## **Reforming Special Education Policy Implementation From State Level To Street Level:**

Reforming Special Education Richard Weatherley, 1979 Focusing on Massachusetts innovative special education reform law Chapter 766 Reforming Special Education traces the complex processes through which an ostensibly universalistic and equitable policy can produce a biased distribution of public benefits favoring affluent clients Reforming Special Education examines three Massachusetts school systems and seven schools within those systems to determine whether laws formulated to alter practices in educating children who are deaf blind retarded and physically handicapped actually result in fair and uniform treatment of children with special needs or whether they just create more work for school personnel The book discusses individual and community wealth as factors in the allocation of funds Despite Massachusetts equalizing formula it points out that rich districts often fare better than poor ones because they have the resources and sophistication necessary to challenge funding decisions The book also reveals that bureaucrats who are charged with carrying out the changes are victimized by new laws which for lack of resources they cannot hope to put into effect Because the street level bureaucrats front line personnel develop informal means of coping with these problems and with their jobs they distort the policy they are charged with implementing and become policy makers in their own right Weatherley concludes that policy initiatives must take into account potential effects on the daily work routines of those charged with implementing them These findings have dramatic implications for all human service bureaucracies where front line staff interact with the public hospitals police departments public welfare and employment offices mental health centers and lower courts Students of public policy educators social workers or anyone involved in public service employment will find this a scholarly yet highly readable account of the organizational constraints to bureaucratic reform

**The Conditions of Discretion** Joel Handler, 1986-08-20 This timely book is concerned with interactions between ordinary people and large public bureaucracies interactions that typically are characterized by mutual frustration and antagonism In fact as Joel Handler points out the procedural guidelines intended to ensure fairness and due process fail to take account of an initial imbalance of power and tend to create adversarial rather than cooperative relationships When the special education needs of a handicapped child must be determined parents and

school administrators often face an especially painful confrontation The Conditions of Discretion focuses on one successful approach to educational decision making developed by the school district of Madison Wisconsin in order to illustrate how such interactions can be restructured and enhanced Madison's creative plan regards parents as part of the solution not the problem and uses lay advocates to turn conflict into an opportunity for communication Arrangements such as these in Handler's analysis exemplify the theoretical conditions under which discretionary decisions can be made fairly and with the informed participation of all concerned The Conditions of Discretion offers not only a detailed case study sympathetically described but also persuasive assessments of major themes in contemporary legal and social policy informed consent bureaucratic change social movement activity the relationship of the individual to the state From these strands Handler weaves a significant new theory of cooperative decision making that integrates the public and the private recognizes the importance of values and preserves autonomy within community A masterful blend of social criticism social sciences and humane constructive thought about the future of the welfare state Duncan Kennedy Harvard Law School

Researching Street-level Bureaucracy Mike Rowe,2024-12-30 Police officers social workers teachers and many other street level bureaucrats exercise discretion in dealing with clients In so doing they make policy as it is experienced at the frontline Instead of puzzling at repeated public policy implementation failures and wondering why street level bureaucrats SLBs don t behave the way policy makers expect we need to understand the world as seen from the ground This short and practical text explores the value of interpretive analysis for researching street level bureaucracy Using Michael Lipsky s 1980 idea of SLB and connecting it to contemporary debates Mike Rowe argues for an approach to researching SLBs that focuses on dilemmas in practice ones that change with each policy shift each new target with austerity and with new technology such that no settled state is likely He places emphasis on the need to understand the ways SLBs respond to pressures in order to work with them and to understand what policy becomes in practice Street level bureaucrats and their clients are engaged in a process of sense making Researching Street level Bureaucracy is not just an essential resource for teachers and students of Master s and Doctoral programs in Public Administration Public Policy Social Work and Criminal Justice it is a must read for anyone interested in understanding the structural pressures that bear on the individual and how any change to the dilemmas confronted might play out at the street level      **Vital Questions Facing Disability Studies in Education** Scot
