Revolution In Perspective:

Revolution in Perspective: People Seeking Change, 1775 to the Present Day Mary Charlesworth, 1972 *Solidarity in Poland, 1980-1981 and the Perspective of Political Revolution* Wolfgang Weber, 1989 *Perspectives on the Grenada Revolution, 1979-1983* John Angus Martin, Nicole Phillip-Dowe, 2017-05-11 The 1979 Grenada Revolution orchestrated by the New Jewel Movement culminated four and a half years later in the execution of Prime Minister Maurice Bishop and the US led military invasion which threw Grenada onto the international political stage Though much has been written on the Revolution and its untimely and violent demise the overwhelming majority of the authors have been non Grenadian All the contributors to this volume except one are Grenadian In this regard it is unique and captures the voices of persons who were active participants children teenagers young adults and some yet unborn in the 1979 to 1983 period illustrative of the continued influence of the Revolution on Grenadians The essays examine the legality of the Revolution the historical connections between it and the 1795 F don s Rebellion the nation s collective memory of the Revolution by its second generation the conflict between religion and the Revolution the empowerment of women by the revolutionary process and the role of poetry and art in raising salient and often difficult and painful aspects of the Revolution This collection of essays captures the Revolution from a Grenadian perspective Revolution and Terror Graeme Gill, 2024 This book is a study of the relationship between revolution and terror Graeme Gill uses a detailed analysis of the French Russian and Chinese revolutions to show that in order to understand that relationship it is necessary to distinguish between different types of terror revolutionary transformational and inverted **Recommencing the Revolution** Cornelius Castoriadis, 1992-12-01

Reform, Revolution, and Opportunism Mike Taber, 2023-09-05 An essential record from the Second International expertly curated by Under the Socialist Banner editor Mike Taber At its height the Second International 1889 1916 represented the majority of organized workers in the world and the largest of its affiliated parties counted over a million members Its congresses drew delegates from across the globe and its major victories like the eight hour work day have long outlasted the organization itself In this important collection of debates and resolutions from the Second International Reform Revolution and Opportunism captures the International s vibrancy and gives a snapshot of its strengths weaknesses and contradictions Socialist militants turned to the Second International to deliberate on how best to combat the latest deprivations and excesses of capitalism which was stretching beyond national boundaries for the first time These new issues and the debates about how to respond to them surging immigration what to say about colonialism how to relate to burgeoning struggles for women s rights the drive to intern imperialist war remain deeply contested over a hundred years later Taken together with Under the Socialist Banner Reform Revolution and Opportunism offers a rounded view of the Second International and its legacy showing it to be a living breathing movement with crucial insights for contemporary radicals **Lenin, Trotsky and the Theory of the Permanent Revolution** John Peter Roberts, 2014 Today yet again from Latin America to Nepal in India

and the Middle East the question of which strategy the masses should adopt to take control of their own lives is being posed Without exception the leaders of the mass workers parties urge class collaboration as the way forward Actively supported by the national Communist Parties and even Maoist guerrilla groups a petty bourgeois amalgam proposes collaboration with the so called national bourgeoisie as the only path to national independence and democracy In the century since the Russian Revolution the first modern popular revolution to succeed in throwing out the imperialists much time and effort has been spent especially by the former Soviet bureaucracy in neutering Lenin praising him while tearing out the revolutionary heart of his theories This book demonstrates that the Russian Revolution a model for a victorious popular revolution in a semi colonial country in the era of imperialism required not a bourgeois democratic but a socialist revolution for the people to take power The old regime had to be destroyed and the state and governmental power seized by the working classes before it was possible to achieve national independence and carry through any meaningful agrarian reform for the benefit of the peasantry Lenin s close collaborator in October 1917 was Leon Trotsky and the success of that revolution was due to the combination of the discipline and organisation of Lenin s Bolshevik Party and Trotsky s political theory of the permanent revolution This book goes back to basics critically analysing and comparing Lenin s and Trotsky s own writings which are cited in their source and inspiration the Russian Revolution of 1905 It is shown that Lenin in October 1917 adopted the perspectives of Permanent Revolution that to finally rid Russia of autocracy and legitimise the peasants seizure of the land the Russian Revolution required the introduction of the dictatorship of the proletariat and the first steps towards the collectivisation of the means of production Those who attack the theory of Permanent Revolution never challenge the correctness of its basic concept that the international socialist revolution could begin in semi feudal Russia Instead in the guise of anti Trotskyism they deny the validity of Lenin s struggle for a socialist revolution in October 1917

