Refugees Asylum In Europe:

Geographies of Asylum in Europe and the Role of European Localities Birgit Glorius, Jeroen Doomernik, 2019-10-03 This open access book describes how the numerous arrivals of asylum seekers since 2015 shaped reception and integration processes in Europe. It addresses the structuration of asylum and reception systems and spaces and places of reception on European national, regional and local level. It also analyses perceptions and discourses on asylum and refugees, their involvement and the consequences for policy development. Furthermore, it examines practices and policy developments in the field of refugee reception and integration. The volume shows and explains a variety of refugee reception and integration strategies and practices as specific outcome of multilevel governance processes in Europe. By addressing and contextualizing those multiple experiences of asylum seeker reception, the book is a valuable contribution to the literature on migration and integration, societal development and political culture in Europe.

Queering Asylum in Europe Carmelo Danisi, Moira Dustin, Nuno Ferreira, Nina Held, 2021-08-31 This two volume open access book offers a theoretically and empirically grounded portrayal of the experiences of people claiming international protection in Europe on the basis of their sexual orientation or gender identity (SOGI). It shows how European asylum systems might and should treat asylum claims based on people's SOGI in a fairer, more humane way. Through a combined comparative, interdisciplinary socio-legal, human rights, feminist, queer and intersectional approach, this book examines not only the legal experiences of people claiming asylum on grounds of their SOGI but also their social experiences outside the asylum decision making framework. The authors analyse how SOGI related claims are adjudicated in different European frameworks: European Union, Council of Europe, Germany, Italy and UK, and offer detailed recommendations to adequately address the intersectional experiences of individuals seeking asylum. This unique approach ensures that the book is of interest not only to researchers in migration and refugee studies, law and wider academic communities but also to policy makers and practitioners in the field of SOGI asylum.

Refugees Daniele Joly, Clive Nettleton, Hugh Poulton, 1992-12-10 [The Human Rights of Migrants in European Law](#) Cathryn Costello, 2016 A critical discussion of EU and ECHR migration and refugee law, this book analyses the law on asylum and immigration of third country nationals. It focuses on how the EU norms interact with ECHR human rights case law on migration and the pitfalls of European human rights pluralism.

Refugees, Citizenship and Social Policy in Europe A. Bloch, C. Levy, 1999-04-30 Recently, global and European migration in the post Cold War world have received much attention. This edited collection is a comprehensive up to date account of the social policies of European welfare states towards refugees and asylum seekers. It also examines the contested boundaries between refugees and asylum seekers and citizenship within European nation states and the European Union.

[Integrative Social Work Practice with Refugees, Asylum Seekers, and Other Forcibly Displaced Persons](#) Nancy J. Murakami, Mashura Akilova, 2022-11-25 This textbook provides theoretical and clinical knowledge needed by social workers and other practitioners involved in humanitarian emergency response.

Social workers are well positioned to serve coordinating and leadership roles in this interdisciplinary field due to their holistic training. This book weaves together micro mezzo and macro levels of practice into integrated social work practice. Its historical account of humanitarian emergencies, coverage of social work frameworks and principles, and review of existing best practices at the clinical, community, and policy levels ground the reader in a field of social work that requires consideration of historical frameworks alongside innovative responses to the complexity of humanitarian emergencies. The contributors incorporate best practices as well as address gaps in awareness, knowledge, and skills that they have observed and studied worldwide. Some of the topics explored include Social Work with Displaced Children, Women, LGBTQI Asylum Seekers, Return and Reintegration of Displaced Populations, and Reconstruction in Post conflict Societies. Culture, Trauma, and Loss: Integrative Social Work Practice with Refugees and Asylum Seekers. Clinical Social Work Practice with Forcibly Displaced Persons. Grounded in Human Rights and Social Justice Principles. Integrative Social Work Practice with Refugees, Asylum Seekers, and Other Forcibly Displaced Persons is adoptable as a primary text for MSW and doctoral elective courses on global social work or international social work practice with persecuted and forcibly displaced people. This textbook is targeted to clinical social work or policy courses as well and can be supplemental reading for required courses for migration and forced displacement majors. It is also useful for social workers or interdisciplinary practitioners working around the globe with displaced populations.

Detention of Asylum Seekers in Europe: Analysis and Perspectives Fabrice Liebaut, Jane Hughes, 2023-09-20. This volume presents a compilation of cross disciplinary essays written by representatives of non governmental and inter governmental organisations practising lawyers, academics, researchers, and a psychiatrist which reflect the heightened concern among European refugee and human rights organisations about the increasing practice of detaining asylum seekers. Topics explored include recent trends in western, central, and eastern Europe; detention practice in the US, Canada, and Australia; UNHCR's approach to detention of refugees and asylum seekers; and the mental health implications of detention from a psycho medical viewpoint. In addition, the relevant European and UN legal instruments are analysed, and examples are given from the case law. The book is supplemented by detailed appendices setting out the texts of relevant international legal provisions together with a number of other reference documents including UNHCR's 1995 Guidelines on Detention and ECRE's 1996 and 1997 papers on detention and alternatives to detention. In addition to providing both a description of current practice and a theoretical legal analysis of this type of administrative detention, this volume is intended to serve as a practical tool and source of reference for individuals and organisations engaged in defending the rights of asylum seekers today.

