Quantum Leaps Charlotte Shelton, 2012-06-25 Quantum Leaps is a how to book for creating fundamental change in both ourselves and our organizations Charlotte Shelton's basic premise is that organizational change happens one person at a time Our workplaces simply mirror our individual and collective beliefs Therefore we change ourselves our workplaces and the world by changing our minds As our beliefs change we not only see the world differently we begin to be in the world in a different way thus creating a new reality Shelton uses the basic principles of quantum mechanics as the foundational metaphor for a new quantum skill set that recognizes the highly complex constantly changing totally unpredictable nature of life She demonstrates the inadequacy of our time honored skills of planning organizing directing and controlling She shows how these skills are directly tied to an obsolete view of reality ignoring the now fundamental requirements of extreme imagination and radical innovation Quantum Leaps introduces seven new skills skills that are compatible with life and work in the twenty first century These seven Quantum Skills enable us to see think feel know act trust and be radically different ways Collectively they form a comprehensive model for change These skills integrate quantum mechanical principles state of the art psychology and universal spiritual practices They balance the traditional left brain business skills with a new skill set that more fully utilizes both hemispheres of the brain As we master these skills Shelton states We create balanced lives and whole brain organizations and we become authentic change masters changing ourselves and our organizations from the inside out The Seven Quantum Skills are Quantum Seeing Quantum Thinking Quantum Feeling Quantum Knowing Quantum Acting Quantum Trusting and Quantum Being These 7 skills introduce a new way to access underutilized brain capacities as they acknowledge the role of intention intuition and interconnectivity

Romay,2021-09-15 De Cero to Zero a Tale is not a simple collection of narratives in essence it is an intricate warp and weft that invites us to find the skein thread each time we go from one short story to the next In addition Edel Romay makes us consider the idea that Reality does not exist without an observer In other words reading is in fact an act of dialogue with the author Besides human Reality Reality as Edel considers it is the boundary between the macro reality of the universe REALITY and the inner nano reality of the atom Reality That is REALITY Reality reality And subtly he guides us to ask ourselves What is genuinely factual in all that we call Reality Then it makes us reflect on the symbiosis that creates itself and recreates itself between author and reader I remember therefore you exist you assured me I remember therefore I live I replied Therefore you and I exist at this moment Holographic Dreamscape Fern James,2024-09-18 Holographic Dreamscape plunges

Türkgücü,2017-09-18 VIRTUAL GOD THE BEGINNING It is not God It is God like You must hav e read news claiming Artificial Intelligence would take away our jobs marriages with robots would start and it would bring the end of humankind What do we know about this doomsday machine which is believed to take over our businesses first then our spouses and finally bring an end to humanity How will the consciousness that would empower the robots to act on their own be insufflated to them Will this doomsday machine do all these without the knowledge and authorization of the Creator who claims to be the God of all times and creator of everything How will the religions be affected Will Virtual God destroy faith or will it renew it We have been so sure that we were not living in a dream and everything was real for millions of years that we kept asking

the questions Where did we come from and why which could take us nowhere We never thought of asking the principal questions I have been asking Where do we live in and how do we know this which brought me nominations for the Nobel Peace Prize in 2015 2017 When the border between virtual reality and reality disappears soon we will be forced to ask Which one is real which one is virtual Which one is human which one is divine You can be sure that your perspective on yourself your partner your work your environment and your experiences will change forever once you start living in a world where you can never be sure of its reality Virtual God is the name of the artificial intelligence based universe machine created by humans enabling them to live in virtual illusionary universes and it is like the God of those virtual universes I describe the Holistic Peace stage as the discovery of God within ourselves by making use of the advancements in technology I tried to explain it most simply through the love story that Ata and Maya characters will live in the future This book seats you in front of your Ark of the Covenant and invites you to be an Inheritor to the Book It is written by examining the Holy Books and the old information to calm down deep concerns that will arise in the Paradox of God stage of the Golden Age of Knowledge we entered in 2014 AYDIN T RKG C Knowledge Golden Age AI VR Virtual Holistic Holly Personell Eden Hell Robot Artificial Holographic Dimension Time Human History Space Mental tools social political name limits unlocked Love Religion exit God Aliens Beginning Brain love virtualgod galactic quantum quantumleap leap dream araf logos NASA ISS rules Space_Station Sicence prize peace culture gravity blackhole time timetravel blackmatter holly book hoolybooks verses prophet eden eve adam philosophy
