The Oxford History of World War II Richard Overy, 2023-02-01 Histories you can trust World War Two was the most devastating conflict in recorded human history It was both global in extent and total in character It has understandably left a long and dark shadow across the decades Yet it is three generations since hostilities formally ended in 1945 and the conflict is now a lived memory for only a few And this growing distance in time has allowed historians to think differently about how to describe it how to explain its course and what subjects to focus on when considering the wartime experience For instance as World War Two recedes ever further into the past even a question as apparently basic as when it began and ended becomes less certain Was it 1939 when the war in Europe began Or the summer of 1941 with the beginning of Hitler's war against the Soviet Union Or did it become truly global only when the Japanese brought the USA into the war at the end of 1941 And what of the long conflict in East Asia beginning with the Japanese aggression in China in the early 1930s and only ending with the triumph of the Chinese Communists in 1949 In *The Oxford History of World War Two* a team of leading historians re-assesses the conflict for a new generation exploring the course of the war not just in terms of the Allied response but also from the viewpoint of the Axis aggressor states Under Richard Overy's expert editorial guidance the contributions take us from the genesis of war through the action in the major theatres of conflict by land sea and air to assessments of fighting power and military and technical innovation the economics of total war the culture and propaganda of war and the experience of war and genocide for both combatants and civilians concluding with an account of the transition from World War to Cold War in the late 1940s Together they provide a stimulating and thought provoking new interpretation of one of the most terrible and fascinating episodes in world history

The Oxford Illustrated History of World War II R. J. Overy, 2015 World War Two re-assessed for a new generation from the 1930s through to the beginnings of the Cold War A stimulating and thought provoking new interpretation of one of the most terrible episodes in world history

Encyclopedia of Chinese History Michael Dillon, 2016-12-01 China has become accessible to the west in the last twenty years in a way that was not possible in the previous thirty The number of westerners travelling to China to study for business or for tourism has increased dramatically and there has been a corresponding increase in interest in Chinese culture society and economy and increasing coverage of contemporary China in the media Our understanding of China's history has also been evolving The study of history in the People's Republic of China during the Mao Zedong period was strictly regulated and primary sources were rarely available to westerners or even to most Chinese historians Now that the Chinese archives are open to researchers there is a growing body of academic expertise on history in China that is open to western analysis and historical methods This has in many ways changed the way that Chinese history particularly the modern period is viewed The

Politics and the Histories of International Law, 2021-07-19. What are the implications of writing the history of legal issues? Eighteen authors from different legal systems and backgrounds offer different answers by examining the history writing on issues ranging from slavery over the use of force to extraterritorial jurisdiction. Contributions show how historiography has often distorted or neglected regional cultures and suggest alternative methods and approaches to history writing. These studies are highly relevant for current international relations in which the fight over master narratives is especially fierce among governments in different academic fields and also between governments and academics. Contributors are Jean d'Aspremont, Julia B. Hner, Emiliano J. Buis, Maria Adele Carrai, Jacob Katz Cogan, R. n. Derrig, Angelo Dube, Michel Erpelding, Etienne Henry, Madeleine Herren, Randall Lesaffer, Anne Charlotte Martineau, Parvathi Menon, Momchil Milanov, Hirofumi Oguri, Gustavo Prieto, Hendrik Simon, Sebastian Spitra and Deborah Whitehall.

Coming Home to a Foreign Country. Soon Keong Ong, 2021-08-15. Ong Soon Keong explores the unique position of the treaty port Xiamen (Amoy) within the China-Southeast Asia migrant circuit and examines its role in the creation of Chinese diasporas. *Coming Home to a Foreign Country* addresses how migration affected those who moved out of China and later returned to participate in the city's economic revitalization, educational advancement and urban reconstruction. Ong shows how the mobility of overseas Chinese allowed them to shape their personal and community identities for pragmatic and political gains. This resulted in migrants who returned with new money, knowledge and visions acquired abroad which changed the landscape of their homeland and the lives of those who stayed. Placing late Qing and Republican China in a transnational context, *Coming Home to a Foreign Country* explores the multilayered social and cultural interactions between China and Southeast Asia. Ong investigates the role of Xiamen in the creation of a China-Southeast Asia migrant circuit, the activities of aspiring and returned migrants in Xiamen, the accumulation and manipulation of multiple identities by Southeast Asian Chinese as political conditions changed and the motivations behind the return of Southeast Asian Chinese and their continual involvement in mainland Chinese affairs. For Chinese migrants, Ong argues, the idea of home was something consciously constructed. Ong complicates familiar narratives of Chinese history to show how the emigration and return of overseas Chinese helped transform Xiamen from a marginal trading outpost at the edge of the Chinese empire to a modern, prosperous city and one of the most important migration hubs by the 1930s.
