Revelation Rationality Knowledge And Truth:

Revelation, Rationality, Knowledge & Truth Hazrat Mirza Tahir Ahmad, 1998-06-30 Any divide between revelation and rationality religion and logic has to be irrational If religion and rationality cannot proceed hand in hand there has to be something deeply wrong with either of the two Does revelation play any vital role in human affairs Is not rationality sufficient to guide man in all the problems which confront him Numerous questions such as these are examined with minute attention All major issues which intrigue the modern mind are attempted to be incorporated in this fascinatingly comprehensive statute Whatever the intellectual or educational background of the reader this book is bound to offer him something of his interest It examines a very diverse and wide range of subjects including the concept of revelation in different religions history of philosophy cosmology extraterrestrial life the future of life on earth natural selection and its role in evolution It also elaborately discusses the advent of the Messiah or other universal reformers awaited by different religions Likewise many other topical issues which have been agitating the human mind since time immemorial are also incorporated The main emphasis is on the ability of the Quran to correctly discuss all important events of the past present and future from the beginning of the universe to its ultimate end Aided by strong incontrovertible logic and scientific evidence the Quran does not shy away from presenting itself to the merciless scrutiny of rationality It will be hard to find a reader whose queries are not satisfactorily answered We hope that most readers will testify that this will always stand out as a book among books perhaps the greatest literary achievement of this century

Truth about the Alleged Punishment for Apostasy in Islam Hazrat Mirza Tahir Ahmad,2005-01-12 From the earliest days till now Islam and the world of Islam have not been harmed so severely by any external enemy as by some simple minded Muslim ulema themselves In fact the enemies of Islam have utilized the unwise religious edicts of these naive ulema as a basis to attack Islam The wrong trend among the ulema took place when under the influence of changing sociopolitical environment they preferred to adopt some politically coloured Islamic interpretations and ignored the clear teachings of the Qur an and the noble precedence set by the Holy Prophet sa Killing of apostates is one of such erroneous trends and baseless convictions In fact this menacing tenet is based neither on the Qur an nor on the practice of the Prophet of Islam This dangerous and untenable belief produced very grave consequences Hazrat Mirza Tahir Ahmad rh the fourth successor of the Promised Messiah as in a lecture delivered at Jalsa Salana the Annual Gathering UK on 27th July 1986 analysed in depth all aspects of this heinous tenet He showed it to be an utterly false and unfounded belief and smashed once for all the so called arguments of the ulema in support of this claim He has proved it to be a false belief His arguments are based on the Holy Qur an the Sunnah and Ahadith of the Holy Prophet sa and the historical events that took place in the eras of the Righteous Caliphs ra Hazrat Mirza Tahir Ahmad rh deals with the subject extensively and it is earnestly hoped that the address will help unbiased researchers to fully understand the true teachings of Islam on the subject It is also hoped that it will go a long way to creating a new spirit in which Islamic teachings are appreciated in their real essence and true nature and prejudice against Islam is eradicated **Far from the Caliph's Gaze** Nicholas H. A. Evans,2020-05-15 How do you prove that you re Muslim This is not a question that most believers ever have to ask themselves and yet for members of India s Ahmadiyya

Muslim Community it poses an existential challenge The Ahmadis are the minority of a minority people for whom simply being Muslim is a challenge They must constantly ask the question What evidence could ever be sufficient to prove that I belong to the faith In Far from the Caliph s Gaze Nicholas H A Evans explores how a need to respond to this question shapes the lives of Ahmadis in Qadian in northern India Qadian was the birthplace of the Ahmadiyya community s founder and it remains a location of huge spiritual importance for members of the community around the world Nonetheless it has been physically separated from the Ahmadis spiritual leader the caliph since partition and the believers who live there now and act as its guardians must confront daily the reality of this separation even while attempting to make their Muslimness verifiable By exploring the centrality of this separation to the ethics of everyday life in Qadian Far from the Caliph s Gaze presents a new model for the academic study of religious doubt one that is not premised on a concept of belief but instead captures the richness with which people might experience problematic relationships to truth

With Or Without God, Life's Mysteries Continue Ruminations on God, Life, Death, Spirits, Reincarnation and the Future of Humankind Sondlo Leonard Mhlaba, PhD, 2010

Sooner or later we all face the questions explored in With or Without God Life s Mysteries Continue questions about the purpose of life human mortality spirituality God and life beyond the grave The title conveys the author s tentativeness perhaps humility There are no postulates here no truths to be revealed These are ruminations What makes these ruminations notable is that they are those of a man who in his own words has traversed centuries of human experience in 66 years and in the process acquired a unique perspective on life and nature Mhlaba grew up in Zimbabwe in what he calls a pre modern age He has lived in fear of spooks and ghosts worshipping ancestral spirits and was subject to the tyranny of witches and the machinations of unseen forces He could have easily remained in that life as his forebears had done before him Fortunately his parents understood that he and his siblings would live much of their lives in a changed world and prepared them through education The book ends with a fascinating look into the future of humankind taking the reader through uncharted territory and a new sense of awe about the meaning of life and what may lie beyond Mhlaba went on to earn a Ph D and taught physics and mathematics at university level He now lives in Newton Massachusetts with his wife Nancy They have four grown children Mhlaba is currently writing a book on global governance

Islam, Science Fiction and Extraterrestrial Life Jörg Matthias

Determann, 2020-09-17 The Muslim world is not commonly associated with science fiction Religion and repression have often been blamed for a perceived lack of creativity imagination and future oriented thought However even the most authoritarian Muslim majority countries have produced highly imaginative accounts on one of the frontiers of knowledge astrobiology or the study of life in the universe This book argues that the Islamic tradition has been generally supportive of conceptions of extra terrestrial life and in this engaging account Jörg Matthias Determann provides a survey of Arabic Bengali Malay Persian Turkish and Urdu texts and films to show how scientists and artists in and from Muslim majority countries have been at the forefront of the exciting search Determann takes us to little known dimensions of Muslim culture and religion such as wildly

popular adaptations of Star Wars and mysterious movements centred on UFOs Repression is shown to have helped science fiction more than hurt it with censorship encouraging authors to disguise criticism of contemporary politics by setting plots in future times and on distant planets The book will be insightful for anyone looking to explore the science culture and politics of the Muslim world and asks what the discovery of extra terrestrial life would mean for one of the greatest faiths
