On Religion Addresses In Response To Its Cultured Critics Research In Theology:

On Religion Friedrich Schleiermacher, 1969 Schleiermacher's addresses on religion to the cultured critics of his time comprise one of those rare works of literature that masterfully initiate an epoch but long continue to realize an influence far transcending their original effect. They comprise a masterpiece not only of personal testimony but of intelligent witness to that which is most lasting and fundamental though often most elusive and difficult to achieve in human life and culture. Religion presumably constitutes the most important set of relationships that can be cultivated in a person. Yet religion is often the most readily misunderstood and maligned. Schleiermacher's aim in these addresses is to penetrate the excrescences and the corruptions of so-called religion to reach its vital heart so as to clarify what religion essentially is to suggest how it is to be found to consider how it may be cultivated and perhaps also to stimulate a responding chord of sensitivity and devotion among his hearers. He is not trying to put something over on anyone. In tolerant open-hearted response to familiar attitudes he is simply replying again and again: Is the situation really what you say? Consider this. Or Yes you are entirely correct but that is not religion. You are looking in the wrong place. Or You are moving in the right direction but in the wrong way.

History of New Testament Research, Vol. 1 William Baird, Stressing the historical and theological significance of pivotal figures and movements William Baird guides the reader through intriguing developments and critical interpretation of the New Testament from its beginnings in Deism through the watershed of the Tübingen school. Familiar figures appear in a new light and important previously forgotten stages of the journey emerge. Baird gives attention to the biographical and cultural setting of persons and approaches affording both beginning student and seasoned scholar an authoritative account that is useful for orientation as well as research.

Schleiermacher: On Religion Friedrich Schleiermacher, 1996-04-18 Schleiermacher's *On Religion: Speeches to its Cultured Despisers* is a classic of modern Protestant religious thought that powerfully displays the tensions between the Romantic and Enlightenment accounts of religion. This edition presents the original 1799 text in English for the first time. Richard Crouter's introduction places the work in the milieu of early German Romanticism, Kant criticism, the revival of Spinoza and Plato studies, and theories of literary criticism and of the physical sciences. This fully annotated edition also contains a chronology and notes on further reading.

God's Word Alone---The Authority of Scripture Matthew Barrett, 2016-09-20 Scholar and pastor Matthew Barrett retraces the historical and biblical roots of the doctrine that Scripture alone is the final and decisive authority for God's people. *God's Word Alone* is a decisive defense of the Bible as the inspired and inerrant Word of God. Revitalizing one of the five great declarations of the Reformation, *sola Scriptura*, Barrett analyzes what the idea of *sola Scriptura* is and what it entails, clarifying why the doctrine is truth and why it is so essential to Christianity. Surveys the development of this theme in the Reformation and traces the crisis that followed, resulting in a shift away from the authority of Scripture. Shows that we need to recover a robust doctrine of Scripture's authority in the face of today's challenges and why a solid doctrinal foundation built on God's Word is the best.

hope for the future of the church This book is an exploration of the past in order to better understand our present and the importance of reviving this indispensable doctrine for the Christian faith and church today THE FIVE SOLAS Historians and theologians have long recognized that at the heart of the sixteenth century Protestant Reformation were five declarations often referred to as the solas These five statements summarize much of what the Reformation was about and they distinguish Protestantism from other expressions of the Christian faith that they place ultimate and final authority in the Scriptures acknowledge the work of Christ alone as sufficient for redemption recognize that salvation is by grace alone through faith alone and seek to do all things for God s glory The Five Solas Series is more than a simple rehashing of these statements but instead expounds upon the biblical reasoning behind them leading to a more profound theological vision of our lives and callings as Christians and churches

This work is a fresh unusually lucid approach to Christian theology and interfaith dialogue from India Its basic aim is to examine the Christian consciousness of God's work in history redemption history within the entire history of the world It uses Christian Faith by Friedrich Schleiermacher 1768 1834 as its main text so as to view this theme in a reversed order from the way it is presented there This approach which centers on God's new creation in Christ leads to an incisive understanding of Christianity's relation to other modes of faith Throughout Dr Kunnuthara compares the thought of another Indian Christian leader steeped in Hindu thought Pandippedi Chenchiah 1886 1959 to enable renewed interfaith dialogue across a wide spectrum

Christmas Sermons Friedrich Schleiermacher, 2019-09-11 New discoveries arise alongside memories in every Christmas sermon that Friedrich Schleiermacher 1768 1834 ever delivered This book invites readers into an informed experience of Christmas through eleven sermons In these pages readers watch Schleiermacher lay discovery and memory side by side because this is how his own famed systemic theological views of Christian faith and life developed throughout his life These sermons evoke first curiosity then wonderment at the prospects reading can open For Schleiermacher Christmas was always a special time to engender such experiences a time to survey different vistas of Jesus birth and career Schleiermacher lived when the modern age was being born He contributed substantially to that birth and to the health of

modern times His sermons collected here display the main theological grounds for his worldview which is still quite timely today

