

DETERMINISM (SOCIOLOGY)

In sociology, determinism proposes that everything we do, in terms of our social conduct, is pre-determined by biological factors, like our DNA.

DEFINITION

Determinists, whether in the field of philosophy, sociology, or psychology have a belief that our actions, and in turn, reactions, are in some way predetermined by either biology, our environment, or in many cases both. Moreover, they assert that it is highly unlikely that a person would be able to alter their inevitable path or choices due to their biological or environmental conditions.

EXAMPLES

Determinism and Social Deviance: Assuming that a child who grows up in a violent household is predestined to commit violent crime.

Technological Determinism: The idea that advances in technology will fundamentally determine how society progresses and changes.

Towards a Philosophical Anthropology of Culture Kevin M. Cahill, 2021-01-24 This book explores the question of what it means to be a human being through sustained and original analyses of three important philosophical topics relativism skepticism and naturalism in the social sciences Kevin M Cahill s approach involves an original employment of historical and ethnographic material that is both conceptual and empirical in order to address relevant philosophical issues Specifically while Cahill avoids interpretative debates he develops an approach to philosophical critique based on Cora Diamond s and James Conant s work on the early Wittgenstein This makes possible the use of a concept of culture that avoids the dogmatism that not only typifies traditional metaphysics but also frequently mars arguments from ordinary language or phenomenology This is especially crucial for the third part of the book which involves a cultural historical critique of the

ontology of the self in Stanley Cavell's work on skepticism In pursuing this strategy the book also mounts a novel and timely defense of the interpretivist tradition in the philosophy of the social sciences Towards a Philosophical Anthropology of Culture will be of interest to researchers working on the philosophy of the social sciences Wittgenstein and philosophical anthropology The Open Access version of this book available at <http://www.taylorfrancis.com/books/9780367638238> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

On Creating a Usable Culture Maureen A. Molloy,2008-02-20 Margaret Mead s career took off in 1928 with the publication of *Coming of Age in Samoa* Within ten years she was the best known academic in the United States a role she enjoyed all of her life In *On Creating a Usable Culture* Maureen Molloy explores how Mead was influenced by and influenced the meanings of American culture and secured for herself a unique and enduring place in the American popular imagination She considers this in relation to Mead s four popular ethnographies written between the wars *Coming of Age in Samoa* *Growing Up in New Guinea* *The Changing Culture of an Indian Tribe* and *Sex and Temperament in Three Primitive Societies* and the academic middle brow and popular responses to them Molloy argues that Mead was heavily influenced by the debates concerning the forging of a distinctive American culture that began around 1911 with the publication of George Santayana s *The Genteel Tradition* The creation of a national culture would solve the problems of alienation and provincialism and establish a place for both native born and immigrant communities Mead drew on this vision of an integrated culture and used her primitive societies as exemplars of how cultures attained or failed to attain this ideal Her ethnographies are really about America the peoples she studied serving as the personifications of what were widely understood to be the dilemmas of American selfhood in a materialistic individualistic society Two themes subtend Molloy s analysis The first is Mead s articulation of the individual s relation to his or her culture via the trope of sex Each of her early ethnographies focuses on a character and his or her problems as expressed through sexuality This thematic ties her work closely to the popularization of psychoanalysis at the time with its understanding of sex as the key to the self The second theme involves the change in Mead s attitude toward and definition of culture from the cultural determinism in *Coming of Age* to culture as the enemy of the individual in *Sex and Temperament* This trend parallels the consolidation and objectification of popular and professional notions about culture in the 1920s and 1930s *On Creating a Usable Culture* will be eagerly welcomed by those with an interest in American studies

and history cultural studies and the social sciences and most especially by readers of American intellectual history the history of anthropology gender studies and studies of modernism Sexual Justice / Cultural Justice Barbara Arneil, Monique Deveaux, Rita Dhamoon, Avigail Eisenberg, 2006-11-22 This key volume explores the relationship between cultural justice and sexual justice in multicultural societies in a new light The authors challenge the framing of feminism and multiculturalism as one of inevitable conflict as well as the portrayal of liberal sexual equality and cultural rights as irreconcilable moving the debate beyond the culture gender impasse Focusing on three theoretical themes from a feminist perspective the meaning and role of culture and identity in politics the problem of autonomy in relation to culture and identity the crucial role of democracy in addressing the theoretical and practical problems raised by this set of issues The diverse contributors break new theoretical ground by providing detailed engagement with the concrete experiences of women and minorities who are caught in the dilemmas of gender and cultural justice The collected chapters address sexual cultural justice in a range of different countries offering illuminating case studies on Britain South Africa Canada the Netherlands Australia Mexico and the United States Sexual Justice Cultural Justice will be of strong interest to students and researchers working in the areas of gender and feminist theory politics law philosophy and sociology Diagnosis Narratives and the Healing Ritual in Western Medicine James Meza, 2018-07-17 The dominance of illness narratives in narrative healing studies has tended to mean that the focus centers around the healing of the individual Meza proposes that this emphasis is misplaced and the true focus of cultural healing should lie in managing the disruption of disease and death cultural or biological to the individual s relationship with society By explicating narrative theory through the lens of cognitive anthropology Meza reframes the epistemology of narrative and healing moving it from relativism to a philosophical perspective of pragmatic realism Using a novel combination of narrative theory and cognitive anthropology to represent the ethnographic data Meza s ethnography is a valuable contribution in a field where ethnographic records related to medical clinical encounters are scarce The book will be of interest to scholars of medical anthropology and those interested in narrative history and narrative medicine **The Power of Feelings** Nancy Chodorow, 1999-01-01 Drawing upon her broad knowledge and background in social theory Chodorow argues that psychoanalysis gives an account of subjectivity that incorporates forms of wholeness and depth of experience without which we cannot have a meaningful life Children's Rights Ursula Kil Kelly, 2017-07-05 The articles in this volume shed light on some of the major tensions in the field of children s rights such as the ways in which children s best interests and respect for their autonomy can be reconciled challenges such as how the CRC can be made a reality in the lives of children in the face of ignorance apathy or outright opposition and critiques whether children s rights are a Western imposition or a successful global consensus Along the way the writing covers a myriad of issues encompassing the opposition to the CRC in the US gay parenting Dr Seuss s take on children s autonomy the voice of neonates on their health care the role of NGO in supporting child labourers in India and young people in detention and more
