Phenomenology and the Problem of Time Michael R. Kelly, 2016-09-15 This book explores the problem of time and immanence for phenomenology in the work of Edmund Husserl Martin Heidegger Maurice Merleau Ponty and Jacques Derrida Detailed readings of immanence in light of the more familiar problems of time consciousness and temporality provide

the framework for evaluating both Husserl's efforts to break free of modern philosophy's notions of immanence and the influence Heidegger's criticism of Husserl exercised over Merleau-Ponty's and Derrida's alternatives to Husserl's phenomenology. Ultimately exploring various notions of intentionality, these in-depth analyses of immanence and temporality suggest a new perspective on themes central to phenomenology's development as a movement and raise for debate the question of where phenomenology begins and ends. The Strange Tools of Human Communication Ruth

Finnegan, 2025-05-27 *The Strange Tools of Human Communication* The Voice the Pen and the Lyre is a thought-provoking exploration of the everyday tools of communication that weaves together history, art, and science to reveal how the voice, hand, and mind shape our shared experiences. Through a blend of scholarly research, personal insights, and field experiences from the oral tales of Sierra Leone's Limba storytellers to ancient cave art and modern iconography, this book offers fresh perspectives on how we connect across time and cultures. Challenging the idea that spoken language alone defines humanity, it emphasises the crucial role of hands, gestures, and artistic forms as the foundation of human communication. Readers are invited to consider the possibility of an ancestral shared consciousness and the mysterious similarities in ancient art worldwide. Through vivid examples and personal insights, the book redefines communication as a blend of conscious expression and subconscious influence, inviting readers to consider the hidden connections that unite us across cultures and time and to contemplate the future of communication. *The Strange Tools of Human Communication* is an ideal supplement to upper-level undergraduate and graduate courses in cultural anthropology, sociocultural linguistics, and cultural studies.

According to recently translated Sumerian texts, this object, also known as Nibiru or Planet X, is in a 3600-year orbit around our sun, and *The Kolbrin Bible* warns us of its imminent return and of yet another Biblical tribulation.
