Circular and Booksellers' Record ,1926 **Frugal Innovation** Adela J. McMurray,Gerrit A. de Waal,2019-11-28

Customers are increasingly seeking low cost high quality or what is known as frugal products that meet the buyer s needs while reducing the associated cost of ownership This book examines the developing principles and theories of frugal innovations across the globe The authors identify frugal innovation FI using a multi method approach to data analysis They argue that the concept of frugality as a societal ethical value has undergone several changes and propose a differentiated model of frugal innovations They address frugal innovations that have never been accessible to the public Hands on case studies across various industry sectors and countries supported by theory provide multiple learning opportunities The authors explore the relationship between FI and digitalisation and technology and discuss how FI can be applied in the context of contemporary issues such as food security Further they articulate the mechanisms by which FI beliefs and values can be incorporated into organisational culture The final chapters address both ethical and controversial views of frugal innovation The book is a valuable resource for students in business courses for industry professionals wanting to improve their triple bottom line and for educators wanting to influence and change the mindsets of the younger generations to effectively deal with today s and tomorrow s challenges *The Politics of Acknowledgement* Joanna R. Quinn,2010

Human rights violations leave deep scars on people societies and nations Since the early 1990s international rights groups have argued that resolving the violence of the past through instruments of transitional justice such as truth commissions is a necessary condition for a peaceful future But how can nations ensure that these tribunals are the best path to reconciliation The Politics of Acknowledgement develops a theoretical framework of acknowledgement with which to evaluate truth commissions Rather than applying this framework to successful tribunals Joanna Quinn uses it to analyze the difficulties encountered and the ultimate failure of two poorly understood truth commissions in Uganda and Haiti The failure of these commissions reveals that if reconciliation is to be achieved acknowledgement of past violence and harm by both victims and perpetrators must come before goals such as forgiveness social trust civic engagement and social cohesion
