Christian Faith and Environmental Stewardship Daniel K. Lagat, 2019-03-15 This book covers the contribution of Christianity in the care stewardship and management of the environment It uses ideas from the logical position of a Christian created in God's image redeemed by God and given responsibility to subdue and keep the earth arguing that a Christian has the responsibility and mandate to care for the environment It shows that successful stewardship happens when a Christian is aware of God's intention for creation exerts effort to increase it and is expected to give an account to God for their actions toward it The book presents environmental concerns in Kenya as an opportunity for change describing situations and why they could become opportunities for change Seven worldviews are presented that discourage Christians who want to do environmental stewardship and Christian theological doctrines are discussed that could be used to cause ecclesial participation in environmental stewardship Finally the book envisions a Conserving Church with specific activities the church can do to successfully influence people to do environmental stewardship Christians, the Care of Creation, and Global

Climate Change Lindy Scott, 2008-03-01 Christians the Care of Creation and Global Climate Change is a wake up call for Christians and others It is a cogent and persuasive call to love God and our neighbors by caring for creation especially in light of the dramatic climate changes occurring before our eyes This book is not the final word on the subject but it is a sincere invitation to examine the scientific evidence for global warming and to respond with individual and collective faithful actions CONTRIBUTORS Douglas Allen Jeffrey K Greenberg P J Hill Sir John T Houghton A Duane Litfin Ben Lowe Vincent E Morris L Kristen Page Lindy Scott Noah J Toly **The Nature of Environmental Stewardship** Johnny Wei-Bing

Lin, 2016-12-29 Environmental issues appear deceptively simple science tells us what the problems are and how to solve them and for Christians the Bible motivates us to care for creation And yet both in society in general as well as in the Christian church in particular we cannot seem to agree on what to do regarding environmental issues In The Nature of Environmental Stewardship climate scientist Johnny Wei Bing Lin argues that determining the content of environmental stewardship far from being a straightforward exercise is a difficult and complex endeavour He sets forth a general taxonomy drawing from worldviews ethical theories science epistemology science policy studies politics and economics that can help us better understand what excellent creation care consists of and how to bridge the differences people have regarding environmental issues **Creation and the Environment** Calvin Redekop, 2003-04-01 Recent years have seen a shift in the belief that a

religious world view specifically a Christian one precludes a commitment to environmentalism Whether as stewards of God's creation or champions of environmental justice church members have increasingly found that a strong pro ecology stand on

environmental issues is an integral component of their faith But not all Christian denominations are latecomers to the issue of environmentalism In *Creation and the Environment* Calvin W Redekop and his co authors explain the unique environmental position of the Anabaptists in particular the Mennonites After a brief survey of the major forces contributing to the world's present ecological crisis *Creation and the Environment* explores the uniquely Anabaptist view of our relationship to what they see as the created order In rural Amish and Mennonite communities they explain the environment especially the land is considered part of the Kingdom God plans to establish on earth In this view the creation is part of the divine order with the redemption of humankind inextricably linked to the redemption and restoration of the material world The well being a purpose of creation and human history are thus seen as completely interdependent Contributors Donovan Ackley III Claremont Graduate School Kenton Brubaker Eastern Mennonite University Thomas Finger Claremont Graduate School Karen Klassen Harder Bethel College Kansas James Harder Bethel College Kansas Lawrence Hart Cheyenne Cultural Center Clinton Oklahoma Theodore Hiebert McCormick Theological Seminary Karl Keener Pennsylvania State University Walter Klaassen Conrad Grebel College David Kline Holmes County Ohio Calvin W Redekop Conrad Grebel College Mel Schmidt Dorothy Jean Weaver Eastern Mennonite University Michael Yoder Northwestern College Iowa

Wright, 2020-04-22 Because the World Matters New generations are championing responsibility for both the environment and those peoples who depend upon it in all new ways *Biblical Holism and Agriculture* addresses the urgent need for constructing a holistic perspective grounded in the Bible to appraise the economic social ecological environmental and spiritual impact of globalization and the unprecedented impact of powerful agricultural technologies and marketing systems The holistic biblical perspectives within reference ancient Hebrew insights about responsible freedom for keeping the land by people created in the image of God as representatives commissioned to stewardship and justice

Salvation Means Creation Healed Howard A. Snyder, Joel Alan Scandrett, 2011-07-13 The Bible promises the renewal of all creation a new heaven and earth based on the incarnation life death and resurrection of Jesus Christ For centuries this promise has been sidelined or misunderstood because of the church's failure to grasp the full meaning of biblical teachings on creation and new creation The Bible tells the story of the broken and restored relationship between God people and land not just God and people This is the full gospel and it has the power to heal the church's long theological divorce between earth and heaven Jesus resurrection in the power of the Holy Spirit is the key and the church as Christ's body is the primary means by which God is reconciling all things through Jesus Christ Jesus ultimate healing of all creation is the great hope and promise of the gospel and he calls the church to be his healing community now through evangelism discipleship and prophetic mission

Toward an Evangelical Public Policy Ronald J. Sider, Diane Knippers, 2005-02 Deepens thinking about biblical and other conceptual foundations for political engagement in order to unify and give consistency to evangelicals involvement in politics

Reading the Bible in an Age of Crisis Bruce

Worthington,2015 We live in an age in which economic ecological and political crises are not the exception but the rule The Cold War polarities that shaped an earlier political exegesis have been replaced Bruce Worthington argues that increasingly crisis is the engine of a global turbo capitalism In this volume edited by Worthington biblical scholars and activists describe and exemplify the shape of a biblical interpretation that takes contemporary crisis seriously as its most important context Succinct opening essays summarize the salient aspects of our critical situation especially in relation to the dominance of capitalism and its pervasive values in later parts contributions address themes of economic political and environmental crisis in dialogue with texts from the First and Second Testaments Throughout the volume the authors are careful to describe the basis for making interpretive analogies across historical cultural and socioeconomic distances between the world of the Hebrew Bible the New Testament and our own Richard A Horsley writes a postscript pointing to next steps in political interpretation

Ecologies of Grace Willis Jenkins,2013-02-12 Christianity struggles to show how living on earth matters for living with God While people of faith increasingly seek practical ways to respond to the environmental crisis theology has had difficulty contextualizing the crisis and interpreting the responses In Ecologies of Grace Willis Jenkins presents a field shaping introduction to Christian environmental ethics that offers resources for renewing theology Observing how religious environmental practices often draw on concepts of grace Jenkins maps the way Christian environmental strategies draw from traditions of salvation as they engage the problems of environmental ethics He then uses this new map to explore afresh the ecological dimensions of Christian theology Jenkins first shows how Christian ethics uniquely frames environmental issues and then how those approaches both challenge and reinhabit theological traditions He identifies three major strategies for making environmental problems intelligible to Christian moral experience Each one draws on a distinct pattern of grace as it adapts a secular approach to environmental ethics The strategies of ecojustice stewardship and ecological spirituality make environments matter for Christian experience by drawing on patterns of sanctification redemption and deification He then confronts the problems of each of these strategies through critical reappraisals of Thomas Aquinas Karl Barth and Sergei Bulgakov Each represents a soteriological tradition which Jenkins explores as an ecology of grace letting environmental questions guide investigation into how nature becomes significant for Christian experience By being particularly sensitive to the ways in which environmental problems are made intelligible to Christian moral experience Jenkins guides his readers toward a fuller understanding of Christianity and ecology He not only makes sense of the variety of Christian environmental ethics but by showing how environmental issues come to the heart of Christian experience prepares fertile ground for theological renewal
