even more persuasive All who are involved in counter terrorism strategy should consider carefully the arguments put forward
Global Policy Journal For more than 150 years nationalist populist Marxist and religious terrorists have all been remarkably
consistent and explicit about their aims provoke states into over reacting to the threat they pose then take advantage of the
divisions in society that result Yet state after state falls into the trap that terrorists have set for them Faced with a major
terrorist threat governments seem to reach instinctively for the most coercive tools at their disposal and in doing so risk
exacerbating the situation This policy response seems to be driven in equal parts by a lack of understanding in the true
nature of the threat an exaggerated faith in the use of force and a lack of faith that democratic values are sufficiently flexible
to allow for an effective counter terrorism response Drawing on a wealth of data from both historical and contemporary
sources *Avoiding the Terrorist Trap* addresses common misconceptions underpinning flawed counter terrorist policies
identifies the core strategies that guide terrorist operations consolidates the latest research on the underlying drivers of
terrorist violence and then demonstrates why a counter terrorism strategy grounded in respect for human rights and the rule
of law is the most effective approach to defeating terrorism *United States Reports, Supreme Court* United States.