Biblical Studies and the Shifting of Paradigms, 1850-1914 Graf Henning Reventlow, William Reuben Farmer, 1995-01-01 The volume contains the contributions to a symposium in which specialists in different fields worked together in the attempt to throw by their cooperation more light on the conditions theological convictions and worldview political climate influence of state officials educational institutions and churches which were influential in the development of biblical studies in the second half of the 19th century The discussion originated with a special problem the thesis of William Farmer one of the co editors of the volume that the appointment of Heinrich Julius Holtzmann who defended the priority of the gospel of Mark as the oldest synoptic gospel to the New Testament professorship in Strasbourg in 1872 was the result of a direct intervention of the imperial chancellor Bismarck in the context of the kulturkampf who wished thereby to weaken the Roman Catholic position defending the supremacy of the chair of St Peter by the authority of the gospel of St Matthew Mt 16 18 The question belongs in the broader context of the presuppositions of Bible exegesis in the second half of the 19th century As both editors agreed that the matter is not yet finally settled it seemed to be essential for coming to deeper insights into the conditions under which biblical exegesis was enacted in the 19th century to broaden the scenery and to include other aspects that might throw more light on a period widely unknown to many scholars belonging to the present generation Therefore specialists of different fields joined a symposium in order to elucidate from their respective viewpoints and interests basic themes and methods of biblical exegesis scientific theology and the relations between state and university in the 19th century

Faith, Reason, and Culture George Karuvelil, 2020-07-24 In this book George Karuvelil seeks to establish the rationality of religion and theology in the contemporary world Theology has always required some philosophical basis Moreover Christian theology has had a dynamic character that enabled it to adapt to more than one philosophy depending on the need of the time For instance it shifted in accordance with the change from Neo Platonism to Aristotelianism in the thirteenth century However this dynamism has been absent since the dawn of modernity when reason became identified with modern science to disastrous results While the advent of postmodernism has brought the limits of modernism to light it has done nothing to establish the rationality of religion other than to treat religion as a cultural phenomenon along with science This book conceives fundamental theology as a discipline that seeks religious truth in the midst of diverse perspectives ranging from militant atheism to violent religious fanaticism

Within My Heart Michael A. Van Horn, 2017-03-14 This book illustrates how Christianity in the modern era has been shaped in the direction of subjectivity In the Enlightenment after Locke required faith to submit to reason's judgment Kant argued that religion should remain within the bounds of reason only Schleiermacher shifted attention away from belief to devotion to Christ and a feeling of absolute dependence on God Rejecting Hegel's system Kierkegaard summoned his readers to a unique subjective approach to justification by faith Revivalist Evangelicalism has been perceived and portrayed itself as a rejection of modernism This

study argues instead that the Evangelical revivalist movement is unmistakably modern in its assumptions regarding the nature of faith. The Pietist impulse fueled in part by modern anthropocentrism and subjectivism in religious belief was appropriated by the Evangelical revivalists such as John Wesley, George Whitefield, Jonathan Edwards and later Charles Finney. In short, Christianity today is a religion of the heart.

The Study of Theology Gerhard Ebeling, 1979

Saving Wisdom Brian W. Hughes, 2011-02-07

Is theology possible within a Christian university? Beneath the emphasis of contextual philosophical and ecclesial pluralism, what is its academic nature? Further, who can participate in it? Recent debates and discussions by theologians that touch upon these questions seem to run in circles: theology is an academic specialty enjoying academic freedom; theology must bolster ecclesial identity; become more catechetical and serve the church; theology must contribute to and shape public policy. Though such positions recur, they overlook latent but interrelated characteristics embedded within the nature and place of theology within the Christian university that affect them all. Upon analysis of four major theologians: Friedrich Schleiermacher, John Henry Newman, Avery Cardinal Dulles S.J. and Edward Farley, I argue that there are two major patterns at work. First, theology is more a *sapientia* or wisdom than a traditional academic discipline. Second, all descriptions of theology in the university possess an inclusive or exclusive soteriological character. These patterns pervade diverse topics: the relationship of theology to the church; authority; a theologian's ecclesial and academic commitments; the preconditions of faith for theological understanding; participation in a religious symbol system; theology as wisdom; and the difference between religion and theology. How one implicitly defines Christian salvation regarding the place of theology in the Christian university opens or closes the practice of theology to those who teach and learn it.

The Word as True Myth Gary J. Dorrien, 1997-01-01

Gary Dorrien follows the threads of theology through the twentieth century, examining how Christians have reconciled their myth-filled religious beliefs within a world secularized by Enlightenment criticism and science. To understand how religion keeps its place in Christians' lives, Dorrien writes, we must explore how modern theologians have answered the question of myth in today's Christianity. Dorrien's narrative walks readers through modern theology, stopping with each of the major thinkers along the way to see how they dealt with the issue of modern Christian mythology. Ultimately, he offers his own new neo-orthodoxy: a theology of Word and Spirit that is pluralistic and affirms the mythical character of the gospel while holding fast to the Gospels' myth negating condemnation of idolatry and their focus on history.

Jesus and the Quest for Meaning Thomas H. West, A new approach to introducing theology

As God's self-communication to humans, Jesus is the key to the human search for meaning, argues Thomas West. He therefore introduces the practice of theology through Christology. From the question of personal meaning and self-constitution and their relationship to transcendent meaning and value, he proceeds to discuss the figure and import of Jesus and then the ethical imperative engendered through encounter with him. Fresh and clear, West's book is an invitation to grapple with one's religious commitments, especially in light of recent insights in biblical studies and Continental feminist and liberation

theologies This new text will prove an engaging and effective introduction to theological thinking for both undergraduates and Christian adults
