

# The Russian Federation

- ❑ The Communist Party came to power after Lenin led a revolution
- ❑ After Lenin's death, Stalin became the new Soviet leader in which he consolidated his power with purges (process of government purification by removing rivals)
- ❑ In 1985, Gorbachev began a reform program based on two principles: Perestroika (restructuring of economic and political life) and Glasnost (policy of openness under which the government increased its tolerance of dissent and freedom of expression)
- ❑ The Russian government is now struggling toward democracy and economic reform; it has a multi-party system

*Governance, Decentralization and Reform in China, India and Russia* Jean-Jacques Dethier, 2000-09-30 The papers in *Governance Decentralization and Reform in China India and Russia* which were presented at a ZEF conference in May 1999 deal with three critical aspects of governance in China India and Russia political reforms at the local level fiscal reforms in intergovernmental relations and legal reforms The volume collects contributions from 24 outstanding economists political scientists and legal specialists including Vito Tanzi Daniel Treisman Pranab Bardham Jean Dr ze Katharina Pistor and Kathryn Hendley Distorted economic and political incentive structures capture of the state by powerful elites and inoperative legal systems are factors that have greatly complicated the political economy of reform in these three large countries with heterogeneous populations Addressing these political and institutional issues is essential to designing good policies One particular goal of this volume is to bring together new analytical insights and empirical evidence on governance a new and growing field of research The volume is divided into three parts fiscal federalism decentralization and provision of local public goods and legal reforms Part I discusses the role of incentives in fiscal federalism The papers analyze the effects of different revenue sharing mechanisms between different levels of government in particular the effects on regional growth and inequality and the incentives that local politicians may have to provide public goods depending on fiscal arrangements with the central government In adapting their governance structures all three countries have been striving for increased decentralization But the theoretical literature suggests that in a decentralized setting second best solutions must prevail it is not possible to ensure incentive compatibility simultaneously with optimal allocation of resources and a balanced budget in providing public goods Part II discusses taxation and public expenditure management both as a political and as a budgetary process Two questions which the papers address are Does participation of stakeholders and accountability of public authorities improve economic and social outcomes Does better governance in the provision of basic goods such as health care and education improve equity While decentralization is often seen as a way to improve the quality of public services rule based governance is viewed as a safeguard against the arbitrariness of public officials and weaknesses

in law enforcement The five papers in Part III focus on the rule of law the role of the judicial system in establishing a rule based economy and the effectiveness of legal institutions during the transition from socialism to a market economy They present overviews of current legal reform issues in the three countries and discuss various conceptual approaches to addressing legal reform issues      **Russia** ,1997-01-01 Maps 4 folded sheets attached to inside back cover      Kremlin Capitalism Joseph R. *The State After Communism* Timothy J. Colton, Stephen Holmes, 2006 The Soviet dictatorship was a strong state committed to dominating and transforming society in the name of a utopian ideology When the communist regime crumbled and the post Soviet countries committed to democracy most observers took for granted that their state structures would be effective agents of the popular will Russia's experience demonstrates that this assumption was overly optimistic This book based on a major collaborative research project with American and Russian scholars shows that state capacity strength and coherence were highly problematic after communism which had major consequences for particular functions of government and for the entire process of regime change Eleven respected contributors examine governance in post Soviet Russia in comparative context investigating the roots characteristics and consequences of the crisis as a whole and its manifestations in the specific realms of tax collection statistics federalism social policy regulation of the banks currency exchange energy policy and parliamentary oversight of the bureaucracy

Collier, 2011-08-08 The Soviet Union created a unique form of urban modernity developing institutions of social provisioning for hundreds of millions of people in small and medium sized industrial cities spread across a vast territory After the collapse of socialism these institutions were profoundly shaken casualties in the eyes of many observers of market oriented reforms associated with neoliberalism and the Washington Consensus In *Post Soviet Social* Stephen Collier examines reform in Russia beyond the Washington Consensus He turns attention from the noisy battles over stabilization and privatization during the 1990s to subsequent reforms that grapple with the mundane details of pipes wires bureaucratic routines and budgetary formulas that made up the Soviet social state Drawing on Michel Foucault's lectures from the late 1970s *Post Soviet Social* uses the Russian case to examine neoliberalism as a central form of political rationality in contemporary societies The book's basic finding that neoliberal reforms provide a justification for redistribution and social welfare and may work to preserve the norms and forms of social modernity lays the groundwork for a critical revision of conventional understandings of these topics      **Handbook on the Globalization of the World Economy** Amnon Levy-Livernmore, 1998-01-01 it offers expanded coverage of issues from pure international economics to certain aspects of political economy the present book is a fine work and certainly makes a valuable contribution to the growing list of books addressing globalization Students of globalization and last but not least practitioners and politicians as well as diplomats working in international organizations can learn from it Marjan Svetlicic *Journal of International Relations and Development* This authoritative Handbook provides a thorough account and analysis of the important issues relating to the globalization of the international economy The increasing interdependence of the world's economies has caused a breakdown in national economic boundaries and a freer access to goods services and labour This comprehensive book written by experts in the field addresses major issues associated with this international economic integration This reference work considers global growth including inequality saving foreign direct investment external debt and multinational corporations regionalization and globalization of trade such as the role of international institutions external economies of scale and trading blocs transition to market economies in Central and Eastern Europe the former Soviet Union and East Asia internationalization and integration of markets including the financial capital labour and agricultural markets global environmental and resource problems including transboundary pollution the

implication of North South trade for natural resource depletion and environmental degradation and the impact of energy markets on global growth pollution and economic stability      **Fiscal Transition in Countries of the Former Soviet Union** MissA. Cheasty, Mr. Jeffrey M. Davis, 1996-06-01 This paper reviews the uneven record of fiscal performance in the states of the former Soviet Union since independence Deficits have come down rapidly an important contribution to stabilization Given however the unexpectedly severe revenue decline and limited financing the stabilization was reached by sharp cuts in expenditure The cuts were abrupt and not focused on transition goals and the instruments used vitiated normal budgetary processes Hence benchmarks of fiscal success other than stabilization are elusive Government intervention and subsidies remain important social spending is inefficient and there is little evidence in the budget of restructuring
