Reform And Regulation In Long Term Care:

Reform and Regulation in Long-term Care Valerie LaPorte, Jeffrey Rubin, 1979 **Long-Term Care Reforms in OECD Countries** Cristiano Gori, Jose-Luis Fernandez, Raphael Wittenberg, 2016-06-01 Since the early 1990s long term care policies have undergone significant transformations across OECD countries In some countries these changes have responded to the introduction of major policy reforms while in others significant transformations have come about through the accumulation of incremental policy changes The book brings together evidence from over 15 years of care reform to examine changes in long term care systems occurring in OECD countries It discusses and compares key changes in national policies and examines the main successes and failures of recent reforms Finally it suggests possible policy strategies for the future in the sector With contributions from a wide range of experts across OECD countries this book is essential reading for academics researchers and policy makers in the field of long term care policy Reforms in Long-Term Care Policies in Europe Costanzo

Ranci, Emmanuele Pavolini, 2012-11-08 Over the last two decades many changes have happened to the social welfare policies of various industrial countries Citizens have seen their pensions unemployment benefits and general healthcare policies shrink as belt tightening measures are enforced But in contrast long term care has seen a general growth in public financing an expansion of beneficiaries and more generally an attempt to define larger social responsibilities and related social rights The aim of this book is to describe and interpret the changes introduced in long term care policies in Western Europe The volume argues that recent reforms have brought about an increasing convergence in LTC policies Most of the new programs have developed a new general approach to long term care based on a better integration of social care and health care The book explores increasing public support given to family care work in the past the family would take care of the elderly or infirm and increasing growth and recognition of an extended social care market by which care has shifted from a moral obligation based on family reciprocity to a paid professional activity A new social care arrangement has therefore been developing in Western countries based on a new mix of family obligations market provision and public support In order to understand such changes this analysis will take into account the social and economical impact of these reforms

Implementing Culture Change in Long-Term Care Elaine Jurkowski, 2013-05-28 As one who is involved in the culture change movement and is trying to review the huge volume of available resources I find it refreshing to have a book that draws it all together. I highly recommend this book to administrators who are overwhelmed at the thought of implementing change in their environment. The author has done an excellent job of making it seem quite possible to make culture change a reality. Doody's Medical Reviews: The publication of *Implementing Culture Change in Long Term Care* marks the beginning of a new era in the aging services profession. This book is the Rosetta Stone of the culture change movement. Dr. Jurkowski's skillful blend of theory, research, and practice addresses the movement's most urgent needs and makes the work of culture change advocates accessible to a broader and more influential audience. This book is the future in paper and ink. From the Foreword by Bill Thomas MD, Founder of the Eden Alternative and the Green House Project. This text offers a strategic approach for promoting an active culture of change in long term care facilities for older adults and people with disabilities. It discusses the philosophical framework for the delivery of care in these settings and addresses the changing landscape of our long term care population. With the aim of transforming these facilities from institutional settings to person-centered, homelike environments, the book offers administrators and practitioners numerous strategies and benchmarks for culture change and addresses tools and resources to support the culture change process. The text describes how these benchmarks have been met and provides ways to address not just knowledge but also attitudes and behavior, important components of a culture change strategy. The book compares and contrasts current long term care paradigms: the medical model, the rehabilitation paradigm, the independence and dignity model, and strength-based approaches in order to see how they facilitate or impede culture change. It provides best practice examples of benchmarks to be attained along with strategies to promote this process. These benchmarks and strategies are based upon the Artifacts for Culture Change Assessment Tool developed by the Centers for Medicare and Medicaid. The text describes ways to build a blueprint and strategic processes for integrating these benchmarks into a long term care setting, addressing the entire process from assessment through evaluation. It also provides tools enabling readers to learn from their own process via a feedback loop and includes strategies to facilitate partnerships with family, staff, and community.

Key Features: Elucidates benchmarks that can be implemented in
