Retreat From Reform Patterns Of Political Behavior In Interwar Japan:

Retreat from Reform Sharon Minichiello,1984-01-01 **Political Bribery in Japan** Richard H. Mitchell,1996-09-01

Scholars often use the term structural corruption when discussing modern Japan's political system a system that forces politicians to exchange favors with businessmen in return for funds to finance their political careers Scholars argue that the origins of corruption can be found in the iron triangles formed by politicians bureaucrats and businessmen during the postwar era or during the Pacific War years In this examination of malfeasance in Japanese public office Richard Mitchell systematically surveys political bribery in Japan's historical and cultural contexts from antiquity to the early 1900s Mitchell's narrative serially considers scandals involving courtiers in the ancient imperial government corruption among the shogun's samurai officials and political bribery among bureaucrats and party politicians in the mid nineteenth century Mitchell concludes that bribery was as ubiquitous in premodern Japan as it has been in recent times Focusing on the period since 1868 Mitchell discusses in fascinating detail changes in political bribery in the wake of suffrage expansion estimates of the enormous amount of campaign money needed to win a Diet seat in both the prewar and postwar periods and the low conviction rate of suspected takers of bribes Here is a highly readable and reliable survey of an important yet largely neglected topic in English language studies of Japanese political history Lever of Empire Mark Metzler,2006-03-13 Lever of Empire is an engrossing page turner I simply could not put it down until I had finished it This is an important subject and one that has not been given adequate attention in Western scholarship on Japan until now Metzler has done thorough research and has woven these materials together into an elegantly written whole The result is an outstanding book Richard J Smethurst author of *A Social Basis for Prewar Japanese Militarism The Army and the Rural Community* **Japan and the League of Nations** Thomas W. Burkman,2007-12-03 Japan joined the League of Nations in 1920 as a charter member and one of four permanent members of the League Council Until conflict arose between Japan and the organization over the 1931 Manchurian Incident the League was a centerpiece of Japan's policy to maintain accommodation with the Western powers The picture of Japan as a positive contributor to international comity however is not the conventional view of the country in the early and mid twentieth century Rather this period is usually depicted in Japan and abroad as a history of incremental imperialism and intensifying militarism culminating in war in China and the Pacific Even the empire's interface with the League of Nations is typically addressed only at nodes of confrontation the 1919 debates over racial equality as the Covenant was drafted and the 1931-1933 League challenge to Japan's seizure of northeast China This volume fills in the space before between and after these nodes and gives the League relationship the legitimate place it deserves in Japanese international history of the 1920s and 1930s It also argues that the Japanese cooperative international stance in the decades since the Pacific War bears noteworthy continuity with the mainstream international accommodationism of the League years Thomas Burkman sheds new light on the meaning and content of internationalism in an era typically seen as a showcase for

diplomatic autonomy and isolation Well into the 1930s the vestiges of international accommodationism among diplomats and intellectuals are clearly evident The League project ushered those it affected into world citizenship and inspired them to build bridges across boundaries and cultures Burkman s cogent analysis of Japan s international role is enhanced and enlivened by his descriptions of the personalities and initiatives of Makino Nobuaki Ishii Kikujir Nitobe Inaz Matsuoka Y suke and others in their Geneva roles

Japan 1868-1945 Takao Matsumura, John Benson, 2014-09-25 The history of Imperial Japan from the Meiji Restoration through to defeat and occupation at the end of the Second World War is central to any understanding of the way in which modern Japan has developed and will continue to develop in the future This wide ranging accessible and up to date interpretation of Japanese history between 1868 and 1945 provides both a narrative and analysis Describing the major changes that took place in Japanese political economic and social life during this period it challenges widely held views about the uniqueness of Japanese history and the homogeneity of Japanese society

