Pushcart Prize Vol Xxiv The Best Of The Small Prebes:

Literature and Music ,2016-08-09 This collection of essays centers on musical elements that authors have employed in their work thus joining heard sounds to a visual perception of their stories The spectrum of authors represented is a wide one from Pound to Durrell from Steinbeck to Cather from Beckett to Gaines but even more unusual is the variety of musical type represented Classical music the quartet the fugue the symphony Jazz the jazz riff and jazz improv and the spiritual all appear along with folk song and so called random noise Such diversity suggests that there are few limits when readers consider how great writers utilize musical styles and techniques Indeed each author seems to realize that it is not the type of music that s he chooses to employ that is important Rather it is the realization that such musical elements as harmony dissonance tonal repetition and beat are just as important in prose composition as they are in poetry and song The essayists have selected some works that may be considered obscure and some that are modern classics Each one however has captured one of the varied ways in which words and music complement and enhance each other **Forthcoming Books** Rose Arny,1992
