Redefining Linguistics:

Redefining Linguistics (RLE Linguistics A: General Linguistics) Hayley G. Davis, Talbot J. Taylor, 2014-02-03 The academic discipline of linguistics is at a critical stage of development. Whatever consensus there may have been fifteen or even ten years ago is fast disappearing. A process of redefinition is underway and it is the aim of this volume to contribute to that process: explain why a redefinition is needed and how it should proceed. In the case of linguistics the subject is also the subject matter. Many linguists have ignored the problem of definition simply regarding linguistics as the science of language itself. What though is language itself? Is it a language i.e. English, Swahili? Or language in a more general sense? The primary goal of a redefinition of linguistics should be to demonstrate that language is not an objective matter. Linguistics is and should be the study of whatever is linguistically pertinent. A linguistics redefined would look at how we interpret and construct our day to day communication acts, what views of language are shared by and opposed by societies and the source and roles that these views play in our living and learning experience. These papers argue the case for such a redefinition more explicitly than has ever been done before in modern linguistic theory. Such a redefined perspective precisely because it is a perspective subject to outside influence and in constant dialogue with the perspective of the other human sciences must be endlessly redefined. *Rethinking Linguistics* Hayley G. Davis, Talbot J. Taylor, 2003-09-02 Rethinks the aims and methods of contemporary linguistics. Uses integrationist theory to exemplify how language users become language makers.

Rethinking Linguistics Hayley G. Davis, Talbot J. Taylor, 2003-09-02 This book deals with the need to rethink the aims and methods of contemporary linguistics. Orthodox linguists' discussions of linguistic form fail to exemplify how language users become language makers. Integrationist theory is used here as a solution to this basic problem within general linguistics. The book is aimed at an interdisciplinary readership comprising those engaged in study, teaching and research in the humanities and social sciences including linguistics, philosophy, sociology and psychology. **Redefining Linguistics** Hayley G.

Davis, Talbot J. Taylor, 1990 **Expanding the Linguistic Landscape** Martin Pütz, Neele-Frederike Mundt, 2018-12-20 This book provides a forum for theoretical, methodological and empirical contributions to research on language's multimodality and public space which will advance new ways of understanding the sociocultural, ideological and historical role of communication practices and experienced lives in a globalised world. Linguistic Landscape is viewed as a metaphor and expanded to include a wide variety of discursive modalities: imagery, non-verbal communication, silence, tactile and aural communication, graffiti, smell etc. The chapters in this book cover a range of geographical locations and capture the history, motives, uses, causes, ideologies, communication practices and conflicts of diverse forms of languages as they may be observed in public spaces of the physical environment. The book is anchored in a variety of theories, methodologies and frameworks from economics, politics and sociology to linguistics and applied linguistics, literacy and education, cultural geography and human rights. and the language myth have influenced our way of thinking about communication in a broad sense This edited collection will be of interest to a multidisciplinary readership comprising those engaged in study teaching and research in the humanities and social sciences including anthropology the arts education linguistics literary studies philosophy psychology and semiotics
