Messing Around with Words Stephen M. Honig, 2019-01-07 Whether inspired by contempt or by love whether depressed by lack of clarity or being startled by what was clear whether looking at the poverty in Africa or at rusting shells of burned out tanks whether puzzled by or angry at life or both Steve Honig's poetry captures emotional power through a lens of sardonic detail It is not easy to describe a book of poetry with no theme It is at core focused perceptions triggered by

images events and frustrations Poems range from sexuality and self doubt to rage at homo sapiens generally A conversation with Frank Sinatra segues into a walk in a hillside cemetery while the poet's mother meanders among the tombstones Perhaps notably the longest poem is not a poem at all but a review of the writings of an imaginary poet laureate whose intellectual rise and inevitable fall to age chronicle a life spent in the pain of putting it all on paper Containing poems both in rhymed format and free verse this book taps the vulnerability we all feel and then brings a smile of recognition *Man Bites Dog* Michael Shaain,2012-01-16 In this clever send up of the comical and bizarre in today's news players make their own headlines from a collection of raucous possibilities It is fun frivolous and makes for some strange stories *Movies of the '90s* Riley Webster,2023-11-01 The 1990s was an amazing decade for movies witnessing the release of dozens of incredible films including The Matrix The Shawshank Redemption Pulp Fiction Goodfellas Fargo Jurassic Park and so many more Despite this embarrassment of riches author Riley Webster believes this decade has never received as much praise or as many kudos as it deserves until now Whether you're a serious cinephile a casual viewer or merely seeking a heavy dose of 1990s nostalgia this is the book for you *Journalism* Tony Harcup,2021-10-06 A classic text of journalism education that goes beyond the basics to ask the questions that anyone thinking of becoming a journalist really needs to consider An ethical entertaining and enduring read highly recommended Michelle Stanistreet General Secretary National Union of Journalists This is the one book you need to guide you through university and into your career in journalism It features stories and tips from a diverse range of journalists including Ayshah Tull and Cathy Newman of Channel 4 News Emma Youle of HuffPost Andrew Norfolk of the Times and the Mirror's Nada Farhoud Covering everything from print to podcasting it will equip you with the skills and understanding you need to become a successful and ethical journalist Tony Harcup's *Journalism Principles and Practice* is simply the best guide there is to studying and practising journalism today A holistic assessment of what journalism is all about with plenty of enterprising interpretations of our trade a word I prefer to profession I never met a more unprofessional breed than that of my fellow hacks This book will I hope lead our successors both to question and rebel more than we have Jon Snow Channel 4 News *Backsass* Fred Chappell,2004-01-29 This collection of humorous and satiric verse takes its title from that thoroughly southern term meaning irreverent retort ironic remark or scoffing observation The ancient Roman poet Juvenal noted that his world made it hard not to write satire Fred Chappell finding his contemporary era analogous to that of imperial Rome has in *Backsass* given in to the impulse for invective and mockery Whether addressing the political the poetical or the practical Chappell brandishes his lexical sword ribbing our shortcomings offering tonic advice and occasionally shedding a tear for our fallen ideals Some poetry is fine wine *Backsass* is the driest of martinis *21st Century Communication: A Reference Handbook* William F. Eadie,2009-05-15 The discipline of communication has grown in popularity from the time professors of journalism and speech decided in the mid 1960s that the term communication was an excellent general descriptor for the theory and research that each group aspired to create Over time the two groups grew

closer and recognized significant overlap in their theoretical and research interests but there were also differences in their traditions that kept them apart While both groups agreed that communication is a practical discipline journalism professors focused a great deal of their attention on the education of media professionals Speech professors on the other hand often were more oriented to the liberal arts and valued the fact that communication could be approached from a variety of traditions including the arts humanities social sciences and even the sciences A key term in 21st Century communication however is convergence Not only are media and technology converging with each other to produce new means of communicating but individuals are increasingly using both new and existing communication tools to create new forms of communication This convergence forces the various camps within the communication discipline to draw upon each other's theories and research methods to keep up with explaining the rapidly changing communication environment This convergence of ideas and theories provides a space to challenge conventional ways of thinking about the communication discipline and that's the goal of the SAGE 21st Century Reference Series volumes on Communication General Editor William F Eadie has sought to honor the diversity of the study of communication but also integrate that diversity into a coherent form dividing communication study into four basic properties 1 processes 2 forms and types of communication 3 characteristics to consider in creating messages and 4 relationships between communicators Via 100 chapters this 2 volume set available in both print and electronic formats highlights the most important topics issues questions and debates any student obtaining a degree in the field of communication ought to have mastered for effectiveness in the 21st Century The purpose is to provide undergraduate majors with an authoritative reference source that will serve their research needs going forward in this exciting field with more detailed information than encyclopedia entries but not as much jargon detail or density as a journal article or a research handbook chapter Comprehensive coverage captures all the major themes and subfields within communication For instance Volume 1 themes include the discipline of communication approaches to the study of communication key processes of communication forms and types of communication key characteristics of messages key communication relationships factors affecting communication and challenges and opportunities for communication Themes in Volume 2 are media as communication communication as a profession journalism public relations advertising and media management Authoritative content is provided by a stellar casts of authors who bring diverse approaches diverse styles and different points of view Curricular driven emphasis provides students with initial footholds on topics of interest in researching for term papers in preparing for GREs in consulting to determine directions to take in pursuing a senior thesis graduate degree career etc Uniform chapter structures make it easy for students to locate key information with a more or less common chapter format of Introduction Theory Methods Applications Comparisons Future Directions Summary Bibliography Suggestions for Further Reading and Cross References Availability in print and electronic formats provides students with convenient easy access
