Handbook of the Ainu Language Anna Bugaeva, 2022-10-24 The volume is aimed at preserving invaluable knowledge about Ainu, a language isolate previously spoken in Hokkaido, Sakhalin, and Kurils, which is now on the verge of extinction Ainu was not a written language but it possesses a huge documented stock of oral literature yet is significantly underdescribed in terms of grammar It is the only non-Japonic language of Japan and is typologically different not only from Japanese but also from other Northeast Asian languages Revolving around but not confined to its head marking and polysynthetic character, Ainu manifests many typologically interesting phenomena related in particular to the combinability of various voice markers and noun incorporation Other interesting features of Ainu include vowel co-occurrence restrictions, a mixed system of expressing grammatical relations which includes the elements of a rare tripartite alignment, nominal classification distinguishing common and locative nouns, elaborate possessive classes, verbal number, a rich four-term evidential system, and undergrammaticalized aspect which are all explained in the volume This handbook, the result of unprecedented cooperation of the leading experts of Ainu, will definitely help to increase the clarity of our understanding of Ainu and in a long-term perspective may provide answers to problems of human prehistory as well as open the field of Ainu studies to the world and attract many new students
