The Changing Portrayal of Adolescents in the Media Since 1950 Patrick Jamieson, Daniel Romer, 2008-07-22 Adolescents are eager consumers of mass media entertainment and are particularly susceptible to various forms of media influence such as modeling desensitization and contagion These once controversial phenomena are now widely accepted along with the recognition that the media are a major socializer of youth During the economic boom of the post World War II era marketers and advertisers identified adolescents as a major audience which led to the emergence of a pervasive youth culture Enormous changes ensued in the media's portrayal of adolescents and the behaviors they emulate These changes were spurred by increased availability and consumption of television which joined radio film and magazines as major influence on youth Later the rapid growth of the video game industry and the internet contributed to the encompassing presence of the media Today opportunities for youthful expression about to the point where adolescents can easily create and disseminate content with little control by traditional media gatekeepers In The Changing Portrayals of Adolescents in the Media since 1950 leading scholars analyze the emergence of youth culture in music and powerful trends in gender and ethnic racial representation sexuality substance use violence and suicide portrayed in the media This book illuminates the evolution of teen portrayal the potential consequences of these changes and the ways policy makers and parents can respond

Resilient Girls Stephanie R. Hawkins, 2010-08 From 1991 to 2000 arrests of girls increased more than arrests of boys for most offenses By 2004 girls accounted for 30% of all juvenile arrests Resilience the psychological ability to successfully cope with severe stress and negative events is a widely studied concept that has important implications for the development of delinquency prevention and intervention programs Scientists still cannot completely explain why some children are resilient to the negative events in their life and others are not Furthermore factors associated with resilience may not be the same for both genders This report examines a select number of factors that

research suggests may protect girls who are at risk for becoming delinquent Illustrations **The Praeger International Collection on Addictions** Angela Brownemiller Ph.D., 2009-04-30 Only the very rare among us are completely unscathed by the effects of addiction our own that of a family member friend or coworker Even the addictions of strangers from the drunk

driver or drug addict to gambling food spending or violence addicted people may subject us to dangers threaten our well being and drain money from our pockets Recent national estimates in just the US show that substance abuse and addiction alone cost taxpayers a total of nearly 500 billion a year In these volumes experts from around the world present the newest issues research and insights into addictions of all kinds Led by Angela Browne Miller Director of the Metaxis Compulsive and Habitual Behaviors Institute in California this team of contributors includes scholars and practitioners from the United States Canada the United Kingdom Sweden Thailand Africa and Russia Topics range from drug addiction among male female teen and aging populations and among White Hispanic Black Asian Native American and other groups using liquor cocaine methamphetamine khat and or other lesser known drugs to behavioral addictions including online gaming excessive buying and eating disorders Chapters also address issues including addiction as a public health problem and the politics of drug treatment policies Treatment methods for addictions from electrotherapy to holistic approaches are addressed as are spiritual psychological and cross cultural issues involved The experts behind these chapters include those from the University of California Berkeley Johns Hopkins School of Medicine and Purdue University to McGill University Nottingham Trent University and the All India Institute of Medical Sciences Mental Disorders of the New Millennium Thomas G. Plante Ph.D.,2006-08-30 Tragically the daily news is filled with stories about hurtful and seemingly mystifying problems in human behavior Each morning we face news stories about murder suicide drunken driving accidents child molestation drug abuse gambling criminal behavior and so forth The cover stories of news magazines from Time and Newsweek to U S News and World Report often focus on abnormal psychology and behavior connected to these particular topics as well as to autism child hyperactivity depression eating disorders and more In these volumes experts in their respective fields draw together compelling chapters on the abnormal psychology and resulting behaviors that are today most often and most dramatically at issue in our world including such topics as workaholism Written with accessibility in mind the set is intended to bridge the gap between research monographs and self help books to give layreaders and students solid and up to date information without having to translate jargon heavy text Most people today are impacted by abnormal behavior or mental illness in some way Some suffer from their own mental disorders or live with someone who does Others have been victimized by people experiencing abnormal psychology including the 20% of American women and 15% of American men reporting they were sexually abused as children Mental illness and abnormal behavior touches all of us This set can help us cope **Advances in Child Development and Behavior** Janette B. Benson,2012-04-25 Volume 42 of the Advances in Child Development and Behavior series includes 9 chapters that highlight some of the most recent research in the area A wide array of topics are discussed in detail including Loneliness in Childhood The Legacy of Early Interpersonal Experience The Relation Between Space and Math and Producing and Understanding Prosocial Acts in Early Childhood Each chapter provides in depth discussions and this volume serves as an invaluable resource for Developmental or educational psychology researchers
