Rediscovering Rikyu And The Beginnings Of The Japanese Tea Ceremony:

Rediscovering Rikyu and the Beginnings of the Japanese Tea Ceremony Herbert E. Plutschow, 2003 The first comprehensive book length study in over half a century of the celebrated Japanese tea master Rikyu considered the father of the Tea Ceremony cha no yu that fully contextualizes tea in politics aesthetics ritual and art

Rediscovering Rikyu and the Beginnings of the Japanese Tea Ceremony Herbert Plutschow, 2021-10-01 For the first time Rikyu s tea is considered as a profoundly important political as well as a socio religious ritual in response to the dramatic changes taking place in the country at large the hundred year civil war Sengoku period was finally coming to an end and the process of political unification under the strong military leadership of Oda Nobunaga and Toyotomi Hideyoshi had begun An important focus in the book is the author s research into why Rikyu s tragic suicide enforced by Hideyoshi was a necessary outcome of the emerging conflict between ritual art and politics In addition the study highlights the tensions and struggles between individual artists who were led by a sense of artistic identity and inspiration together with the political leaders who imposed their artistic taste on the nation Plutschow also provides new insights into the sixteenth century Japanese perception of beauty commonly called wabi a simple often austere beauty displayed in tea in order to unite host and guests as equals This book will be of considerable interest in research connected with politics Zen Buddhism and art history as well as the central issues regarding the history and development of tea in Japan

The Ideologies of Japanese Tea Tim Cross, 2009-09-01 This provoking new study of the Japanese tea ceremony chanoyu examines the ideological foundation of its place in history and the broader context of Japanese cultural values where it has emerged as a so called quintessential component of the culture It was in fact Sen Soshitsu XI grandmaster of Urasenke today the most globally prominent tea school who argued in 1872 that tea should be viewed as the expression of the moral universe of the nation A practising teamaster himself the author argues however that tea was many other things it was privilege politics power and the lever for passion and commitment in the theatre of war Through a methodological framework rooted in current approaches he demonstrates how the iconic images as supposedly timeless examples of Japanese tradition have been the subject of manipulation as ideological tools and speaks to presentations of cultural identity in Japanese society today

Japan and the Culture of the Four Seasons Haruo Shirane, 2013-03-05 Introduction Secondary nature climate and landscape Poetic topics and the making of the four seasons Visual culture classical poetry and linked verse Interiorization flowers and social ritual Rural landscape social difference and conflict Trans seasonality talismans and landscape Annual observances famous places and entertainment Seasonal pyramid parody and botany Conclusion History genre and social community

Making Tea, Making Japan Kristin Surak, 2012-11-28 The tea ceremony persists as one of the most evocative symbols of Japan Originally a pastime of elite warriors in premodern society it was later recast as an emblem of the modern Japanese state only to be transformed again into its current incarnation largely the hobby of middle class housewives How does the cultural practice of a few come

to represent a nation as a whole Although few non Japanese scholars have peered behind the walls of a tea room sociologist Kristin Surak came to know the inner workings of the tea world over the course of ten years of tea training Here she offers the first comprehensive analysis of the practice that includes new material on its historical changes a detailed excavation of its institutional organization and a careful examination of what she terms nation work the labor that connects the national meanings of a cultural practice and the actual experience and enactment of it She concludes by placing tea ceremony in comparative perspective drawing on other expressions of nation work such as gymnastics and music in Europe and Asia Taking readers on a rare journey into the elusive world of tea ceremony Surak offers an insightful account of the fundamental processes of modernity the work of making nations