Ideology and Revolution in Southeast Asia, 1900-1980 Clive J. Christie, 2001 Drawing on books speeches documents and statements issued by key individuals and political and cultural movements in South East Asia between 1900 1975 this book is an ideological history of South East Asia

Centenary of the Russian Revolution (1917-2017) Andreu Mayayo i Artal, Antoni Segura i Mas, 2019-01-08 This collection of essays provides an historical plural and original analysis of the Russian Revolution to mark its first centenary It focuses on both regional aspects such as the impact of the Revolution in Spain and Latin America and major events ideas and phenomena including the importance of World War I the birth of the Communist International and the definition of revolution and counterrevolution The book will mainly appeal to academic audiences as well as non specialized readers interested in the major issues of the contemporary world It offers new insights into an event that contributed to the shaping of the twentieth century and that is still fundamental to understanding the world of today

Writing the Revolution Raphael

Hörmann, 2011 This study investigates German and English revolutionary literary discourse between 1819 and 1848 49 Marked by dramatic socioeconomic transformations this period witnessed a pronounced transnational shift from the concept

of political revolution to one of social revolution Writing the Revolution engages with literary authors radical journalists early proletarian pamphleteers and political theorists tracing their demands for social liberation as well as their struggles with the specter of proletarian revolution The book argues that these ideological battles translated into competing poetics of revolution Series Kulturgeschichtliche Perspektiven Vol 10 **The Psychology of Revolution** Fathali M.

Moghaddam,2024-03-14 Presents a compelling analysis of the psychology of revolution for the first time since 1894 *Karl Marx's Theory of Revolution Vol. II* Hal Draper,1978 This is the second installment of Hal Draper s incomparable treatment of Marx s political theory policy and practice In forceful and readable language Draper ranges through the development of the thought of Marx and Engels on the role of classes in society This series Karl Marx s Theory of Revolution represents an exhaustive and definitive treatment of Marx s political theory policy and practice Marx and Engels paid continuing attention to a host of problems of revolution in addition to constructing their grand theory All these political and social analyses are brought together in these volumes as the author draws not only on the original writings of Marx and Engels but also on the sources that they used in formulating their ideas and the many commentaries on their published work Draper s series is a massive and immensely valuable scholarly undertaking The bibliography alone will stand as a rich resource for years to come Yet despite the scholarly treatment the writing is direct forceful and unpedantic throughout and will appeal to the beginning student as much as the advanced reader Encyclopedia of Global Justice Deen K. Chatterjee,2011-10-06 This two volume Encyclopedia of Global Justice published by Springer along with Springer s book series Studies in Global Justice is a major publication venture toward a comprehensive coverage of this timely topic The Encyclopedia is an international interdisciplinary and collaborative project spanning all the relevant areas of scholarship related to issues of global justice and edited and advised by leading scholars from around the world The wide ranging entries present the latest ideas on this complex subject by authors who are at the cutting edge of inquiry The Encyclopedia sets the tone and direction of this increasingly important area of scholarship for years to come The entries number around 500 and consist of essays of 300 to 5000 words The inclusion and length of entries are based on their significance to the topic of global justice regardless of their importance in other areas Revolution's Other World Ken Post,2016-07-27 Ken Post examines the turn to the East by the international communist movement in fostering world revolution after the success in Russia in 1917 which led to communism s greatest gains after the Second World War Based on a theorisation of the building of revolutionary movements this study critically assesses communist strategy and tactics using three key cases China India and Brazil drawing out implications for possible future developments in less developed countries **Fragmented Memories and Screening Nostalgia for the Cultural Revolution** Jing Meng,2020-08-19 Fragmented Memories and Screening Nostalgia for the Cultural Revolution argues that films and TV dramas about the Cultural Revolution made after China s accession to the WTO in 2001 tend to represent personal memories in a markedly sentimental nostalgic and fragmented manner This new trend is a

