Redistribution Or Recognition A Political Philosophical Exchange:

Redistribution Or Recognition? Nancy Fraser, Axel Honneth, 2003 A debate between two philosophers who hold different views on the relation of redistribution to recognition Justice of Marxism Zhang Xiaomeng, 2023-10-11 This book analyzes Marxian theories of justice within the context of contemporary political philosophy and intellectual history Transcending perspectives from classical Marxism the author analyzes how Western Marxism has engaged with critically and responded to the theories of justice especially since the 1970s The nine chapters cover major intellectual movements and multi dimensional frameworks of thought that critique and understand anew the idea of justice including anglophone debates on Marxism and justice global distributive justice and viewpoints from analytical Marxism radical egalitarianism the Frankfurt School Marxian feminism and ecological Marxism The second part of the book returns to the classical texts of Marxism with a focus on historical materialism and a critique of capitalism to reinterpret basic tenets of justice in Marxism and to reconstruct Marxian theory of justice This title will be of value to scholars and students interested in theories of justice Marxian philosophy and political philosophy The Politics of Misrecognition Majid Yar, 2016-02-24 The past several decades have seen the emergence of a vigorous ongoing debate about the politics of recognition The initial impetus was provided by the reflections of Charles Taylor and others about the rights to cultural recognition of historically marginalized groups in Western societies Since then the parameters of the debate have considerably broadened However while debates about the politics of recognition have yielded significant theoretical insights into recognition its logical and necessary counterpart misrecognition has been relatively neglected The Politics of Misrecognition is the most meticulous reflection to date on the importance of misrecognition for the understandings of our political and personal experience A team of leading experts from a range of disciplines including philosophy political theory sociology psychoanalysis history moral economy and criminology present different theoretical frameworks in which the politics of misrecognition may be understood They apply these frameworks to a wide variety of contexts including those of class identity disability slavery criminal victimization and domestic abuse In this way the book provides an essential resource for anyone interested in the dynamics of misrecognition and their implications for the development of political and social theory **The Oxford Handbook of Political Theory** John S Dryzek, Bonnie Honig, Anne Phillips, 2008-06-12 Long recognized as one of the main branches of political science political theory has in recent years burgeoned in many different directions Close textual analysis of historical texts sits alongside more analytical work on the nature and normative grounds of political values Continental and post modern influences jostle with ones from economics history sociology and the law Feminist concerns with embodiment make us look at old problems in new ways and challenges of new technologies open whole new vistas for political theory This Handbook provides comprehensive and critical coverage of the lively and contested field of political theory and will help set the agenda for the field for years to come Forty five chapters by distinguished political theorists look at the state of the field where it has

been in the recent past and where it is likely to go in future They examine political theory's edges as well as its core the globalizing context of the field and the challenges presented by social economic and technological changes **Constructing Marxist Ethics**, 2015-02-04 Does Marxism possess an ethical impulse Is there a moral foundation that underpins the Marxist critique of capitalism and the vision for social progress The essays collected in *Constructing Marxist Ethics* Critique Normativity Praxis argue that there is such an ethical grounding for Marxist theory The essays each from different vantage points construct what a Marxian ethics should look like what kind of values should be at the heart of the Marxian enterprise Contributors are Dan Albanese Paul Blackledge Bob Cannon Tony Burns Ian Fraser Ruth Groff Wadood Hamad Christoph Henning Peter Hudis Lauren Langman George E McCarthy Sean Sayers Michael J Thompson and Lawrence Wilde **The 'Postmodern Turn' in the Social Sciences** Simon Susen, 2015-07-23 Simon Susen examines the impact of the postmodern turn on the contemporary social sciences On the basis of an innovative five dimensional approach this study provides a systematic comprehensive and critical account of the legacy of the postmodern turn notably in terms of its continuing relevance in the twenty first century **Habermas and Giddens on Praxis and Modernity** Craig Browne, 2017-01-02 In *Habermas and Giddens on Praxis and Modernity* Craig Browne investigates how two of the most important and influential contemporary social theorists have sought to develop the modernist visions of the constitution of society through the autonomous actions of subjects Comparing Habermas's and Giddens's conceptions of the constitution of society interpretations of the social structural impediments to subjects autonomy and attempts to delineate potentials for progressive social change within contemporary society Browne draws on his own work which has extended aspects of the social theorists approach to modernity Despite the criticisms developed over the course of the book Habermas and Giddens are found to be two of the most important theorists of democratization and social democracy the dynamics of capitalist modernity and their paradoxes social practices and reflexivity and the foundations of social theory in the problem of the relationship of social action and social structure **The Right against Rights in Latin America** Leigh A. Payne, Julia Zulver, Simón Escoffier, 2023-03-02 The book examines a new wave of anti rights movements in Latin America devoted to blocking rolling back and reversing the rights of historically excluded groups *Critique and Resistance in a Neoliberal Age* Charles Masquelier, 2017-02-08 This book lays the conceptual groundwork for a coalition of struggles under the neoliberal age In doing so the author demonstrates that despite talk of fragmentation divisions and conflicts the present situation offers fresh opportunities for connecting diverse solidarities *Critique and Resistance in a Neoliberal Age* explores what connects individuals not only between neoliberal conditions of economic cultural and environmental domination but also in resistance It also highlights the transformative power of human action by grounding neoliberal processes in human action and demonstrating the relevance of and opportunities for emancipatory politics today Offering a critique oriented towards social change informed by a broad range of theoretical traditions and empirical research the book will be of interest to students and

