Aleksandr Sergeevich Pushkin, 1986 Pushkin on Literature approaches Pushkin's literary accomplishment from a unique perspective; it focuses on Pushkin the critic and on his fascination with the literary world that surrounded him. Fiction and Society in the Age of Pushkin William Mills Todd, 1986 Todd describes the ideology of the educated, westernized gentry; then charts the possibilities for literary life: first patronage, the salons, popular literature, then rapid emergence of an incipient literary profession. He explores the interactions of literature and society as writers discovered their own milieu and were discovered by it.

Tchaikovsky and His Contemporaries Alexandar Mihailovic, 1999-03-30 Commemorating the centenary of Tchaikovsky's death, these essays reassess the life and work of the composer from a variety of perspectives ranging from the musicological and biographical to broader ones addressing his place in the development of the arts in Europe and America. As they make clear, there is much about Tchaikovsky's achievement that has been taken for granted, and the essays included in this collection represent as much acts of reevaluation as of celebration. After a broad synthesis of Tchaikovsky's relation to the literature, music, and theater of the 18th and 19th centuries, there are sections devoted to Tchaikovsky and his musical contemporaries; Tchaikovsky's lost opera *The Oprichnik*; Tchaikovsky's mature operatic work; his place in Russian Orthodoxy and nationalism; and contemporary perspectives on his life and works. The volume concludes with discussions on Tchaikovsky scholarship, the place of the composer in American and Russian musical education, and the interpretation and performance of his ballets. It is an important collection for scholars and other researchers involved in Russian music and ballet.