Keeping Family in an Age of Long Distance Trade, Imperial Expansion, and Exile, 1550-1850 Heather Dalton, 2025-10-01 Keeping Family in an Age of Long Distance Trade Imperial Expansion and Exile 1550 1850 brings together eleven original essays by an international group of scholars each investigating how family or the idea of family was maintained or reinvented when husbands wives children apprentices servants or slaves separated or faced separation from their household The result is a fresh and geographically wide ranging discussion about the nature of family and its intersection with travel over three hundred years a period during which roles and relationships within and between households were increasingly affected by trade settlement and empire building The imperial project may have influenced different regions in different ways at different times yet as this collection reveals families especially those transcending national ties and traditional boundaries were central to its progress Together these essays bring new understandings of the foundations of our interconnected world and of the people who contributed to it

early modern period more broadly *Materials and Meaning in Contemporary Japanese Architecture* Dana Buntrock, 2013-09-13 In this beautiful and perceptive book Dana Buntrock examines for the first time how tradition is incorporated into contemporary Japanese architecture Looking at the work of five architects Fumihiko Maki Terunobu Fujimori Ryoji Suzuki Kengo Kuma and Jun Aoki Buntrock reveals the aims influencing many wonderful works barely known in the West the sensual side of Japanese architecture borne out of approaches often less concerned with professionalism than with people and place The buildings described in this book illustrate an architecture that embraces uniqueness expressing unusual stories in the rough outlines of rammed earth and rust and demonstrating new paths opening up for architectural practice today For some these examples will offer new insight into expressions of tradition in Japanese architecture for others this book offers inspiration for their own efforts to assert the unique heritage of other regions around the world Compelling insightful and groundbreaking this book is essential for everyone studying Japanese architecture and anyone trying to invoke narrative and tradition in contemporary design *Zen and Material Culture* Pamela D. Winfield, Steven Heine, 2017 The stereotype of Zen Buddhism as a minimalistic or even immaterial meditative tradition persists in the Euro American cultural imagination This volume calls attention to the vast range of stuff in Zen by highlighting the material abundance and iconic range of the Soto Rinzai and Obaku sects in Japan Chapters on beads bowls buildings staffs statues rags robes and even retail commodities in America all shed new light on overlooked items of lay and monastic practice in both historical and contemporary perspectives Nine authors from the cognate fields of art history religious studies and the history of material culture analyze these Zen matters in all four senses of the phrase the interdisciplinary study of Zen s matters objects and images ultimately speaks to larger Zen matters ideas ideals that matter in the predicate sense to both male and female practitioners often because such matters economic considerations help to ensure the cultural and institutional survival of the tradition Zen and Material Culture expands the study of Japanese Zen Buddhism to include material inquiry as an important complement to mainly textual institutional or ritual studies It also broadens the traditional purview of art history by incorporating the visual culture of everyday Zen objects and images into the canon of recognized masterpieces by elite artists Finally the volume extends Japanese material and visual cultural studies into new research territory by taking up Zen s rich trove of materia liturgica and supplementing the largely secular approach to studying Japanese popular culture This groundbreaking volume will be a resource for anyone whose interests lie at the intersection of Zen art architecture history ritual tea ceremony women s studies and the fine line between Buddhist materiality and materialism **The Scaffolding of Sovereignty** Zvi Ben-Dor Benite, Stefanos Geroulanos, Nicole Jerr, 2017-06-13 What is sovereignty Often taken for granted or seen as the ideology of European states vying for supremacy and conquest the concept of sovereignty remains underexamined both in the history of its practices and in its aesthetic and intellectual underpinnings Using global intellectual history as a bridge between approaches periods and areas The Scaffolding of

Sovereignty deploys a comparative and theoretically rich conception of sovereignty to reconsider the different schemes on which it has been based or renewed the public stages on which it is erected or destroyed and the images and ideas on which it rests The essays in *The Scaffolding of Sovereignty* reveal that sovereignty has always been supported complemented and enforced by a complex aesthetic and intellectual scaffolding This collection takes a multidisciplinary approach to investigating the concept on a global scale ranging from an account of a Manchu emperor building a mosque to a discussion of the continuing power of Lenin's corpse from an analysis of the death of kings in classical Greek tragedy to an exploration of the imagery of the people in the Age of Revolutions Across seventeen chapters that closely study specific historical regimes and conflicts the book's contributors examine intersections of authority power theatricality science and medicine jurisdiction rulership human rights scholarship religious and popular ideas and international legal thought that support or undermine different instances of sovereign power and its representations *The Philosopher's Table* Marietta

