A Selection of the Poems of Sir Constantijn Huygens (1596-1687) Constantijn Huygens, 2015 **The Dutch Republic in the Seventeenth Century** Maarten Prak, 2023-01-19 Rembrandt Hals and Vermeer are still household names even though they died over three hundred years ago In their lifetimes they witnessed the extraordinary consolidation of the newly independent Dutch Republic and its emergence as one of the richest nations on earth As one contemporary wrote in 1673 the Dutch were the envy of some the fear of others and the wonder of all their neighbours During the Dutch Golden Age the arts blossomed and the country became a haven of religious tolerance However despite being self-proclaimed champions of freedom the Dutch conquered communities in America Africa and Asia and were heavily involved in both slavery and the slave trade on three continents This substantially revised second edition of the leading textbook on the Dutch Republic includes a new chapter exploring slavery and its legacy as well as a new chapter on language and literature *The Cambridge Companion to the Dutch Golden Age* Helmer J. Helmers, Geert H. Janssen, 2018-08-23 An accessible introduction to the political economic literary and artistic heritage of the Dutch Republic in the seventeenth century **A History of European Literature** Walter Cohen, 2017-01-19 Walter Cohen argues that the history of European literature and each of its standard periods can be illuminated by comparative consideration of the different literary languages within Europe and by the ties of European literature to world literature World literature is marked by recurrent systematic features outcomes of the way that language and literature are at once the products of major change and its agents Cohen tracks these features from ancient times to the present distinguishing five main overlapping stages Within that framework he shows that European

literatures ongoing internal and external relationships are most visible at the level of form rather than of thematic statement or mimetic representation European literature emerges from world literature before the birth of Europe during antiquity whose Classical languages are the heirs to the complex heritage of Afro Eurasia This legacy is later transmitted by Latin to the various vernaculars The uniqueness of the process lies in the gradual displacement of the learned language by the vernacular long dominated by Romance literatures That development subsequently informs the second crucial differentiating dimension of European literature the multicontinental expansion of its languages and characteristic genres especially the novel beginning in the Renaissance This expansion ultimately results in the reintegration of European literature into world literature and thus in the creation of today's global literary system The distinctiveness of European literature is to be found in these interrelated trajectories

Parente Jr., Frank Willaert, Yuri Desplenter, Bart Besamusca, Frans R. E. Blom and Jan Bloemendal
