Constitutions of the Countries of the World: Taiwan Albert P. Blaustein, Gisbert H. Flanz, 1981

The Changing Dynamics of the Relations among China, Taiwan, and the United States Cal

Clark, Janet Clark, 2011-01-18 Ever since Chiang Kai shek and his Kuomintang evacuated to Taiwan at the end of the Chinese

Civil War in 1949 China and Taiwan have been divided by a fundamental and irreconcilable sovereignty dispute over Taiwan's international status. In addition, the United States has played a central role in the rivalry between Beijing and Taipei. Despite the immutable nature of this sovereignty dispute between China and Taiwan, the triangular relations among Beijing, Taipei, and Washington have changed quite considerably over time. Over the last three decades, for example, relations in the Taiwan Strait were fairly tranquil during the 1980s and early 1990s, became much tenser from 1995 to 2008, and then reverted to amicable relations among China, Taiwan, and the United States after the election of a new Taiwanese President in 2008. This book seeks to understand and analyze the relations among China, Taiwan, and the United States in the early twenty-first century. In particular, it explores what causes change in the relations among Beijing, Taipei, and Washington, and how stable the new era is likely to be. Consequently, special emphasis is placed on the factors promoting change or stability in the interactions among these three countries and upon the policy choices facing their governments. The major topics include the dynamics of the strategic triangle that defines cross-strait relations (Chapters 2 to 4), the domestic politics and policies of Taiwan and China (Chapters 5 to 8), and the growing economic integration across the Taiwan Strait (Chapters 9 to 12). Overall, the future of this trilateral relationship appears to be fairly open-ended. Despite the current rapprochement, the ultimate goals of China and Taiwan remain incompatible; cross-strait relations remain a viciously polarizing issue in Taiwan's domestic politics, and there is profound scholarly disagreement over the broader implications of the growing economic ties across the Strait.

Globalization and Regionalization of China's Economy Hong Pyo Lee, Denis Fred Simon, 1995 **China and the South China Sea Dialogues** Lai To Lee, 1999-09-30 Lee provides an in-depth analysis of China's diplomatic strategy in bilateral and multilateral negotiations on the South China Sea. Based on both documentary research and the personal experiences of the author at conferences and meetings on the issue, Lee highlights the approach adopted by China in its dealings with other parties to the dispute. Professor Lee also examines the state of cross-strait dialogues between Taiwan and China on the South China Sea. As Professor Lee makes clear, while China has been consistent in stating that its claims over the South China Sea are indisputable, Beijing is still willing to talk about the conflicts with the parties involved. While China prefers to conduct bilateral discussions, it has not ruled out multilateral talks and cooperation in the South China Sea. However, there has been limited progress in these talks, especially those conducted at multilateral meetings. As most of the claimants are from ASEAN, the book also examines Sino-ASEAN relations in general and explores how that would affect China's conduct in South China Sea discussions. An important study for scholars and policy makers involved in security issues in the Asia Pacific.

Asian Survey, 1993 **The ASEAN Reader** Kernial Singh Sandhu, 1992 **U.S. Interests In The New Taiwan** Martin L. Lasater, 2021-11-28 Focusing on a persistent crux of Sino-American relations, the author shows how an essentially new Taiwan has emerged in terms of political, economic, diplomatic, and security developments. He explores the future prospects of the new Taiwan and analyzes its implications for US interests and policy.
