Reference Groups : Exploration Into Conformity and Deviation of Adolescents Muzafer Sherif, Carolyn W. Sherif, 1972 Reference Groups. Exploration Into Conformity and Deviation of Adolescents. (Under the Editorship of Gardner Murphy.) Muzafer SHERIF (and SHERIF (Carolyn Wood)), 1964 **Technical Report** United States. Commission on Obscenity and Pornography, 1971 **Team Effectiveness In Complex Organizations** Eduardo Salas, Gerald F. Goodwin, C. Shawn Burke, 2008-11-20 Over the past 40 years there has been a growing trend toward the utilization of teams for accomplishing work in organizations Project teams self managed work teams and top management teams among others have become a regular element in the corporation or military This volume is intended to provide an overview of the current state of the art research on team effectiveness *Social Judgment and Intergroup Relations* Donald Granberg, Gian Sarup, 2012-12-06 *Social Judgment and Intergroup Relations Essays in Honor of Muzafer Sherif* is a stimulating collection which paints a crisp and fascinating picture of social psychology during its decades of growth into a mature science With his important contributions in the study of social norms attitudes self concept group relations and other areas Muzafer Sherif was a key figure in the discipline Each essay in this book illustrates the lasting influence of Muzafer Sherif s seminal work in social psychology *Communication Yearbook 20* Brant R. Burleson, 2012-03-22 The *Communication Yearbook* annuals publish diverse state of the discipline literature reviews that advance knowledge and understanding of communication systems processes and impacts across the discipline Sponsored by the International Communication Association each volume provides a forum for the exchange of interdisciplinary and internationally diverse scholarship relating to communication in its many forms This volume re issues the yearbook from 1997 *Beginnings* Margaret B. Spencer, Geraldine K. Brookins, Walter R. Allen, 2013-04-15 How does the therapist begin psychotherapy How that is does she conceptualize the needs of the patient while simultaneously enlisting him or her as an active partner in formulating an individualized working plan And how should supervisors teach the skills needed to make the intake procedure truly the beginning of treatment In *Beginnings The Art and Science of Planning Psychotherapy* Mary Jo Peebles Kleiger tackles these and other questions in an authoritative manner that draws on the cumulative experience of the outpatient department of the Menninger Psychiatric Clinic Peebles Kleiger outlines an approach that gives equal weight to the need for a diagnostic case formulation with specific treatment recommendations and the need to make the patient an active partner in the process right from the start Clinicians of every persuasion will appreciate her sensitive discerning grasp of the dyadic interaction of the initial sessions when the therapist must refine preliminary hypotheses and simultaneously engage the patient in a process of discovery and self reflection that lays the groundwork for the therapeutic alliance Peebles Kleiger s elegant synoptic discussions of the major categories of psychological dysfunction and the different treatment strategies appropriate to them are carefully calibrated with actual examples to the limits and opportunities of the first sessions Of particular value is her unusual capacity to articulate patients

various difficulties in forming and maintaining an alliance and then to show how such difficulties feed back into the clinician's interventions in the first few sessions. In this manner she illustrates how potential treatment obstacles/difficulties in affect regulation in reality testing in conscience formation among others can be assessed and subjected to trial interventions from the very start. Skilled in various psychodynamic and behavioral approaches from psychoanalysis to hypnotherapy, Peebles Kleiger consistently advances an integrative approach that cuts across specific modalities and combines sophisticated psychodynamic understanding with the fruits of empirical research. Both primer and sourcebook, *Beginnings: The Art and Science of Planning Psychotherapy* fills a niche in the literature so admirably that clinicians will find it indispensable in planning humanely responsive treatment in an increasingly complex therapeutic world.

Radical and Marxist Theories of Crime Paul B. Stretesky, 2017-03-02. The essays selected for this volume show how radical and Marxist criminology has established itself as an influential critique since it emerged in the late 1960s. Unlike orthodox criminology which emphasizes individual level explanations of criminal behavior, radical and Marxist criminology emphasizes power inequality and structures, especially those related to class, as key factors in crime law and justice. This collection of essays draws attention to the way in which structural forces shape and influence both individual and institutional, for example governmental behavior, highlights neglected crime: corporate, governmental, state, corporate and environmental, which causes more extensive damage than the street crimes examined by orthodox criminology, and discusses the ways in which law and criminal justice processes reinforce power structures and contribute to class control.

Sharing the Journey Robert Wuthnow, 1996-07-01. A look at how support groups have affected American society argues that although support groups provide a warmth and security that holds society together, they can lead to an unhealthy self-absorption and a trivialized sense of what is sacred.

Producing Queer Youth Lauren S. Berliner, 2018-06-14. *Producing Queer Youth* challenges popular ideas about online media culture as a platform for empowerment, cultural transformation and social progress. Based on over three years of participant action research with queer teen media makers and textual analysis of hundreds of youth-produced videos and popular media campaigns, the book unsettles assumptions that having a voice and gaining visibility and recognition necessarily equate to securing rights and resources. Instead, Berliner offers a nuanced picture of openings that emerge for youth media producers as they negotiate the structures of funding and publicity and manage their identities with digital self-representations. Examining youth media practices within broader communication history and critical media pedagogy, she forwards an approach to media production that re-centers the process of making as the site of potential learning and social connection. Ultimately, she reframes digital media participation as a struggle for, rather than in itself, evidence of power.

[Crime: Human Nature](#) James Q. Wilson, Richard J. Herrnstein, 1998. From Simon Schuster. *Crime: Human Nature* is the definitive study of the causes of crime.
