facts and evidence in the face of political lies and conspiracy theories Material added to the fourth edition will resonate with a new generation of computer literate readers in the face of climate change *The Historian's Toolbox* continues to be a seminal text for supporting students throughout their study of history and an accessible teaching tool for instructors
