Ceaser, 1982 Analyzes reforms in the Presidential selection process since the 1968 Democratic National Convention Examines the recent changes in delegate selection nature of candidates campaign strategies the influence of interest groups and the media the role of party leaders campaign financing and the extent and quality of participation Ceaser sees the reforms as a move away from a representative process to one based on direct democracy and calls on institutional theory to assess their impact in altering basic institutions and patterns of political behavior

*Reforming the Presidential Nomination Process* Steven S. Smith, Melanie J. Springer, 2009-11-01 The 2008 U S presidential campaign has provided a lifetime's worth of surprises Once again however the nomination process highlighted the importance of organization political prowess timing and money And once again it raised many hackles The Democratic contest in particular generated many complaints for example it started too early it was too long and Super Tuesday was overloaded This timely book synthesizes new analysis by premier political scientists into a cohesive look at the presidential nomination process the ways in which it is broken and how it might be fixed The contributors to *Reforming the Presidential Nomination Process* address different facets of the selection process starting with a brief history of how we got to this point They analyze the importance and perceived unfairness of the earliest primaries and discuss what led to record turnouts in 2008 What roles do media coverage and public endorsements play William Mayer explains the superdelegate phenomenon and the controversy surrounding it James Gibson and Melanie Springer evaluate public perceptions of the current process as well as possible reforms Larry Sabato *A More Perfect Constitution* calls for a new nomination system installed via constitutional amendment while Tom Mann of Brookings opines on calls for reform that arose in 2008 and Daniel Lowenstein examines the process by which reforms may be adopted or blocked

**Strategic Decision-Making in Presidential Nominations** Kenny J. Whitby, 2014-01-01 Seeks to understand and explain the behavior of party elites during the 2008 Democratic Party presidential race What is the dominant force in

presidential nomination campaigns Are nomination outcomes decided largely by the political party or by the candidates and their activities In Strategic Decision Making in Presidential Nominations Kenny J Whitby aims to provide some answers to these important questions focusing on the closely contested 2008 race between Senators Hillary Clinton and Barack Obama It was this race that spotlighted the role played by superdelegates the unpledged party elites who were added to the nomination process in the 1980s Whitby s central argument is that superdelegates are strategic actors and their endorsements are a response to a variety of demographic institutional and campaign factors While some weigh in early with an endorsement many adopt a wait and see approach Using a novel framework generally known as survival analysis Whitby provides us with a method for understanding when and why party elites decide to chime in on their presidential nomination campaign

*The Making of the Presidential Candidates 2004* William G. Mayer, 2004 Annotation This is the third in a series of books about the United States presidential nomination process and shares the same goals as its predecessors and Mayer political science Northeastern U presents nine papers exploring significant components of the nomination process including financing incumbency polling and the role of organized labor The only non academic contributing to the proceedings is an editor who provides a discussion of the role of the press Annotation 2004 Book News Inc Portland OR booknews com

**The Imperfect Primary** Barbara Norrander, 2010-08-26 Recognized as a Choice Outstanding Academic Title in 2011 Many people complain about the complex system used to nominate presidents The system is hardly rational because it was never carefully planned Because of the dissatisfaction over the idiosyncrasies of the current system periodic calls arise to reform the presidential nomination process But how are we to make sense of the myriad complexities in the system as well as in the calls for change In *The Imperfect Primary* political scientist Barbara Norrander explores how presidential candidates are nominated discusses past and current proposals for reform and examines the possibility for more practical incremental changes to the electoral rules Norrander reminds us to be careful what we wish for reforming the presidential nomination process is as complex as the current system Through the modeling of empirical research to demonstrate how questions of biases can be systematically addressed students can better see the advantages disadvantages and potential for unintended consequences in a whole host of reform proposals

*The New Hampshire Primary And The American Electoral Process* Niall Palmer, 2018-02-19 New Hampshire is the subject of Palmer s book precisely because it serves as the first presidential primary every four years Many critics of the New Hampshire primary fault it for being too arcane too unrepresentative and too quixotic to use as a gatekeeper of who becomes President Palmer went to new Hampshire expecting to gather research that argued against New Hampshire as first primary As he finished he realized his findings pointed out the opposite that in fact and deed New Hampshire was as good a place to start the primary races as any other No single state is representative The retail politics that aspirants face in New Hampshire is a very useful winnowing device in which a candidate must actually come face to face with real voters who more often than not make a study of the issues and policies that they raise in their

**Trump and Political Philosophy** Marc Benjamin Sable, Angel Jaramillo Torres, 2018-04-16 This book seeks to address the relation of political philosophy and Donald Trump as a political phenomenon through the notions of patriotism cosmopolitanism and civic virtue Political philosophers have been prescient in explaining trends that may explain our political misgivings Madison warned during the debates on the Constitution that democracies are vulnerable to factions based on passion for personalities and beliefs various continental thinkers have addressed the problem of nihilism the modern loss of faith in objective standards of truth and morality that in Max Weber's analysis pointed to the importance of charisma in Carl Schmitt's to the idea that politics is essentially rooted in the definition of friends and enemies and in early Heidegger resulted in the emphasis on the enduring significance of local rather than cosmopolitan values The former concerns regarding demagoguery charisma and nihilism will enable an evaluation of Trump as a political character while the latter concerns regarding the status of universal versus local values will enable us to evaluate the content of Trumpism Taken together these essays seek to advance the public conversation about the relationship between the rise of Trump and the ideological forces that seek to justify that rise

**The Two Majorities and the Puzzle of Modern American Politics** Byron E. Shafer, 2003 Where did the Era of Divided Government come from What sustains split partisan control of the institutions of American national government year after year Why can it shift so easily from Democratic or Republican presidencies coupled with Republican or Democratic Congresses How can the vast array of issues and personalities that have surfaced in American politics over the last forty years fit so neatly within indeed reinforce the sustaining political pattern of our time These big questions constitute the puzzle of modern American politics The old answer a majority and a minority party plus dominant and recessive public issues will not work in the Era of Divided Government Byron Shafer a political scientist who is regarded as one of the most comprehensive and original thinkers on American politics provides a convincing

new answer that has three major elements These elements in combination not divided government as a catch phrase are the real story of politics in our time The first element is comprised of two great sets of public preferences that manifest themselves at the ballot box as two majorities The old cluster of economic and welfare issues has not so much been displaced as simply joined by a second cluster of cultural and national concerns The second element can be seen in the behavior of political parties and party activists whose own preferences don t match those of the general public That public remains reliably left of the active Republican Party on economic and welfare issues and reliably right of the active Democratic Party on cultural and national concerns The third crucial element is found in an institutional arrangement the distinctively American matrix of governmental institutions which converts those first two elements into a framework for policymaking year in and year out In the first half of the book Shafer examines how dominant features of the Reagan first Bush Clinton and second Bush administrations reflect the interplay of these three elements Recent policy conflicts and institutional combatants in Shafer s analysis illuminate this new pattern of American politics In the second half he ranges across time and nations to put these modern elements and their composite pattern into a much larger historical and institutional framework In this light modern American politics appears not so much as new and different but as a distinctive recombination of familiar elements of a political style a political process and a political conflict that has been running for a much much longer time