An Imperial Path to Modernity Jung-Sun N. Han, 2020-03-17 An Imperial Path to Modernity examines the role of liberal intellectuals in reshaping transnational ideas and internationalist aspirations into national values and imperial ambitions in early twentieth century Japan Perceiving the relationship between liberalism and the international world order a cohort of Japanese thinkers conformed to liberal ideas and institutions to direct Japan s transformation into a liberal empire in Asia To sustain and rationalize the imperial enterprise these Japanese liberals sought to make the domestic political stage less hostile to liberalism Facilitating the creation of print mediated public opinion liberal intellectuals attempted to enlist the new middle class as a social ally in circulating liberal ideas and practices within Japan and throughout the empire In tracing the interconnections between liberalism and the imperial project Jung Sun N Han focuses on the ideas and activities of Yoshino Sakuzo 1878 1933 who was and is remembered as a champion of prewar Japanese liberalism and Taisho democracy Drawing insights from intellectual history cultural studies and international relations this study argues that prewar Japanese liberalism grew out of the efforts of intellectuals such as Yoshino who worked to devise a transnational institution to govern the Japanese empire

K. K. Kawakami and U.S.-Japan Relations William D. Hoover, 2023-09-19 K K Kawakami the most prolific journalist writing on U S Japan relations in the forty years before Pearl Harbor analyzed and described the interaction between the country of his birth and his adopted country His more than 2 000 publications show a gradual decline in US Japan relations from the early twentieth century to Japan s attack on the US K K Kawakami and U S Japan Relations The Forty Year Road to Pearl Harbor provides a careful reading of his analysis of U S Japan relations to show that both countries bear responsibility for the tragic clash in Hawaii From the Russo Japanese War 1904 05 until the Japanese attack on Manchuria 1931 the United States bore a major responsibility with its anti Japanese policies racial discrimination and failure to recognize Japan s role in in the world but with Japan s aggression in Manchuria Japan became the primary actor Relations between Japan and the U S declined gradually over a long period with both sides bearing responsibility

World War II

Michael J. Lyons, 2016-07-01 Highly regarded for its concise clarification of the complexities of World War II this book illuminates the origins course and long range effects of the war It provides a balanced account that analyzes both the European and Pacific theaters of operations and the connections between them The Fifth Edition incorporates new material based on the latest scholarship offering updated conclusions on key topics and expanded coverage throughout *The Fascist Effect* Reto Hofmann, 2015-07-09 In *The Fascist Effect* Reto Hofmann uncovers the ideological links that tied Japan to Italy drawing on extensive materials from Japanese and Italian archives to shed light on the formation of fascist history and practice in Japan and beyond Moving between personal experiences diplomatic and cultural relations and geopolitical considerations Hofmann shows that interwar Japan found in fascism a resource to develop a new order at a time of capitalist crisis Hofmann demonstrates that fascism in Japan was neither a European import nor a domestic product it was rather the result of a complex process of global transmission and reformulation Far from being a vague term as postwar historiography has so often claimed for Japanese of all backgrounds who came of age from the 1920s to the 1940s fascism conjured up a set of concrete associations including nationalism leadership economics and a drive toward empire and a new world order

Nation and Nationalism in Japan Sandra Wilson, 2013-04-15 Nationalism was one of the most important forces in 20th century Japan It pervaded almost all aspects of Japanese life but was a complex phenomenon frequently changing and often meaning different things to different people This book brings together interesting original new work by a range of international leading scholars who consider Japanese nationalism in a wide variety of its aspects Overall the book provides many new insights and much new thinking on what continues to be a crucially important factor shaping current developments in Japan *Japan's Competing Modernities* Sharon Minichiello, 1998-09-01 Scholars Japanese and non Japanese alike have studied the greater Taisho era 1900 1930 within the framework of Taisho demokurashii democracy While this concept has proved useful students of the period in more recent years have sought alternative ways of understanding the late Meiji Taisho period This collection of essays each based on new research offers original insights into various aspects of modern Japanese cultural history from modernist architecture to women as cultural symbols popular songs to the rhetoric of empire building and more The volume is organized around three general topics geographical and cultural space cosmopolitanism and national identity and diversity autonomy and integration Within these the authors have identified a number of thematic tensions that link the essays high and low culture in cultural production and dissemination national and ethnic identities empire and ethnicity the center and the periphery naichi homeland and gaichi overseas urban and rural public and private migration and barriers The volume opens up new avenues of exploration for the study of modern Japanese history and culture If as one of the authors contends the imperative is to understand more fully the historical forces that made Japan what it is today these studies of Japan's competing modernities point the way to answers to some of the country's most challenging historical questions in this century Contributors Gail L Bernstein Barbara Brooks Lonny E Carlile Kevin M