significant departure from earlier films about the subject which are generally interpreted as national allegories not private expressions of grief regret or other personal feelings With China entering a postsocialist era the ideological conflation of socialism and global capitalism has generated enough cultural ambiguity to allow a space for the expression of personalized reminiscences of the past By presenting these personal memories in effect alternative narratives to official history on screen individuals now seem to have some agency in narrating and constructing history At the same time such autonomy can be easily undermined since the promotion of the sentiment of nostalgia is often subjected to commodification Sentimental treatments of the past may simply be a marketing strategy Underplaying political issues is also a safer way for films and TV dramas to secure public release in mainland China Meng concludes that the new mode of representing the past is shaped by the current sociopolitical conditions these personal memories and micro narratives can be understood as the defining ways of remembering in China s postsocialist era

Fragmented Memories and Screening Nostalgia for the Cultural Revolution takes a comprehensive look at contemporary screen depictions of the Cultural Revolution The book convincingly ties close readings of the works analysed with broader social and cultural phenomena that already are hot topics of study and debate offering something original while also being closely engaged with existing scholarship Jason McGrath University of Minnesota

Breaking through the tired dichotomy between personal and collective narratives individual memory and grand history this refreshing book sheds much light on film memories of the Cultural Revolution in the post socialist millennium In a limpid and engaging style Jing Meng probes memory s nostalgia and imbrication with the collective destiny and critiques the personal focus aligned with neoliberal economy and commodification Ban Wang Stanford University

Vietnamese Colonial Republican Peter Zinoman, 2013-11-16 This volume is a comprehensive study of Vietnam s greatest and most controversial 20th century writer who died tragically in 1939 at the age of 28 Vu Trong Phung is known for a remarkable collection of politically provocative novels and sensational works of non fiction reportage that were banned by the communist state from 1960 to 1986 Leading Vietnam scholar Zinoman resurrects the life and work of an important intellectual and author in order to reveal a neglected political project that is excluded from conventional accounts of modern Vietnamese political history He sees Vu Trong Phung as a leading proponent of a localized republican tradition that opposed colonialism communism and unfettered capitalism and that led both to the banning of his work and to the durability of his popular appeal in Vietnam today

important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about this important period in Chinese history *Daughters of the American Revolution Magazine* ,1902 Ideology and Revolution in Southeast Asia 1900-1980 Clive J Christie,Clive J. Christie,2012-12-06 The concept of Asian Values has recently been emphasized by East and South East Asian political leaders These leaders have argued that European political values have exercised an unhealthy hegemony over the international system not only because of global influence exercised by European ideas during the colonial period but because of Anglo Saxon dominance over the world orders that were set up in the aftermath of both the First and Second World Wars This book considers the interaction between indigenous Asian values and European ideology and the influence this relationship had on the nationalist and revolutionary movements of Southeast Asia that dominated the political systems of Southeast Asia in the period 1945 1975 **Revolution and the Global Struggle for Modernity** Frank Jacob,2024-03-12 This book as the first volume of a multiple volume endeavor to analyze several revolutions of the long nineteenth and short twentieth century to show how revolutionary processes evolved takes a closer look at the Atlantic Revolutions that is the American the French and the Haitian Revolution It will therefore use a comparative ten step model to emphasize similarities with regard to the revolutionary developments in different parts of the world The book consequently aims at providing a general but deeper understanding of revolutions as a global phenomenon of modernity while explaining how revolutionary processes evolve and develop and how they could and can be corrupted
