According to the Vedānta, by René Guénon. Translated by Richard C. Nicholson René Guénon, 1945 **The Serpent Symbol in Tradition** Charles Dailey, 2022-01-24 Serpent and dragon symbolism is ubiquitous in the art and mythology of premodern cultures around the world Over the centuries conflicting hypotheses have been proposed to interpret this symbolism which while illuminating have proved insufficient to the task of revealing a singular meaning for the vast majority of examples In The Serpent Symbol in Tradition Dr Dailey argues that in what the symbolist Rene Guenon and the historian of religions Mircea Eliade have called traditional or archaic societies the serpent dragon transculturally symbolizes matter a state of being that is constituted by the perception of the physical world as chaotic in comparison to what traditional peoples believed to be the higher meta physical source of the physical world or nature In the course of Dr Dailey s investigations into the meaning of traditional serpent dragon symbolism the following contributions have proved invaluable 1 Gu non s interpretation of the language of traditional symbolism and the metaphysics that underlies it as well as his interpretation of the terminology of the Hindu Doctrines 2 Eliade s interpretation of traditional archaic societies by means of his concepts of chaos creation Axis Mundi World Axis and Sacred and Profane and 3 the insights of various other researchers of serpent dragon symbolism Beyond purporting to resolve some of the mystery of the ancient and varied symbolism of the serpent dragon The Serpent Symbol in Tradition strives to serve the related functions of interpreting the symbolic meanings of a wide variety of premodern artifacts and narratives as well as providing a study of the origination and ancient human awareness of the mentioned state of matter

The Biographical Encyclopedia of Islamic Philosophy Oliver Leaman, 2015-07-16 Philosophy flourished in the Islamic world for many centuries and continues to be a significant feature of cultural life today. Now available in paperback, *The Biographical Encyclopedia of Islamic Philosophy* covers all the major and many minor philosophers, theologians, and mystics who contributed to its development. With entries on over 300 thinkers and key concepts in Islamic philosophy, this updated landmark work also includes a timeline, glossary, and detailed bibliography. It goes beyond philosophy to reference all kinds of theoretical inquiry which were often linked with philosophy, such as the Islamic sciences, grammar, theology, law, and traditions. Every major school of thought from classical Peripatetic philosophy to Sufi mysticism is represented, and entries range across time from the early years of the faith to the modern period. Featuring an international group of authors from South East Asia, the Indian Subcontinent, the Middle East, and North Africa, Europe, and North America, *The Biographical Encyclopedia of Islamic Philosophy* provides access to the ideas and people comprising almost 1400 years of Islamic philosophical tradition. *Black Sun* Nicholas Goodrick-Clarke, 2001-08-01 A comprehensive and revealing study of the mindset and motives that drive far right extremists in the post World War II West, *Black Sun* examines the new neofascist ideology showing how hate groups, militias, and conspiracy cults gain influence. Based on interviews and extensive research into underground groups, the book documents new Nazi and fascist sects that have sprung up from the 1970s to the 1990s and examines the mentality and motivation of these far right extremists. The result is a detailed, grounded portrait of the mythical and devotional aspects of Hitler cults among Aryan mystics, racist skinheads, and Nazi satanists and disciples of heavy metal music and occult literature. **The Essential René Guénon** René Guénon, 2009-10-15 A prolific writer and author of over 24 books, René Guénon was the founder of the Perennialist Traditionalist school of comparative religious thought. Known for his discourses on the intellectual and spiritual bankruptcy of the modern world, symbolism, tradition, and the inner or spiritual dimension of religion, this book is a compilation of his most important writings. A key component of his thought was the assertion that universal truths manifest themselves in various forms in the world's religions, and his writings on Hinduism, Taoism, and Sufism are particularly illuminating in this regard. **Encyclopedia of Indian Philosophies** Karl H.
