Regarding Politics Harry Eckstein, 2021-01-08 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1992 New Directions in Quantitative Comparative Sociology, 2021-10-18 The comparative method is at the core of sociological inquiry and gained new importance emphasis and practitioners particularly after the second world war as a consequence of a large variety of international and global scale developments The contributions to this book regard nations or countries as contextual units of analysis and treat them as variables Theoretical explanations are presented of how social phenomena are systematically related to characteristics of the nation states and these explanations are tested empirically using the qualitative tools of mainstream sociology The chapters in this book can be useful to a broad audience and a range of social scientists who are interested in the understanding of contemporary social phenomena that are no longer limited to national borders but that are transnational or of a global order Contributors are Toril Aalberg Wil Arts Carole B Burgoyne Loek Halman Piet Hermkens Guillermina Jasso Mebs Kanji James R Kluegel Ola Listhaug David S Mason Petr Mat ju Neil Nevitte Thorleif Pettersson David A Routh Svetlana Sidorenko Stephenson Johan Verweij Bernd Wegener and Peter Van Wijck Toward a Credible Pacifism Dustin Ells Howes, 2010-07-02 Advocates of pacifism usually stake their position on the moral superiority of nonviolence and have generally been reluctant or unwilling to concede that violence can be an effective means of conducting politics In this compelling new work which draws its examples from both everyday experience and the history of Western political thought author Dustin Ells Howes presents a challenging argument that violence can be an effective and even just form of power in politics Contrary to its proponents however Howes argues that violence is no more reliable than any other means of exercising power Because of this there is almost always a more responsible alternative He distinguishes between violent and nonviolent power and demonstrates how the latter can confront physical violence and counter its claims This brand of pacifism gives up claims to moral superiority but recuperates a political ethic that encourages thoughtfulness about suffering and taking responsibility for our actions *Cuba and the Politics of Passion* Damián J. Fernández, 2010-01-01 Cuban politics has long been remarkable for its passionate intensity and yet few scholars have explored the effect of emotions on political attitudes and action in Cuba or elsewhere This book thus offers an important new approach by bringing feelings back into the study of politics and showing how the politics of passion and affection have interacted to shape Cuban history throughout the twentieth century Damián Fernández characterizes the politics of passion as the pursuit of a moral absolute for the nation as a whole While such a pursuit rallied the Cuban people around charismatic leaders such as Fidel Castro Fernández finds that it also set the stage for disaffection and disconnection when the grand goal never fully materialized At the same time he reveals

how the politics of affection taking care of family and friends outside the formal structures of government has paradoxically both undermined state regimes and helped them remain in power by creating an informal survival network that provides what the state cannot or will not

Elections in Japan, Korea, and Taiwan under the Single Non-Transferable Vote Bernard Norman Grofman, Sung-Chull Lee, Edwin Winckler, Brian Woodall, 2010-09-22 In recent years there has been a marked resurgence of interest in the effects of electoral laws on important aspects of politics such as party competition In this volume a distinguished group of scholars looks at the impact of one set of electoral rules the single non transferable vote on electoral competition in Japan Korea and Taiwan Under this plan citizens are allowed one vote even though there is more than one seat to be filled In comparative studies of the adoption and rejection of the single nontransferable vote and the consequences of its use across different settings the contributors explore the differences in the operation and effects of the application of the same rule in different countries Arguing that any single feature of a political system is embedded in a political structure and cannot be understood in isolation the authors demonstrate how the same rule can have different consequences depending on the context in which it operates The contributors offer fresh insights into the comparative study of political institutions as well as into the operation of particular electoral rules In addition to the editors the contributors include Kathleen Bawn John Boland Jean Marie Bouissou Gary Cox John Fu Sheng Hsieh Arend Lijphart Emerson Niu Steven R Reed and Frances Rosenbluth among others Bernard Grofman is Professor of Political Science University of California at Irvine Edwin A Winckler is at the East Asian Institute Columbia University Brian Woodall is Assistant Professor in the School of International Affairs Georgia Institute of Technology Sung Chull Lee is Assistant Professor of Political Science University of California at Irvine

China-Russia Strategic Alignment in International Politics Alexander Korolev, 2025-10-01 Post Cold War China Russia strategic cooperation has displayed significant development and become an increasingly important factor in contemporary international politics. However there has been no theory grounded framework and corresponding measurements that would allow an accurate and systematic assessment of the level of China Russia alignment and its progress over time. How closely aligned are China and Russia? How to define and measure strategic alignments between states. This book bridges area studies and International Relations literature to develop a set of objective criteria to measure and explain the development of strategic alignment in post Cold War China Russia relations. China Russia Strategic Alignment in International Politics establishes that on a range of criteria China Russia alignment has been moving towards a full fledged alliance showing a consistent incremental upward trend. There are strong structural incentives for furthering the China Russia alignment. The alignment framework developed in the book is applicable to other cases of interstate strategic cooperation and enables systematic comparisons of different strategic alignments.

Advancing the Rule of Law Abroad Rachel Kleinfeld, 2012-11-28 In the modern era political leaders and scholars have declared the rule of law to be essential to democracy, a necessity for economic growth and a crucial tool in the fight for security at home and stability abroad. The United States has spent billions attempting to catalyze rule of law improvements within other countries. Yet despite the importance of the goal to core foreign policy needs and the hard work of hundreds of practitioners on the ground the track record of successful rule of law promotion has been paltry. In *Advancing the Rule of Law Abroad* Rachel Kleinfeld describes the history and current state of reform efforts and the growing movement of second generation reformers who view the rule of law not as a collection of institutions and laws that can be built by outsiders but as a relationship between the state and society that must be shaped by those inside the country for lasting change. Based on research in countries from Indonesia to Albania Kleinfeld makes a compelling case for new methods of reform that can have greater chances of success. This book offers a comprehensive overview of this growing area of policy action where diplomacy and aid meet the domestic policies of

other states Its insights into the practical methods and moral complexities of supporting reform within other countries will be useful to practitioners and students alike **American Political Scientists** Glenn H. Utter, Charles Lockhart, 2002-10-30
