Malcolm's directives on why the African American struggle for national liberation and self-determination is necessary, how it should be carried on, and why it can succeed. The Islamic force tends to act against nationalism as introduced by western European development and socialism as introduced in the development of the USSR and China. It is both anti-nationalist and anti-materialistic. All aspects of societal life are viewed as an integral part of the whole, the divine one God. Thus, all aspects of life in the state must be theoretically harmonized so as to achieve spiritual peace, happiness, and total submission to the will of one God. Both the governing elite and masses are theoretically equalized by rules and principles from outside of society, the Qur'an and Sunnah from The Black Book: The Political Philosophy of Malcolm X.