McCarty, 2013-08-29 Talk doesn't cook rice Chinese Proverb According to Socrates knowledge is food for the soul That's all well and good for the Socratic but according to Maslow food for the stomach is a far more pressing matter But why can't you have your talk and cook rice too With *The Philosopher's Table* Marietta McCarty shows you that you can In this book you will find all of the necessary ingredients to start a Philosophy Dinner Club taking a monthly tour around the world with friends to sample hors d'oeuvres of succulent wisdom and fill your plate with food from each philosopher's home country With recipes theories and insights both old and new all peppered with McCarty's charming and informative prose you and your friends will Enjoy fresh homemade lamb meatballs and tzatziki and the simple pleasures of life in Epicurus's ancient Greek garden Practice nonviolence in life and at the dinner table while sharing tofu curry with Burma's Aung San Suu Kyi Learn the fundamentals of rational decision making with a mouthful of bratwurst from Germany's Immanuel Kant In the spirit of accepting change ditch the familiar take out containers and dine on homemade shrimp dumplings with China's Lao Tzu And so much more Complete with McCarty's recommendations for ethnic music from each region to enjoy during your gatherings and discussion questions to prompt debate *The Philosopher's Table* contains everything you need to leave your host's home brimming with both nutritional and mental satisfaction *Speaking with Houses* Michael Linzey, 2025-09-16 This book critically examines the concept of Being in Western philosophy and its manifestation in architecture The book traverses diverse cultural and historical contexts analysing five architectural works the Djoser Step Pyramid in ancient Egypt the Pantheon in imperial Rome the Tai'an tea house in late medieval Japan the Te Tokanganui a Noho meeting house in colonial New Zealand and Mies van der Rohe's Seagram Building in modern New York Through these case studies it challenges Martin Heidegger's assertion that language is the house of Being proposing instead that Being is a construct specific to Western ontology By exploring architectural poesis across various cultures the book reveals that the Western notion of Being is not a universal foundation for architectural creation Each examined structure embodies distinct cultural and philosophical

principles such as the concept of *m* in Japanese tea houses which signifies neither Being nor non Being and the no Being tradition in *Mori tikanga* This comparative analysis underscores the diversity of architectural expressions and their underlying philosophies offering readers a nuanced understanding of how different cultures conceptualize existence and space This book is an invaluable resource for scholars in architecture philosophy and cultural studies Its interdisciplinary approach provides a comprehensive critique of Western metaphysical assumptions encouraging readers to reconsider the relationship between language being and architectural form By integrating architectural analysis with philosophical inquiry it fosters a deeper appreciation of cultural diversity in architectural practices and invites academics to explore alternative ontological perspectives in the built environment

Dramatic Experience Katja Gvozdeva, Tatiana Korneeva, Kirill Ospovat, 2016-10-11 In *Dramatic Experience The Poetics of Drama and the Early Modern Public Sphere* s Katja Gvozdeva Tatiana Korneeva and Kirill Ospovat eds focus on a fundamental question that transcends the disciplinary boundaries of theatre studies how and to what extent did the convergence of dramatic theory theatrical practice and various modes of audience experience among both theatregoers and readers of drama contribute during the sixteenth to eighteenth centuries to the emergence of symbolic social and cultural space s we call public sphere s Developing a post Habermasian understanding of the public sphere the articles in this collection demonstrate that related if diverging conceptions of the public existed in a variety of forms locations and cultures across early modern Europe and in Asia

The Historical Development and Contemporary Perspective of the Japanese Urasenke Way of Tea as Practiced in California Kent H. Morris, 2003 This work provides an introduction to the art and science of tea It explores the ways in which this ancient traditional and highly formalized ritual has been adapted to function within a modern cosmopolitan society
