Genre Networks

Carmen Pérez-Llantada, María-José Luzón, 2022-09-30 This innovative book employs genre as a fruitful lens for exploring the complexity of science communication online and the new genre assemblages formed at the interface of multiple genres in digital environments Pérez Llantada and Luzón argue for a conceptualization of Science 2.0 that views digital genres in conjunction with other genres accounting for the ways in which diverse Internet users choose different points of entry for accessing information on science of varied depth views and perspectives Taking Swales's conceptualization of forms of genre collectivity as its point of departure the book puts forward this new understanding of multisemiotic genre assemblages in

digital science communication considering dimensions of hypertextuality intertextuality and multimodality in the interdependent relations between genres The volume draws on a range of case studies each with a distinct genre assemblage and social agenda exploring such areas as high stakes science open peer review science reproducibility citizen science and social media networking Offering new directions for future research on genre studies and digital science communication Genre Networks Intersemiotic Relations in Digital Science Communication will be of interest to scholars in these fields as well as those working in multimodality language and communication and languages for academic purposes [Encyclopedia of Operations Research and Management Science](#) Saul I.
