The New Public Management in Action Ewan Ferlie,1996 This book analyses changes which have occurred in the organization and management of the UK public services over the last 15 years looking particularly at the restructured NHS The authors present an up to date analysis around three main themes the transfer of private sector models to the public sector the management of change in the public sector and management reorganization and role change In doing so they examine to what extent a New Public Management has emerged and ask whether this is a parochial UK development or of wider international significance This is a topical and important issue in management training professional and policy circles

Important analytic themes include an analysis of the nature of the change process in the UK public services characterization of quasi markets the changing role of local Boards and possible adaptation by professional groupings The book also addresses the important and controversial question of accountability and contributes to the development of a general theory of the New Public Management

Basic Cost Benefit Analysis for Assessing Local Public Projects, Second Edition

Barry P. Keating, Maryann O. Keating, 2017-05-24 The cost benefit technique is so often referenced in government policy that a correct understanding is necessary for officials entrusted with public decisions This book presents essential elements for understanding interpreting and conducting cost benefit analysis CBA in the context of local government If you re charged with preparing numerical analyses to assess the worthiness of a specific policy proposal you ll need this book to understand how costs and benefits are identified and analyzed in terms of economic efficiency and resource allocation CBA is rooted in and has little or no value apart from the economic concepts of cost and resource efficiency This book is designed to teach the correct use and interpretation of cost benefit analysis while advising you of CBA s limitations and pitfalls Case studies presented in the final chapters of this book represent typical proposals confronted by local officials The book also includes instructions for using computer spreadsheets to build basic cost benefit models and an appendix on the step by step process of discounting future costs and benefits
