Reflecting Psychoanalysis Narrative And Resolve In The Psychoanalytic Experience:

Reflecting Psychoanalysis Jurgen Reeder, 2018-05-08 At the heart of this book is an ethical question With what legitimacy do I assume the right to interpret my fellow being This question is raised in the context of a critique of a particular hermeneutic interpretation of psychoanalysis namely psychoanalysis as an objectifying discipline in which the other the analysand is regarded quintessentially as a representation or exterior object to be understood The author embraces the fundamental intersubjectivity of psychoanalytic experience Intersubjectivity is viewed as the human encounter within the psychoanalytic setting where there occurs a mutual influencing or acting upon rather than an encounter guided by an essentially objectivating scientific knowledge Truth in this conception is not a cumulatively acquired possession but an always emerging process coiled within an interpretative dialectic occurring between human beings This is a thoughtful nuanced clearly articulated and challenging book that engages directly with the perceived crisis of psychoanalysis

Hate and Love in Psychoanalytical Institutions Jurgen Reeder, 2020-10-13 In *Hate and Love in Psychoanalytic Institutions* Jurgen Reeder investigates the professional superego of the psychoanalyst This superego designates a prescriptive and prohibiting role that the individual must play within the parameters of a certain occupational sphere The prescriptive aspect works like a professional ideal and in this respect the superego can be said to sustain a professional ethos or spirit commanding what the professional should know and what his or her relations to clients and colleagues should resemble It helps to bind the members of the analytical community together The prohibiting aspect installs a vigilant inner eye It offers necessary protection against detrimental aberrations but it also evokes fantasies of critical or condemning colleagues who might have insight into what transpires within the walls of the analyst's own private practice leading to a reluctance to communicate openly about the analytical experience In this sense the professional superego contributes to the paranoization of collegial communication a circumstance that has a hampering effect on spontaneity and creativity in both clinical and theoretical work Jurgen Reeder's groundbreaking research uncovering the dynamics of the professional superego in

William James and Sigmund Freud on the Mind Alfred I. Tauber, 2025-03-12 This is the first extended study comparing the philosophies of mind promoted by Sigmund Freud and William James whose opposing views had profound influences on the development of twentieth century philosophy cognitive science and psychology Each asked can the mind be scientifically characterized While Freud thought that psychoanalysis had established a science of the mind James maintained that the subjective could not be objectified and psychology was left with only the crumbs of analysis Tauber's presentation of a conjured philosophical confrontation occasioned by their first and only meeting in 1909 uncovers the clashing philosophies of mind underlying their respective positions In comparing their opposing portraits of the psyche persistent questions about self knowledge personal identity and moral agency are presented at their fin de siècle origin In this setting the James Freud dispute offers a unique perspective about our own contemporary dilemmas swirling around selfhood consciousness and the subjectivity of human experience This eclectic history of early psychology will interest psychoanalysts psychologists and philosophers as well as those interested in the origins of pragmatism phenomenology modernism and twentieth century positivism

Requiem for the Ego Alfred I. Tauber, 2013-09-18 Requiem for the Ego recounts Freud's last great attempt to save the autonomy of the ego which drew philosophical criticism from the most prominent philosophers of the period Adorno Heidegger and Wittgenstein Despite their divergent orientations each contested the ego's capacity to represent mental states through word and symbol to an agent surveying its own cognizance By discarding the subject object divide as a model of the mind they dethroned Freud's depiction of the ego as a conceit of a misleading self consciousness and a faulty metaphysics Freud's inquisitors while employing divergent arguments found unacknowledged consensus in identifying the core philosophical challenges of defining agency and describing subjectivity In Requiem Tauber uniquely synthesizes these philosophical attacks against psychoanalysis and more generally provides a kaleidoscopic portrait of the major developments in mid 20th century philosophy that prepared the conceptual grounding for postmodernism

Racism and Xenophobia in Early Twentieth-Century American Fiction Wisam Abughosh Chaleila, 2020-12-29 The Melting Pot The Land of The Free The Land of Opportunity These tropes or nicknames apparently reflect the freedom and open armed welcome that the United States of America offers However the chronicles of history do not complement that image These historical happenings have not often been brought into the focus of Modernist literary criticism though their existence in the record is clear This book aims to discuss these chronicles displaying in great detail the underpinnings and subtle references of racism and xenophobia embedded so deeply in both fictional and real personas whether they are characters writers legislators or the common people In the main chapters literary works are dissected so as to underline the intolerance hidden behind words of righteousness and blind trust as if such is the norm Though history is taught it is not so thoroughly examined To our misfortune we naively think that bigoted ideas are not a thing we could

become afflicted with They are antiques from the past yet they possessed many hundreds of people and they surround us still Since we ve experienced very little change it seems discipline is necessary to truly attempt to be rid of these ideas

