Rediscovery Of Inner Experience:

The Rediscovery of Inner Experience Lucy Bregman,1982 **Pitirim A. Sorokin: Rediscovering a Master of Sociology** Emiliana Mangone,2023-09-12 Pitirim A Sorokin is a controversial figure in the history of sociology of which he remains one of the masters Those who read Sorokin today must however frame the historical reality experienced by the scholar his Russian and American experiences because the evolution of his thought had several phases that correspond to his personal family and professional lives he founded and directed the Department of Sociology at Harvard University for many years This Russian American sociologist argued that socio cultural phenomena must be studied following their dynamism in space and time since the constituent elements personality society and culture are constantly changing and cannot be studied separately Reviving his thought is not a form of celebration but a moment to reflect on how some sociology classics still have their relevance and how all too often they are forgotten This is why this book takes up his main conceptualizations by anchoring them to contemporary society whose transformations are often difficult to read and above all to highlight how the role of sociology as a science has in part lost sight of its ontological foundation as a service to humanity or public service The theoretical paths taken by Sorokin range from Social and Cultural Dynamics to Social Mobility and to many other topics such as man and society in calamities or love and altruism one of Sorokin s latest topics All these topics can revive the idea of a sociology that holds together the micro meso and macro dimensions and allows us to predict changes in society **Writings of the Dawn - The Spiritual Journey of a Baby-Boomer** Steven J. Ecopsychology, Phenomenology, and the Environment Douglas A. Vakoch, Fernando Castrillón, 2014-02-17 This book seeks to confront an apparent contradiction that while we are constantly attending to environmental issues we seem to be woefully out of touch with nature The goal of Ecopsychology Phenomenology and the Environment is to foster an enhanced awareness of nature that can lead us to new ways of relating to the environment ultimately yielding more sustainable patterns of living This volume is different from other books in the rapidly growing field of ecopsychology in its emphasis on phenomenological approaches building on the work of phenomenological psychologists such as Maurice Merleau Ponty This focus on phenomenological methodologies for articulating our direct experience of nature serves as a critical complement to the usual methodologies of environmental and conservation psychologists who have emphasized quantitative research Moreover Ecopsychology Phenomenology and the Environment is distinctive insofar as chapters by phenomenologically sophisticated ecopsychologists are complemented by chapters written by phenomenological researchers of environmental issues with backgrounds in philosophy and geology providing a breadth and depth of perspective not found in other works written exclusively by psychologists Rediscovering Léon Brunschvicg's Critical Idealism Pietro Terzi, 2022-01-13 L on Brunschvicg s contribution to philosophical thought in fin de si cle France receives full explication in the first English language study on his work Arguing that Brunschvicg is crucial to understanding the philosophical schools which took root in 20th century France Pietro Terzi locates Brunschvicg alongside his contemporary Henri Bergson as well as the range of thinkers he taught and influenced including L vinas Merleau Ponty de Beauvoir and Sartre Brunschvicg s deep engagement with debates concerning spiritualism and rationalism neo Kantian philosophy and the role of mathematics in philosophy made

Rediscovering Empathy Karsten Stueber,2010-08-13 Empathy as epistemically central for our folk psychological understanding of other minds a rehabilitation of the empathy thesis in light of contemporary philosophy of mind In this timely and wide ranging study Karsten Stueber argues that empathy is epistemically central for our folk psychological understanding of other agents that it is something we cannot do without in order to gain understanding of other minds Setting his argument in the context of contemporary philosophy of mind and the interdisciplinary debate about the nature of our mindreading abilities Stueber counters objections raised by some in the philosophy of social science and argues that it is time to rehabilitate the empathy thesis Empathy regarded at the beginning of the twentieth century as the fundamental method of gaining knowledge of other minds has suffered a century of philosophical neglect Stueber addresses the plausible philosophical misgivings about empathy that have been responsible for its failure to gain widespread philosophical acceptance Crucial in this context is his defense of the assumption very much contested in contemporary philosophy of mind that the notion of rational agency is at the core of folk psychology Stueber then discusses the contemporary debate between simulation theorists who defend various forms of the empathy thesis and theory theorists In distinguishing between basic and reenactive empathy he provides a new interpretive framework for the investigation into our mindreading capacities Finally he considers epistemic objections to empathy raised by the philosophy of social science that have been insufficiently discussed in contemporary debates Empathy theorists Stueber writes should be prepared to admit that although empathy can be regarded as the central default mode for understanding other agents there are certain limitations in its ability to make sense of other agents and there are supplemental theoretical strategies available to overcome these limitations
