Lawson,2005 The thesis of A Gorgon s mask The Mother in Thomas Mann s Fiction depends upon three psychoanalytic concepts Freud s early work on the relationship between the infant and its mother and on the psychology of artistic creation Annie Reich s analysis of the grotesque comic sublimation and Edmund Bergler s analysis of writer s block Mann s crisis of sexual anxiety in late adolescence is presented as the defining moment for his entire artistic life In the throes of that crisis he included a sketch of a female as Gorgon in a book that would not escape his mother s notice But to defend himself from being overcome by the Gorgon mother s stare he employed the grotesque comic sublimation hiding the mother figure behind fictional characters physically attractive but psychologically repellent all the while couching his fiction in an ironic tone that evoked humor however lacking in humor the subtext might be In this manner he could deny to himself that the mother figure always lurked in his work and by that denial deny that he was a victim of oral regression For as Edmund Bergler argues the creative writer who acknowledges his oral dependency will inevitably succumb to writer s block Mann s late work reveals that his defense against the Gorgon is crumbling In Doctor Faustus Mann portrays Adrian Leverk hn as ultimately the victim of oral regression but the fact that Mann was able to compete the novel despite severe physical illness and psychological distress demonstrates that he himself was still holding writer s block at bay In Confessions of Felix Krull Confidence Man a narrative that he had abandoned forty years before Mann was finally forced to acknowledge that he was depleted of creative vitality but not of his capacity for irony brilliantly couching the victorious return of the repressed in ambiguity This study will be of interest to general readers who enjoy Mann s narrative art to students of Mann s work especially its psychological and mythological aspects and to students of the psychology of artistic creativity Fashion, Agency, and Empowerment Annette Lynch,Katalin Medvedev,2018-11-29 Fashion has always been strongly linked with the politics of gender and equality In this global and interdisciplinary collection

leading authors explore the relationships between the dressed body fashion sex and power with an emphasis on the role of dress in both reinforcing and challenging social norms Covering a range of geographic and social contexts the book explores the role of fashion in empowering both individuals and groups to create transformation and change Taking us from the performance of black dandyism through stylized hats to the use of challenging dance forms and male inspired dress by female South African dancers to express independence and equality to ways in which recent Bond Girls have challenged traditional gender binaries the book provides a crucial entry point into discussions of fashion as an empowerment strategy Fashion Agency and Empowerment encourages the reader to critically examine the cultural and social impact of sexual objectification as well as to consider personal and shared narratives of self objectification and repression With chapters ranging from the iconic self fashioning of Princess Diana to a discussion of sex power and cultural constructions of masculinity Fashion Agency and Empowerment provides crucial insights into global fashion political structures and social life