Intersubjectivity: Recent advances in theory, research, and practice Colwyn Trevarthen,Jonathan T. Delafield-Butt,Emese Nagy,Theano Kokkinaki,2023-03-28 *Freud, the Reluctant Philosopher* Alfred I. Tauber,2010-07-01 Freud began university intending to study both medicine and philosophy But he was ambivalent about philosophy regarding it as metaphysical too limited to the conscious mind and ignorant of empirical knowledge Yet his private correspondence and his writings on culture and history reveal that he never forsook his original philosophical ambitions Indeed while Freud remained firmly committed to positivist ideals his thought was permeated with other aspects of German philosophy Placed in dialogue with his intellectual contemporaries Freud appears as a reluctant philosopher who failed to recognize his own metaphysical commitments thereby crippling the defense of his theory and misrepresenting his true achievement Recasting Freud as an inspired humanist and reconceiving psychoanalysis as a form of moral inquiry Alfred Tauber argues that Freudianism still offers a rich approach to self inquiry one that reaffirms the enduring task of philosophy and many of the abiding ethical values of Western civilization **The Scandinavian Psychoanalytic Review** ,2006 *Reflective Reading and the Power of Narrative* Karyn Sproles,2018-07-11 Reflective Reading and the Power of Narrative Producing the Reader is an interdisciplinary exploration into the profound power of narratives to create and recreate how we imagine ourselves It posits that the process of producing a text also produces the reader Written from the perspective of a psychoanalytic feminist Sproles considers a wide array of examples from literature popular culture and her own experiences to illustrate what she calls reflective reading a metacognitive reading practice that recognizes the workings of the unconscious to push the reader toward a potentially transformational engagement with narrative This may manifest as epiphany recovery from loss or resolution of repressed trauma Each chapter draws on examples of characters and authors who model a reflective reading process from Jane Austen and Virginia Woolf to Johnny Cash and Alison Bechdel By reclaiming the role of the unconscious Karyn Sproles reinvigorates the theoretical work begun by reader response criticism and develops a deep understanding of identification and transference as an integral part of the reading process For students and researchers of cultural studies psychoanalysis gender studies and feminist literature and theory Reflective Reading and the Power of Narrative offers innovative and accessible ideas on the relationship between reader and text The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license **Psychoanalysis in Social and Cultural Settings** Sverre Varvin,2021-09-23 Psychoanalysis in Social and Cultural Settings examines the theory and practice of psychoanalysis with patients who have experienced deeply traumatic experiences through war forced migrations atrocities and other social and cultural dislocations The book is divided into three main sections covering terrorism refugees and traumatised with another two focusing specifically on

The Play Within the Play: The Enacted Dimension of Psychoanalytic Process Gil Katz, 2013-07-24 In *The Play within the Play The Enacted Dimension of Psychoanalytic Process* Gil Katz presents and illustrates the enacted dimension of psychoanalytic process He clarifies that enactment is not simply an overt event but an unconscious continuously evolving dynamically meaningful process Using clinical examples including several extended case reports Gil Katz demonstrates how in all treatments a new version of the patient's early conflicts traumas and formative object relationships is inevitably created without awareness or intent in the here and now of the analytic dyad Within the enacted dimension repressed or dissociated aspects of the patient's past are not just remembered they are re-lived Katz shows how when the enacted dimension becomes conscious it forms the basis for genuine and transforming experiential insight

Reflective Practice in Psychotherapy and Counselling Jacqui Stedmon,Rudi Dallos,2009-10-16 Reflective Practice has become established as an essential feature of practice in psychotherapy and counselling in the UK Europe USA and some other parts of the world However the writing on reflective practice is arguably fragmented and scattered and much of it is highly theoretical and abstract This book draws together conceptual and ethical issues regarding reflective practice including the meaning and development of the orientation More importantly it connects theory to day to day practice in

On Freud's "The Question of Lay Analysis" Paulo Cesar Sandler, Gley Pacheco Costa, 2019-02-18 The questions of what psychoanalysis is and does and who can and should practice it remains key within the modern profession Has the invaluable material packed into Freud's The Question of Lay Analysis 1926 been underestimated by contemporary psychoanalysis This book explores how the issues raised in this paper can continue to impact contemporary Freudian theory and practice The chapters examine why the arguably litigious nature of the paper might be contributing to its neglect and underestimation The editors of this book put forth a hypothesis is there an underlying still unrecognized but heartrending factor underlying the century old quarrel between lay analysts and what might be described as medically or psychiatrically trained analysts They then brought together a selection of major contemporary psychoanalytic thinkers from around the world to attempt to bridge the seemingly unbridgeable gap between medical and non medical analysis using The Question of Lay Analysis as a central pivot The work of the key figure in social and historic terms on this issue Theodor Reik is also duly honoured On Freud's The Question of Lay Analysis will be of great interest to all psychoanalysts and psychoanalytic psychotherapists