Perfecting Justice in Rawls, Habermas and Honneth Miriam Bankovsky,2012-02-23 In this exciting new work Miriam Bankovsky shows how the pursuit of justice requires two orientations The first is a practical commitment to the possibility of justice which is the clear starting point for the broadly constructive theories of Rawls Habermas and Honneth Indeed if justice were not possible it would be difficult to see why it is worthwhile for human beings to live on this earth However a second orientation qualifies the first It can be expressed as a deconstructive attentiveness to the impossibility of determining justice s content This impossibility results from the tension between the appeal for individual consideration and the appeal for impartiality demands that Derrida believes our historical concept of justice includes Framed by these two orientations this ambitious book explores the promise and shortcomings of the constructive theories Attentive to concrete experiences of injustice that these thinkers tend to overlook Bankovsky provocatively challenges Rawls account of civil disobedience Habermas defence of rational consensus and Honneth s ideal of mutual recognition providing new insights into deconstruction s relevance for contemporary theories of justice

The Skillful Self John Stopford,2009-03-16 The Skillful Self Liberalism Culture and the Politics of Skill presents a political liberal theory of cultural participation and the goals of cultural policy in contemporary

pluralistic democracies The ideal of cultural participation which many regard as central to the self conception of modern constitutional democracies is often subject to the distorting influences of state perfectionism paternalism consumerism and ideology These distortions and the problems they raise are intensified by the forces of social cultural and economic globalization Using the tools of contemporary liberal theory The Skillful Self develops an approach to the politics of culture that focuses on the concept of skill and its place in a liberal conception of the self Support for this approach is derived from the work of Nussbaum and Sen who make a conception of human capability basic to their views of public policy and the design of political institutions But the politics of skill modifies the capability approach by characterizing the central human functional capabilities as functions of the skillful self The final chapters of the book describe the competences of the skillful self elaborating a new typology of skills and explaining why basic institutions are obliged to promote them To make the role of skill in the central capabilities explicit in this way is not to invoke the perfectionist ideal of a culture of skill but rather to focus on the structural role of skill in a nonperfectionist conception of truly human functioning and on the social conditions of individual capability viewed as a function of skill

Fortunes of Feminism Nancy Fraser, 2013-10-01 Nancy Fraser's major new book traces the feminist movement's evolution since the 1970s and anticipates a new radical and egalitarian phase of feminist thought and action During the ferment of the New Left Second Wave feminism emerged as a struggle for women's liberation and took its place alongside other radical movements that were questioning core features of capitalist society But feminism's subsequent immersion in identity politics coincided with a decline in its utopian energies and the rise of neoliberalism Now foreseeing a revival in the movement Fraser argues for a reinvigorated feminist radicalism able to address the global economic crisis Feminism can be a force working in concert with other egalitarian movements in the struggle to bring the economy under democratic control while building on the visionary potential of the earlier waves of women's liberation This powerful new account is set to become a landmark of feminist thought

Undoing Work, Rethinking Community James A. Chamberlain, 2018-02-15 This revolutionary book presents a new conception of community and the struggle against capitalism In *Undoing Work Rethinking Community* James A Chamberlain argues that paid work and the civic duty to perform it substantially undermines freedom and justice Chamberlain believes that to seize back our time and transform our society we must abandon the deep seated view that community is constructed by work whether paid or not Chamberlain focuses on the regimes of flexibility and the unconditional basic income arguing that while both offer prospects for greater freedom and justice they also incur the risk of shoring up the work society rather than challenging it To transform the work society he shows that we must also reconfigure the place of paid work in our lives and rethink the meaning of community at a deeper level Throughout he speaks to a broad readership and his focus on freedom and social justice will interest scholars and activists alike Chamberlain offers a range of strategies that will allow us to uncouple our deepest human values from the notion that worth is generated only through labor
