Pyretics and Antipyretics A. S. Milton, 2012-12-06 Fever has always been recognised as the major sign of infectious disease as well as being associated with other illnesses The suggestion of publishing a volume dedicated exclusively to the subject of fever in the Handbook of Experimental Pharmacology series was one that greatly appealed to me and I felt very honoured when I was invited to edit it The first ideas about this volume were conceived in the latter part of 1977 and by the middle of 1978 the first authors had been approached As is usual with such publications by the time the first manuscripts were beginning to arrive in the late spring of 1979 there were still a few chapters for which authors had not yet been found Finally by the end of 1981 the volume was complete Because of the span of time over which the chapters were written some refer to more recent work than others however I do not feel that this detracts from the overall contribution of all the chapters

Neurobiology of Disease , 2011-09-06 Neurobiology of Disease is aimed at any basic scientist or clinician scientist teaching a course or conducting research on the basic science underlying the major neurological diseases It provides an excellent overview of cutting edge research on the fundamental disorders of the nervous system including physiological and molecular aspects of dysfunction The major categories of neurological disease are covered and the chapters provide specific information about particular diseases exemplifying each of these categories Sufficient clinical information is included to put into perspective the basic mechanisms discussed The book assembles a world class team of section editors and chapters written by acknowledged experts in their respective fields Provides cutting edge information about fundamental mechanisms underlying neurological diseases Amply supplied with tables illustrations and references Includes supporting clinical information putting the mechanisms of disease into perspective **Guyton and Hall Textbook of Medical Physiology**
