Shock and Naturalization in Contemporary Japanese Literature Carl Cassegård, 2007-03-29 This study introduces the concepts of naturalization and naturalized modernity and uses them as tools for understanding the way modernity has been experienced and portrayed in Japanese literature since the end of the Second World War Special emphasis is given to four leading post war writers Kawabata Yasunari Abe Kobo Murakami Haruki and Murakami Ryu The author argues that notions of shock in modern city life in Japan as exemplified in the writings of Walter Benjamin and George Simmel while present in the work of older Japanese writers do not appear to hold true in much contemporary Japanese literature it is as if the shock impact of change has evolved as a naturalized or Japanized process The author focuses on the implications of this phenomenon both in the context of the theory of modernity and as an opportunity to reevaluate the works of his chosen writers

Root Shock Mindy Thompson Fullilove, 2016-11 Root Shock examines 3 different U S cities to unmask the crippling results of decades old disinvestment in communities of color and the urban renewal practices that ultimately destroyed these neighborhoods for the advantage of developers and the elite Like a sequel to the prescient warnings of urbanist Jane Jacobs Dr Mindy Thompson Fullilove reveals the disturbing effects of decades of insensitive urban renewal projects on communities of color For those whose homes and neighborhoods were bulldozed the urban modernization projects that swept America starting in 1949 were nothing short of an assault Vibrant city blocks places rich in culture were torn apart by freeways and other invasive development devastating the lives of poor residents Fullilove passionately describes the profound traumatic stress the root shock that results when a neighborhood is demolished She

estimates that federal and state urban renewal programs spearheaded by business and real estate interests destroyed 1 600 African American districts in cities across the United States But urban renewal didn't just disrupt black communities it ruined their economic health and social cohesion stripping displaced residents of their sense of place as well It also left big gashes in the centers of cities that are only now slowly being repaired Focusing on the Hill District of Pittsburgh the Central Ward in Newark and the small Virginia city of Roanoke Dr Fullilove argues powerfully against policies of displacement Understanding the damage caused by root shock is crucial to coping with its human toll and helping cities become whole Mindy Thompson Fullilove MD is a research psychiatrist at New York State Psychiatric Institute and professor of clinical psychiatry and public health at Columbia University She is the author of five books including *Urban Alchemy* *Visual Shock* Michael Kammen,2007-11-06 In this lively narrative award winning author Michael Kammen presents a fascinating analysis of cutting edge art and artists and their unique ability to both delight and provoke us He illuminates America's obsession with public memorials and the changing role of art and museums in our society From Thomas Eakins's 1875 masterpiece *The Gross Clinic* considered too big bold and gory when first exhibited to the bitter disputes about Maya Lin's Vietnam War Memorial this is an eye opening account of American art and the battles and controversies that it has ignited

State of Shock Lior Libman, 2024-11-12 Argues that the foundation of Israel was a trauma that destabilized the kibbutz's conceptual grounding State of Shock decodes one of the most iconic images of Zionism and Israel the kibbutz Lior Libman offers original theoretical and historiographical insights into the imagery and the history of the kibbutz and through them of Hebrew literature and Israeli culture more broadly Arguing that the establishment of the State of Israel was a rupture that destabilized the kibbutz's deepest conceptual ground and shifted its history the book uncovers the seemingly surprising Hasidic resonances in the identity of the kibbutz and its self-perception as fulfilling the metaphysical in the physical By interrogating the changes and upheavals brought about by Jewish sovereignty their impact on the kibbutz and its response to them Libman defines the kibbutz's transition into Israeli statehood as a cultural trauma which robbed it of its familiar frames for interpreting historical experience Disoriented the kibbutz reacted in shock it was unable to reimagine itself in the new conditions Libman charts how the demise of the kibbutz originally avant-garde a political and aesthetic form that acts in history began in 1948 Turning from its origin as a breakaway human creation engaged in a constant process of becoming of history making the kibbutz Libman shows transformed into a fetish in the early years of the State of Israel a sanctified substitutional fossilized political and aesthetic object of compulsive metaphysical longing frozen in time and detached from history

The Shock Doctrine Naomi Klein, 2010-04-01 The bestselling author of No Logo shows how the global free market has exploited crises and shock for three decades from Chile to Iraq In her groundbreaking reporting Naomi Klein introduced the term disaster capitalism Whether covering Baghdad after the U.S. occupation Sri Lanka in the wake of the tsunami or New Orleans post-Katrina she witnessed something remarkably similar People still reeling from catastrophe were being hit again this time with economic shock treatment losing their land and homes to rapid-fire corporate makeovers The Shock Doctrine retells the story of the most dominant ideology of our time Milton Friedman's free market economic revolution In contrast to the popular myth of this movement's peaceful global victory Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa Russia and Iraq At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself Klein argues that by capitalizing on crises created by nature or war the disaster capitalism complex now exists as a booming new economy and is the violent culmination of a radical economic project that has been incubating for fifty years

Shell Shock and the Modernist Imagination Wyatt Bonikowski, 2016-04-01 Looking closely at both case histories of shell shock and Modernist novels by Ford Madox Ford Rebecca West and Virginia Woolf Wyatt Bonikowski shows how the figure of the shell shocked soldier and the symptoms of war trauma were transformed by the literary imagination Situating his study with respect to Freud s concept of the death drive Bonikowski reads the repetitive symptoms of shell shocked soldiers as a resistance to representation and narrative In making this resistance part of their narratives Ford West and Woolf broaden our understanding of the traumatic effects of war exploring the possibility of a connection between the trauma of war and the trauma of sexuality *Parade s End* *The Return of the Soldier* and *Mrs Dalloway* are all structured around the relationship between the soldier who returns from war and the women who receive him but these novels offer no prospect for the healing effects of the union between men and women Instead the novels underscore the divisions within the home and the self drawing on the traumatic effects of shell shock to explore the link between the public events of history and the intimate traumas of the relations between self and other