Japanese Foreign Policy in the Interwar Period Ian Nish, 2002-07-30 This comprehensive up to date analysis of Japanese policy between the two world wars utilizes both English and Japanese sources to present Japan as an independent agent not a state whose policy was determined by the actions of other countries Beginning with Japan's disappointment with the Versailles Peace Treaty in 1919 Nish examines the roots of Japanese discontent and feelings that ambitions in China were being unreasonably restrained He explains British and American policies in the region as reactive but concludes that their responses helped to determine which factions would dominate Japan's political arena This non partisan account is even handed in apportioning responsibility for the events leading to the Second World War While some Japanese politicians in the 1920s tried to follow the international path there were others who tended to side with the army in establishing Japan's position first in Manchuria and later in North and Central China in the 1930s Conscious of the nation's unpopularity in the western world Japan allied itself with Germany and Italy in the Anti Comintern Pact of 1936 and the Tripartite Alliance of 1940 To pursue its own national objectives Japan joined her allies in making war on the United States and the colonial empires of Britain France and the Netherlands Its forces succeeded in overrunning many colonial territories and with a view to easing the problems of occupying them Japan liberalized its harsh military policies granting independence to Burma and the Philippines and welcoming Asian leaders to Tokyo for the Greater East Asian Conference of November 1943

Japanese Studies from Pre-History to 1990 Richard Perren, 1992

Collected Writings of Ian Nish Ian Nish, 2014-04-23 This volume of the Collected Writings of Modern Western Scholars on Japan brings together the work of Ian Nish on international relations affecting Japan Russia China and Korea in the nineteenth and twentieth centuries

The Emergence of Modern Japan Janet Hunter, 2014-06-06 The main emphasis of this book is upon political social and economic developments as conditioned by Japan's interaction with the outside world the advance of industrialisation and the emergence of the Japanese nation state Unlike previous textbooks on the history of modern Japan Janet Hunter's book adopts a thematic approach which makes the period much more accessible for readers who wish to pursue their particular interests throughout the period Moreover it will also establish a greater awareness of the cultural and institutional continuities which are crucial to any proper understanding of modern Japan

Retreat from Reform Sharon Minichiello, 1984

The Postwar Developments of Japanese Studies in the United States Helen Hardacre, 1998 This volume of twelve essays with useful bibliographies in the fields of history art religion literature anthropology political science and law documents the history of United States scholarship on Japan since 1945

Prelude to Pearl Harbor John Gripentrog, 2021-03-04 In this absorbing account of the origins of the Asia Pacific War historian John Gripentrog argues that competing ideologies of world order chiefly the rift between liberal internationalism and Pan Asian regionalism lay at the heart of the conflict Drawing from

a rich diversity of primary and secondary sources the author also examines the Japanese government's vigorous cultural diplomacy in the U S which sought to win over American hearts and minds and soft pedal its imperialist ambitions in Asia The result is a book that both challenges and amplifies standard interpretations of US Japan relations in the interwar era while weaving diplomatic political intellectual and cultural history Moreover the author's wide angle lens offers readers insights into a fascinating assemblage of historical actors from Japanese and American diplomats politicians and military leaders to cosmopolitan art enthusiasts and major league baseball players **Liberalism in Modern Japan** Sharon Nolte, 2023-11-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1987 **Shōwa Japan: 1926-1941** Stephen S. Large, 1998
