Grisé, 1998 Reading Undercover Anne L. Birberick, 1998-12 This study examines author audience relations in the works of the seventeenth century French poet Jean de La Fontaine Focusing on the Fables Les Amours de Psyche et de Cupidon and the Contes Anne L Birberick explores how La Fontaine remains a largely subversive artist even while he seeks to establish himself within a conventional system of literary patronage Birberick offers an anatomy of readers as she shows how La Fontaine simultaneously appeals to multiple readers whose tastes range from the literal to the ironic from the orthodox to the heterodox To negotiate successfully between and among such diverse audiences the poet employs techniques of concealment and disclosure to foster an anticanonical public Once Again, La Fontaine Jean de La Fontaine, 2000 New translations of classic French fables The Logic of Idolatry in Seventeenth-century French Literature Ellen McClure, 2020 Idolatry was one of the dominant and most contentious themes of early modern religious polemics This book argues that many of the best known literary and philosophical works of the French seventeenth century were deeply engaged and concerned with the theme In a series of case studies and close readings it shows that authors used the logic of idolatry to interrogate the fractured and fragile relationship between the divine and the human with particular attention to the increasingly fraught question of the legitimacy of human agency Reading d Urf Descartes La Fontaine S vign Moliere and Racine through the lens of idolatry reveals heretofore hidden aspects of their work all while demonstrating the link between

the emergent autonomy of literature and philosophy and the confessional conflicts that dominated the period In so doing Professor McClure illustrates how religion can become a source of interpretive complexity and how this dynamism can and should be taken into account in early modern French studies and beyond ELLEN MCCLURE is Associate Professor of History and French University of Illinois at Chicago The Shape of Change ,2021-11-01 In The Shape of Change Anne L Birberick and Russell Ganim bring together essays by fourteen established scholars who dedicate their studies to David Rubin as they explore the ways in which artistic endeavor shapes and is shaped by literary memory The volume is divided into two sections The first section Continuity and Discontinuity offers essays by Jody Enders Timothy Reiss Twyla Meding Marie Odile Sweetser Robert Corum Jr and the editors themselves and considers the ways in which seventeenth century authors draw upon generic conventions or diverse artistic media to create works that reflect the aesthetic and moral values of their time The second section entitled La Fontaine focuses primarily on Jean de La Fontaine s masterpiece Les Fables Here the problem of imitation and innovation as it relates to genre influence and literary reputation is examined in essays by Jules Brody Richard Danner Judd Hubert Catherine Gris Michael Vincent Nicholas Cronk and Ralph Albanese Jr The Shape of Change serves as a fine scholarly contribution to the studies of French seventeenth century literature and La Fontaine The essays are thoughtful as well as thought provoking and the volume s critical diversity is nicely balanced by its thematic coherence In its ability to stimulate new thinking this collection of essays will be of interest to both students and scholars of early modern France **La Fontaine à l'école républicaine** Ralph Albanese,2003 Study of La Fontaine s Fables as interpreted by the French Third Republic School System Le labyrinthe de Versailles ,2023-11-20 Dans son unit d intention et dans la vari t des d marches qu il r unit Le Labyrinthe de Versailles se pr sente comme une s rie de parcours critiques qui p n trent l un apr s l autre l ordre trompeur et l architecture complexe du XVIIe si cle Les sept tudes de la premi re partie du volume Autour de Moli re font p n trer le lecteur dans le monde renvers que propose l auteur iconoclaste lorsqu il met en question l ordre tabli que ce soit celui de la soci t de son temps des th ories d Aristote ou du discours et se fait le porte parole de la d raison De l utopie cart sienne celle de Versailles de la possession de Loudun l Affaire du Qui tisme de l histoire comique la fable les perspectives litt raires et socio historiques rassembl es dans les sept tudes de la seconde partie du volume Les garements du Grand si cle se rejoignent Quittant le droit chemin traditionnellement associ la litt rature classique et la pens e de l poque elles nous font suivre diff rents d tours o se glisse l ombre du Minotaure c est dire ce qui a d tre occult refoul enferm pour assurer l h g monie de l poque dans la tradition culturelle fran aise et pour transformer une utopie en mythe Gardens and the Passion for the Infinite Anna-Teresa Tymieniecka,2013-06-29 What essentially is a garden Is it a small plot of land that we put aside to cultivate our favourite vegetables or to grow flowers for our personal enjoyment Or is it a symbol a mirror a reflection of our human passions Within the context of phenomenology onto poiesis of life we find the significance of the garden inscribed within the web of the Human Condition creatively unfurling its form from the vital basis to its loftiest

and philosophy to interrogate human animal relationships They explore the many ways in which animals signify in French history society and intellectual history illustrating the exciting new perspectives being developed about the animal question in the French speaking world today Built on the strength and diversity of these contributions French Thinking about Animals demonstrates the interdisciplinary and internationalism that are needed if we hope to transform the interactions of humans and nonhuman animals in contemporary society
