Subject Guide to Books in Print ,1991 **Books In Print 2004-2005** Ed Bowker Staff,Staff Bowker, Ed,2004 **Be in Charge, It's Free of Charge** Dino Georgalas,2005 Synopsis According to Yogi Berra You can sometimes see a lot just by looking Even a casual observation of everyday life and current events may well reveal that the state of our nation and indeed the world is increasingly fraught with stress rapidly deteriorating and costly health angst agony and even depression Be In Charge of Yourself and Your Health It s Free of Charge addresses with the utmost if not unprecedented simplicity what concerns and alarms most everybody on the planet maybe even more so in the US Canada and the EU which is Human Health Stress It provides universal appeal accessibility and self empowerment for the general reader while also uniquely providing total independence of all external and or intangible references and or directives Health and stress are practically everybody s prime and urgent concern This is probably an understated understatement Martial the first century AD Roman poet was right on when he quite unequivocally stated Life Is Not Living But Living In Health non est vivere sed vaslere vita est Myriad published recommendations to combat ill health and stress fall mainly in the following categories Medical Scientific Religious Abstract Esoteric Spiritual Fads diets fitness meditation etc Some recommendations may be dogmatic and or intimidating but all operate under the illusion of one size fits all or as culturally and commonly expressed Everybody does it or It happens to everybody This illusion is also hammered in holistically by relentless advertising Most existing HEALTH and STRESS related PUBLICATIONS are BASED ON DOGMA and or intimidation pushed strictly by AUTHOR CREDENTIALS and or FAME and NOTORIETY They also embrace the one size fits all myth or rather oxymoron and promote fads often contradictory As anyone may observe the state of our physical and mental health leaves a lot to be desired to say the least in spite of occasional short term and at times Pyrrhic victories Be In Charge of Yourself and Your Health It s Free of Charge offers a uniquely different and tangible paradigm It contains no dogma be it religious ideological spiritual or other Nor is it abstract moralising or judgmental It merely reminds readers of their uniqueness their inherent and self evident free will power of choice which combined with their innate common sense can uniquely deal with their health and stress concerns This reminder is tangible self evident accessible by most all and anybody can identify with it individually The reader is in the driver s seat not some guru with myriad lists of to do s none of which is individualised The reader alone gets to choose Simply put you do not have to do anything only what you choose to since choice has always been yours is always yours will always be yours and never never anybody else s Furthermore it does not prescribe dictate recommend or promote products diets exercises systems procedures and treatments nor any literature dealing in what to do when and how It establishes with

Aristotelian sequential logic and common sense that by Being In Charge Of One's Self stress and the resulting self contradictions and internal conflicts may be neutralised Once In Charge Of One's Self the next logical step is the option to take Charge Of One's Health and validate the ancient Greek principle of Healthy Mind in a Healthy Body This ancient principle is being constantly reconfirmed by medical science Be In Charge of Yourself and Your Health It's Free of Charge first establishes tangibly the absolute uniqueness of each human being while debunking the one size fits all myth It next reminds all of the self evident that all the children of the Big Bang AKA human beings are inherently equipped with the gift of discrimination and the absolute power of choice free will Once individual uniqueness and the absolute power of choice and its natural consequences are acknowledged a

Ultimate Speed Samuel Hawley, Craig Breedlove, 2018-10-02 An L A hot rodder with a high school education a family to support and almost no money Craig Breedlove set out in the late 1950s to do something big harness the thrust of a jet in a car With a growing obsession that would cost him his marriage he started building in his dad's garage The car's name was Spirit of America Through perseverance and endless hard work Craig completed Spirit and broke the land speed record on the Bonneville Salt Flats setting a new mark of 407 mph in 1963 He went on to be the first person to drive 500 and 600 mph breaking the land speed record five times In the early 1970s he turned to rockets and set an acceleration record at Bonneville that stands to this day He built a jet car in the 1990s Spirit of America Sonic Arrow to go head to head against Britain's ThrustSSC to be the first to Mach 1 Craig's subsequent crash at 675 mph remains the fastest in history Even today at the age of eighty he is going strong with plans for yet another Spirit of America racer The ultimate goal 1 000 mph Ultimate Speed is the authorized biography of Craig Breedlove with a foreword by Craig himself A candid revelation of one of motorsports most interesting figures the book is based primarily on countless hours of interviews with Craig and dozens of people connected to his life

At the Frontier of Spacetime Torsten Asselmeyer-Maluga, 2016-04-28 In this book leading theorists present new contributions and reviews addressing longstanding challenges and ongoing progress in spacetime physics In the anniversary year of Einstein's General Theory of Relativity developed 100 years ago this collection reflects the subsequent and continuing fruitful development of spacetime theories The volume is published in honour of Carl Brans on the occasion of his 80th birthday Carl H Brans who also contributes personally is a creative and independent researcher and one of the founders of the scalar tensor theory also known as Jordan Brans Dicke theory In the present book much space is devoted to scalar tensor theories Since the beginning of the 1990s Brans has worked on new models of spacetime collectively known as exotic smoothness a field largely established by him In this Festschrift one finds an outstanding and unique collection of articles about exotic smoothness Also featured are Bell's inequality and Mach's principle Personal memories and historical aspects round off the collection

Technical Abstract Bulletin, **Differential Geometry and General Relativity** Canbin Liang, Bin Zhou, 2023-08-28 This book the first in a three volume set explains general relativity using the mathematical tool of differential geometry The

book consists of ten chapters the first five of which introduce differential geometry which is widely applicable even outside the field of relativity Chapter 6 analyzes special relativity using geometric language In turn the last four chapters introduce readers to the fundamentals of general relativity Intended for beginners this volume includes numerous exercises and worked out example in each chapter to facilitate the learning experience Chiefly written for graduate level courses the book's content will also benefit upper level undergraduate students and can be used as a reference guide for practicing theoretical physicists