Reluctant Hosts: Europe and Its Refugees Danièle Joly, Robin Cohen, 2024-02-02 Now reissued with a new Preface by Robin Cohen and Danièle Joly this book was originally published in 1989 at a time when the reality of a single European Community had begun to materialize the comfortable belief that many European countries offered havens for those fleeing persecution This belief was undermined as governments sought to cope with xenophobic and racist sentiments by their indigenous populations This book with contributions from social scientists policy makers and representatives from many European countries discusses the response of European governments to the increasing demands by asylum seekers refugees and exiles for admission settlement and protection issues which remain as pertinent today as when the book was originally published

The Right to Seek Refugee Status in the European Union Sylvie Da Lomba, 2004 In 2001 the 1951 United Nations Convention relating to the Status of Refugees celebrated its 50th anniversary Whilst its fundamental contribution to refugee protection is undisputed the Convention has come under sustained criticism in recent years founded on its alleged inability to address the complexities and challenges of the world of today Yet the need for international protection worldwide persists regardless of changes in the international community and the Convention remains the cornerstone of refugee protection In that context it is critical that the asylum policy of the European Union fully

realises the right to seek refugee status that may be inferred from the Convention provisions To that end the author examines and measures EU and EC instruments and proposals for legislation on asylum against standards set out in international refugee and human rights law The author argues that the influence of the European Union and its Member States must not be undermined and that any departure from international standards carries the risk of undermining the right to seek refugee status and refugee protection as a whole within and beyond the borders of the European Union The communitarisation of asylum operated by the Treaty of Amsterdam presents the European Union with the crucial challenge of remaining true to its humanitarian tradition and vision Book jacket Haven or Hell? D. Joly, 2016-07-14 This book brings together in a systematic manner three discrete areas of interest pertaining to refugees Asylum is explored through studies on the evolution of legal instruments in Europe the harmonisation process of European policies and the broader spectrum of factors underpinning decisions on asylum Reception and settlement of refugees are analysed through a comparative study of national programmes in France and Britain and in addition a survey of local authority policies A typology for refugees is developed and tested by a comparison between Chilean and Vietnamese associations in France and Britain *Refugees in Europe* Joly, Lynette Kelly, Clive Nettleton, 1997 **Refugees and the violence of welfare bureaucracies in Northern Europe** Dalia Abdelhady, Nina Gren, Martin Joormann, 2020-10-06 This electronic version has been made available under a Creative Commons BY NC ND open access license Refugees have moved into the spotlight of public debate in Europe and North America where they are targeted by multiple welfare state interventions This volume analyses the tensions that emerge within the strong welfare states of Northern Europe when faced with an increased immigration of protection seeking people Examining the encounter between refugees and the welfare states this book explores the daily strategies and experiences of newly settled groups and the role of media discourses and welfare policies in shaping those experiences Building on both textual analyses and ethnographic fieldwork in welfare institutions asylum centres and refugee communities this volume provides an in depth understanding of the complex realities faced by refugees deterrence and categorisation struggle and success mobility and stagnation As social phenomena Northern Europe's asylum systems and integration programmes must be understood in the context of the bureaucratisation of everyday life Asylum Determination in Europe Nick Gill, Anthony Good, 2018-12-05 Drawing on new research material from ten European countries *Asylum Determination in Europe Ethnographic Perspectives* brings together a range of detailed accounts of the legal and bureaucratic processes by which asylum claims are decided The book includes a legal overview of European asylum determination procedures followed by sections on the diverse actors involved the means by which they communicate and the ways in which they make life and death decisions on a daily basis It offers a contextually rich account that moves beyond doctrinal law to uncover the gaps and variances between formal policy and legislation and law as actually practiced The contributors employ a variety of disciplinary perspectives sociological anthropological geographical and linguistic but are united in their use of an

ethnographic methodological approach Through this lens the book captures the confusion improvisation inconsistency complexity and emotional turmoil inherent to the process of claiming asylum in Europe **International Refugee Law**

H?ne Lambert,2017-07-05 The essays selected and reproduced in this volume explore how international refugee law is dynamic and constantly evolving From an instrument designed to protect mostly those civilians fleeing the worse excesses of World War II the 1951 Refugee Convention has developed into a set of principles customary rules and values that are now firmly embedded in the human rights framework and are applicable to a far broader range of refugees In addition international refugee law has been affected by international humanitarian law and international criminal law and vice versa Thus there is a reinforcing dynamic in the development of these complementary areas of law At the same time in recent decades states have shown a renewed interest in managing migration thereby raising issues of how to reconcile such interests with refugee protection principles In addition the emergence of concepts of participation and responsibility to protect promise to have an impact on international refugee law *Coping with Migrants and Refugees* Tiziana

Caponio,Irene Ponzo,2022-03-08 This book provides a comparative overview of asylum seekers reception throughout Europe by adopting a theoretical framework based on an analytical approach to the notion of multilevel governance MLG It challenges the tendency of the MLG literature to overlook political controversies and conflicts and questions the assumption that it represents the best policymaking arrangement for promoting policy convergence In doing so it explores the functioning of the reception component of the Common European Asylum System in centralised states and federal regional states and analyses its implementation at both national and local levels The book reveals the heterogeneous development of reception policies not only across Member States but also within each country where solutions adopted at the local level generally diverge substantially Furthermore the overall centralisation of policy making on reception regardless the institutional structure seems to leave little room for MLG arrangements tailored to specific localities and triggers tensions between central governments and local authorities This book will be of key interest to scholars and students of migration and asylum studies immigration multilevel global governance and more broadly to comparative politics European studies politics and public policy Chapter 3 Chapter 5 Chapter 6 Chapter 9 and Chapter 10 of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **The State of the World's Refugees, 2000** Mark Cutts,Office of the United Nations High Commissioner for Refugees,2000 Includes statistics
