## **Revolution From Within The Hungarian Socialist Workers Party And The Collapse Of Communism:**

Revolution from Within Patrick H. O'Neil, 1998 An analysis of the collapse of socialism in Eastern Europe The exceptional case of Hungary is used to support theoretical concepts regarding the transition The Hungarian Socialist Workers Party and the Hungarian Communist Party are examined in decline along with the system which replaced them *The Demise of the Soviet Communist Party* Atsushi Ogushi, 2007-11-02 This book based on extensive original research in previously unexplored sources including the party archives provides a great deal of new information on the disintegration of the Soviet communist party in 1991 and the preceding years It argues that contrary to prevailing views the party was reformable in late Soviet times but that attempts to reform it failed reforms succeeded in preventing the party interfering in the state body and thereby abolished the party's traditional administrative functions but without creating an alternative power centre and without transforming the party from a vanguard party into a parliamentary party It demonstrates that the party having ceased to offer career paths for aspiring party members thereby lost its reason for existence that an exodus of party members then followed which in turn caused a financial crisis and that this financial crisis and the resulting engagement in commercial activity fragmented and dispersed party property It shows how the failed coup of 1991 was led by the military rather than the party and how having lost its reason for existence and its property the party had no choice but to accept the reality that it was de facto dead **The 1989 Revolutions in Central and Eastern Europe** Kevin McDermott, Matthew Stibbe, 2015-11-01 This important book reassesses a defining historical political and ideological moment in contemporary history the 1989 revolutions in central and eastern Europe Adopting a multi disciplinary approach the authors reconsider such crucial themes as the broader historical significance of the 1989 events the complex interaction between external and internal factors in the origins and outcomes of the revolutions the impact of the Gorbachev phenomenon the West and the end of the Cold War the political and socio economic determinants of the revolutionary processes in Poland Hungary the German Democratic Republic Czechoslovakia Romania and Bulgaria and the competing academic cultural and ideological perceptions of the year 1989 as communism gave way to post communist pluralism in the 1990s and beyond Concluding that the contentious term revolution is indeed apt for the momentous developments in eastern Europe in 1989 this book will be essential reading for undergraduates postgraduates and specialists alike *Political Parties in Post-Communist Eastern Europe* Paul Lewis, 2002-01-04 Political Parties in Post Communist Eastern Europe is the first textbook to survey the course of party developments in eastern Europe as a whole in the post Communist period This book relates the specifics of the post communist situation to the broader picture of the early stages of party development in western Europe and also to contemporary models of party organisation in established democracies The book includes a brief historical introduction to the context of post communist change the process of competitive party formation and democratic elections the development of independent parties their ideologies and electoral volatility the structure and level of organisation developed by new

parties an analysis of stable party systems which have emerged in eastern Europe and the contribution they make to emerging democracies in the region Party Politics in Post Communist Eastern Europe will be a comprehensive and invaluable resource accessible to undergraduates of politics and European studies as well as the non specialist reader *The Communist Successor Parties of Central and Eastern Europe* András Bozóki, John T. Ishiyama, 2002 After providing a theoretical overview and discussions of study methodology Bozoki political science Central European U Hungary and Ishiyama political science Truman State U present separate examinations of the development of those parties that are the prime inheritors of personnel and resources from the former ruling parties of Poland Hungary Czechoslovakia East Germany Romania Yugoslavia Lithuania and Russia After the single country case studies a series of seven comparative case studies are presented focusing on such issues as organization and ideology party consolidation party system institutionalization cleavage structure and organizational strength Annotation copyrighted by Book News Inc Portland OR
