Russia in Asia Alexis Krausse, 2017-12-13 Excerpt from *Russia in Asia A Record and a Study 1558 1899* The growth of Asiatic Russia while of engrossing concern to the political student the soldier and the commercial man has never until now been treated on purely historical lines My object has been to trace the successive stages of this growth and to describe the deliberate prosecution of the policy which has largely brought it about Russia in Asia does not profess to be more than a history complete yet concise of Asiatic Russia In criticising the rival policies of Russia and England my endeavour has been to present the clear and impartial deduction that a careful study of those policies yields The historical chapters are based upon the writings of more than two hundred authorities The accounts of the numerous military expeditions have in most cases been drawn from Russian sources while my references to the part played by diplomacy are grounded on official correspondence and our own Government publications I have not occupied space with a full list of the authorities consulted thinking it sufficient to indicate to those who may desire a closer investigation of the subject the principal sources where verification and amplification may be found About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any

In Three Volumes** , 1907 *Russia in the Early Modern World* Donald Ostrowski, 2022-01-25 A fundamental problem in studying early modern Russian history is

determining Russia's historical development in relationship to the rest of the world. The focus throughout this book is on the continuity of Russian policies during the early modern period 1450-1800 and that those policies coincided with those of other successful contemporary Eurasian polities. The continuities occurred in the midst of constant change but neither one nor the other continuities or changes alone can account for Russia's success. Instead, Russian rulers from Ivan III to Catherine II with their hub advisors managed to sustain a balance between the two. During the early modern period, these Russian rulers invited into the country foreign experts to facilitate the transfer of technology and know-how, mostly from Europe but also from Asia. In this respect, they were willing to look abroad for solutions to domestic problems. Russia looked westward for military weaponry and techniques at the same time it was expanding eastward into the Eurasian heartland. The ruling elite and by extension the entire ruling class worked in cooperation with the ruler to implement policies. The Church played an active role in supporting the government and in seeking to eliminate opposition to the government. **Biennial Report**
